

Neath Port Talbot County Borough Council
Cyngor Bwrdeistref Sirol Castell-nedd

Democratic Services
Gwasanaethau Democrataidd

Chief Executive: Steven Phillips

Date: 15/07/20

Dear Member,

REGENERATION AND SUSTAINABLE DEVELOPMENT SCRUTINY
COMMITTEE - FRIDAY, 17TH JULY, 2020

Please find attached the following report for consideration at the next meeting of the **Regeneration and Sustainable Development Scrutiny Committee - Friday, 17th July, 2020.**

Item

3. **Recovery Strategy - to follow** (Pages 3 - 52)

Yours sincerely

p.p Chief Executive

REPORT OF THE CORPORATE DIRECTORS GROUP

JULY 2020

COVID -19: MOVING FORWARD STABILISATION – THE PERIOD BETWEEN RESPONSE AND RECOVERY

Purpose of Report

Although infection rates and related deaths have peaked and are on a steady downward trajectory, it will be considerable time – eighteen months or more – before we can start to plan to recover from the crisis. The intervening period will therefore be a period of stabilisation and the enclosed draft strategy sets out a general framework that will support a consistent and co-ordinated approach as we move towards recovery across the Council.

The draft strategy is accompanied by a Road Map (action plan) which is framed on the basis of a traffic light system, mirroring the approach the Welsh Government has set out in its document “Unlocking our Society and Economy: continuing the conversation”.

The draft strategy is being presented to all Scrutiny Committees for comment before presentation to Cabinet on 30th July 2020 for approval.

Corporate Directors Group

July 2020

Neath Port Talbot County Borough Council
Covid-19: Moving Forward
**Stabilisation – the period between response and
recovery**

Version 2.1
June 12th 2020

Foreword

The Coronavirus pandemic has had a dramatic impact on the way we live and work.

Thanks to the collective efforts of everyone in society, the anticipated peak of infection has been suppressed, the NHS has been able to cope with the influx of patients needing treatment in hospital settings and many lives have been saved.

I am immensely proud of the way in which the Council's workforce and our communities have adapted to the severe restrictions that have been placed on us all. The efforts across the county borough to sustain critical services and to support those most at risk have been extraordinary.

We are now entering a period where we will need to make further adjustments whilst we await an effective vaccine.

It is crucial that we all embed the public health measures that reduce the chance of the virus spreading into our daily routines. This will involve: maintaining good personal hygiene; continuing to practice social distancing; redesigning our services and working environments; continuing to support those who need to shield themselves from the virus; and co-operating with advice to self-isolate and get tested if we develop symptoms associated with the disease.

This strategy sets out how the Council will begin this work – work that will be subject of continuous review as new evidence and policy responses emerge.

Cllr R G Jones

Leader of Council

Introduction and Context

In the middle of March 2020, the Council mobilised an emergency response to the developing Covid-19 national emergency situation.

Since then, there has been immense effort to ensure that the Council was able to take action, in step with policy decisions taken by the Welsh Government and the UK Government. At all times our approach has been to work with and in support of government policy. Key actions taken during the response phase of the emergency have included:

- A 7 day/week **enhanced communications** service to ensure that public health messages were aggressively promoted across all channels owned/commissioned by the Council; and accurate and timely information was provided about changes to service delivery, including the establishment of new services to support vulnerable people;
- **Closing down Council services** to assist in reducing the spread of the disease as well as focusing our regulatory services on ensuring compliance with new legislation and guidance by local businesses and other organisations;
- **Changing services** so that critical services could operate safely over the period. For example: supporting continuity of learning using remote technologies to connect learners with their teachers; innovating across safeguarding services to fulfil our statutory safeguarding responsibilities using digital platforms and also creative approaches to outreach work; supporting care providers to minimise the risks involved in providing personal care across community and residential settings; re-prioritising and adapting street-scene services to keep vital refuse and recycling services operational; and re-shaping services at crematoria and burial grounds in line with governmental advice;
- Establishing **new service responses**. The new NPT Safe and Well Service was set up to support people told to shield themselves from the virus and other vulnerable people with daily living tasks. Over 1,000 residents have used the service and over 500 people registered to volunteer; Childcare provision has been provided through a network of school-based hubs, ensuring the most vulnerable learners and the children of those working in essential roles have been well supported over the

period. New on-line services were set up to support the administration of financial assistance to businesses and community groups. The Council undertook the project management of the construction of the Llandarcy Field Hospital, completing the build within four weeks; Children entitled to free school meals have also been supported throughout the period, initially through the “grab bag” scheme and then more latterly by payments into the bank account of eligible parents; and

- The Council has encouraged and supported the fantastic **community action** we have seen across the county borough, helping councillors where needed to complete the setting up of “street champion” networks, adapting the NPT Safe and Well Service to response to community needs, helping to connect local businesses with other businesses and local communities, working with local third sector organisations and housing associations, respecting what each agency is able to offer communities at this extraordinary time.

This would not have been achieved but for the exceptional commitment from the Council’s workforce and the strong partnership between the Council and the trade unions.

Support functions have also adapted to enable these changes. Some examples of the work completed includes:

- Refocusing of the Council’s **Human Resources** Service to support the workforce as many were required to work from home using new remote technologies; providing employees with advice and reassurance if their ability to work was affected by their own health conditions, caring responsibilities or because their work had significantly changed or had temporarily been suspended. All of those unable to work were invited to consider redeployment. Several hundred of the Council’s workforce voluntarily agreed to temporary redeployment into other roles – this has included secondment to the communications team, refuse and recycling, customer services, NPT Safe and Well, Test Trace and Protect;
- **Health and safety** has been a top priority over the period. Risk assessments, identifying the range of protective measures put in place to protect staff and service users, such as: PPE; workplace redesign to

ensure social distancing; and use of other equipment such as in-cab screens has required an immense effort, especially in the early stages of the outbreak when global supply chains were under immense pressure and Government guidance was changing very rapidly as scientific evidence developed;

- Alongside health and safety physical control measures, there was an early focus on supporting the emotional wellbeing of employees. A wide range of new on-line **wellbeing resources** has been established and promoted to the workforce and more recently telephone helplines for all staff and pupils have also been put in place, connecting those needing help to the Occupational Health Service or the Education Wellbeing Service ;
- The nature of the Coronavirus has meant that people should avoid face to face contact wherever possible and void touching things that other people may have touched. The work done in recent years to develop the Council's digital capability has been a key asset during the outbreak. For example: Staff using remote **technology** increased from an average of 50 per day to over 1500 per day over the first four weeks of the outbreak as many were required to work from home using Microsoft Teams to connect with other work colleagues. New software services created through collaboration between business rates, economic development and digital services staff created on-line services to enable rapid payment of government grants to over 2,000 businesses - the value of payments made to date exceeding £25 million. Similarly, collaboration between finance, education and digital services teams have enabled payment of funds to over 5,000 parents of pupils entitled to free school meals and the data sciences skills within digital services enabled lists of people advised to shield to be matched with other data to support the development of systems needed by the NPT Safe and Well Service. More latterly, focus has also turned to those who are digitally excluded. Over 1,350 devices have been issued to pupils who have no suitable device or wifi connection at home which will ensure no learner is excluded from learning because of technology limitations in their household. There are many more examples of digital technologies providing a strong backbone to keep the Council functioning;
- As the pattern and nature of work has shifted over the period, learning and development activities have adapted too. **e-learning** has massively

expanded with many people unable to perform their normal duties taking the opportunity to update their skills include, for example, Welsh language and safeguarding training. Where there has been a need for face to face training adaptations have been made to ensure social distancing.

Delivering change on the scale and at the pace that has been required has been a corporate effort. People from different professional disciplines have collaborated to do what has been required. As well as ensuring the Council has been able to quickly mobilise its emergency response, there many lessons to be drawn from the period that will be drawn out to inform the work that will need to be done in the period ahead as the Council re-shapes its services and functions further to adapt to operate safely with the continuing threat posed by the disease.

Leadership and Governance during the Response Phase

Political Leadership and Governance

Leadership and democratic oversight of the Council's work needed to adapt very quickly over the period.

Lockdown measures imposed by the UK and Welsh governments meant that all Council meetings were suspended. Decisions have therefore been taken under the urgency and emergency provisions contained with the Council's Constitution.

To ensure visibility of decision making, administrative processes were adapted to work on a digital platform, mirroring as closely as possible what would have happened prior to the outbreak. Scrutiny chairs have been routinely consulted about decisions requested from the Executive. All decisions made under the arrangements have been published to the Council's Modern.gov system – available to all members of Council but also to members of the public (except for private items).

The Leader of Council has participated in the network of meetings established by the Welsh Local Government Association designed to co-ordinate the local government response across Wales. These arrangements have meant that the Council has been able to escalate issues where needed but has also had early notice of additional changes that have been required. Informal meetings of the Cabinet have been held as have regular meetings between the Leader, Chief Executive, Assistant Chief Executive and opposition group leaders – all of this designed to provide regular briefings on the changes taking place and to receive feedback.

While formal meetings have been suspended, a number of mechanisms have been deployed to keep in touch with all Members of Council. Regular bulletins and e mails have been sent to members by e mail focusing on some of the key changes that have been taken or were being planned to respond to the measures taken by governments.

Following the enactment of legislation to remove the requirement for Members to be seen and heard in formal meetings of the Council, the Council moved quickly to resume key meetings using Microsoft Teams. The meetings held to date have included a meeting of the Council (the first council in Wales to hold a full meeting of Council remotely) and meetings of the Cabinet, Planning Committee, Audit Committee and Cabinet Scrutiny Committee. An initial debrief has been held to tease out immediate lessons learned and a fuller review is scheduled before the end of July to agree the pattern of meetings and associated support from autumn onwards. Issues to take forward in the next period will include enhancing scrutiny, resuming bi-lingual meetings of Council, ensuring public access to all meetings as well as refining practical arrangements such as the type of device used for meetings, meeting protocols, support at meetings and consideration of alternative software systems.

Council has also authorised the establishment of a cross-party Panel to support the Cabinet in moving forward from initial response to stabilising council services in the new operating environment. One of the key tasks given to the Panel by Council is to ensure each member of Council is encouraged to help shape the way forward.

Professional Leadership and Governance

In the initial response phase of the outbreak, the Chief Executive established and chaired an Incident Management Group to provide professional leadership during the response phase and this met daily, seven days/week using a standard agenda. The Incident Management Group was comprised of the corporate directors and assistant chief executive and heads of service, as appropriate.

Key issues discussed and decided at the daily Incident Management Group meetings were recorded by the emergency planning team. Issues from these meetings were then briefed to daily meetings between the Leader and Deputy Leader and the Chief Executive and Assistant Chief Executive. Information was also cascaded down to operational teams through the respective chief officers but also where needed into wider structures.

Work tasked from the Incident Management Group ensured that the Council quickly assembled (and where required deployed) emergency responses. Activity mobilised included, for example: project management of the Llandarcy Field Hospital, creation of the NPT Safe and Well Service to meet the needs of shielded and vulnerable people, plans to expand capacity to care for the deceased, creation of child care hubs in schools, support to adult social services, etc

The local emergency response was undertaken in alignment with the work of the South Wales Local Resilience Forum which convened a series of Strategic Co-ordinating Group meetings during the period – with a focus on facilitating co-ordination across the different arms of the public service, eg police, local government and others.

Because of the nature of the emergency, joint arrangements were also agreed between Swansea and Neath Port Talbot councils and the Swansea Bay Local Health Board to oversee the local health and social care response. The governance of the Regional Partnership Board was formally amended to ensure that more agile arrangements were put in place to work through and manage the pressures across the health and social care system and to make contingency plans for a significant surge in people needing treatment for Coronavirus.

The Incident Management Group ensured that these arrangements were focused on the priority issues and that the Council had a coherent and corporate approach throughout the emergency response period.

From the outset, all costs incurred in responding to the outbreak have been assigned to a project code enabling a clear audit trail to be available to identify and substantiate the costs of response, backed up by decisions taken under urgency provisions, where required.

Next Steps

On Friday, May 15th 2020, the Welsh Government published initial plans to lift restrictions in Wales, described as the next phase of response to the virus “¹Unlocking society and our economy: continuing the conversation.” The publication of the route map signals a cautious shift towards lifting some of the restrictions imposed to reduce the spread of the virus, protect the NHS and save lives.

As in the initial response phase, the Council will act in step with the Welsh Government to establish the arrangements that will be needed to continue to bear down on the spread of the disease whilst also easing the restrictions that have been applied during the lockdown period.

This strategy sets out a general framework that will support a consistent and co-ordinated approach as we move towards recovery across the Council.

¹ <https://gov.wales/sites/default/files/publications/2020-05/unlocking-our-society-and-economy-continuing-the-conversation.pdf>

Moving Forward

Although infection rates and related deaths have peaked and are on a steady downward trajectory, there will be no return to normality in the immediate future. Until a vaccine and effective treatments are available, we will need to adjust our daily lives to live with the constant threat posed by the disease.

It will therefore be a considerable time – eighteen months or more – before we can consider that we are recovering from the crisis. The intervening period will therefore be a period of stabilisation – a period where we work in step with the leadership provided by the Welsh and UK governments to carefully lift the restrictions imposed on the daily life of our staff and residents, always vigilant to the potential for infection rates to increase.

As in the response phase, it is crucial that we take a corporate approach to the way we achieve stabilisation. There are three key areas of focus for us:

1. **Test, Trace, Protect** – the Council has a significant role in implementing the Welsh Government’s Test, Trace, Protect Strategy.

Our Environmental Health Service will oversee the delivery of the local contact tracing service which forms the tier 1 services within the 3 tier Test, Trace, Protect NHS national service model. Environmental Health will also contribute their resource and expertise to the 2nd tier, regional element of the national service.

This is a significant undertaking for the Council. Test, Trace, Protect plays a vital role in protecting the public health, tracing those who have been in contact with someone who has tested positive for Coronavirus, encouraging people to responsibly quarantine themselves which in turn will help prevent the spread of the virus and break the chain of transmission. The information gathered from this work will also help public health professional better understand how the disease is affecting our local community and consequently informing further public health measures that can help keep our communities safe.

The Council’s involvement in Test, Trace, Protect is also significant in terms of the scale of the activity and resource involved. Current

estimates put the financial cost of the service at over £3 million for the initial phase of operation.

Test, Trace, Protect will also play a key role in building confidence in our workforce, our service users and the wider community as restrictions are lifted. Those who are symptomatic can now easily access tests while they self-isolate. All residents and the workforces in closed settings, such as care homes, will access testing whether symptomatic or not - one of a series of measures to enhance protection for those who are especially vulnerable.

- 2. Resumption of Council services and functions** – Whilst some services have been temporarily suspended during the response phase, most council services and functions have continued to operate albeit with changes made to access and operational arrangements to respond to the numerous measures put in place by the UK and Welsh governments.

As we move into the stabilisation phase, all services and functions are undertaking review exercises to tease out the lessons learned during the response phase which in turn will inform the way in which those services and functions may operate as restrictions are carefully eased by governments.

For those services which were temporarily suspended in line with government requirements and guidance, plans are being prepared to bring those services back into operation, adapted to comply with social distancing and high standards of hygiene. However, the timing of when services will resume will be informed by government decisions on the lifting of lockdown restrictions and also our local risk assessment arrangements.

As indicated in the earlier sections of this paper, there have been many innovations during the response period which need to shape the way we plan services and functions into the future. We **should not be assuming a return to the old normality** – we will be forced to live with adaptations

to services and functions until the threat presented by the Coronavirus has been satisfactorily addressed – but there are also clear indicators too that the crisis has enabled new, more responsive approaches to be developed by the Council to the way we respond to community need; that community action has been stimulated in a significant way across all communities; and that other local agencies too have needed to adapt their offer over the recent months. We need to use the stabilisation period to reflect on this and realise some of the opportunities that have been created by the crisis alongside the work we will need to do to address the risks and threats.

It is essential that we approach the exercise of resuming council services and functions from a corporate perspective, taking the unique opportunity now presented to test how well proposed service models are likely to respond to the changed and changing needs of our communities, the financial and human resources likely to be available, applying the important learning we have done during the response phase which has seen some remarkable examples of innovation and ingenuity- for example:

- The completion of the Llandarcy Field Hospital in less than a month;
- The development of a corporate, single organisational view of the most vulnerable children, young people and families that education, social services and community safety all support. This may create an opportunity to also develop a single, integrated response to meeting the needs of this cohort of our population;
- The expansion of digital approaches combining datasets from disparate databases with the rapid development of new digital services using tools such as webchat and chatbots – these changes have reinforced the importance of all elements of the Council’s existing Smart and Connected Strategy with an opportunity to deliver our ambition at far greater pace than initially envisaged;
- The deployment of multi-disciplinary teams to respond at pace to rapidly changing situations – these examples

demonstrate what becomes possible when people are not constrained by service and directorate silos, pooling expertise, knowledge and resources to deliver good outcome for our citizens.

The Roadmap attached at Appendix 1 provides a framework against which we will plot the way services will resume during the stabilisation phase. For some services and functions, the Roadmap is already clear, for others there is more work and thinking to do. The Roadmap will therefore need to be continuously updated as we work through the months ahead, this may include revisiting early plans as we put plans into practice and learn from our own experience and from wider afield.

Our Roadmap will also enable us to demonstrate our local response to the Welsh Government's policy framework set out in "2Unlocking society and our economy: continuing the conversation".

3. Understanding and responding to the impact Covid-19 has had for citizens, businesses and other organisation across Neath Port Talbot –

As countries across the globe reflect on the impact of Coronavirus it is clear that the pandemic is likely to have both and immediate and longer term, significant impact.

Countries around the world are reporting significant political, economic and social impacts. There are also emerging impacts for the environment. We need to make a clear assessment of these impacts for our local area too. The Neath Port Talbot Public Services Board, chaired by the Leader of Council is well-placed to undertake a community impact assessment using the Wellbeing of Future Generations (Wales) Act 2014 framework to establish the impact of the pandemic on the economic,

² <https://gov.wales/sites/default/files/publications/2020-05/unlocking-our-society-and-economy-continuing-the-conversation.pdf>

social, environmental and cultural wellbeing of Neath Port Talbot residents. The community impact assessment will inform our work to respond locally to our communities needs whilst also providing an evidence base to influence policy choices at the regional and national tiers of governments.

A multi-agency group, led by the Council, is collecting data to produce an initial impact assessment by mid June 2020. As well as gathering data from key indicators, for example Universal Credit claimant counts, crime and disorder etc, the exercise is seeking to gather views from a wide cross section of people to understand the lived experience of people from different backgrounds and places across our communities since the outbreak started.

An initial community impact report will be considered by the NPT Public Services Board towards the end of June. It is anticipated that the report will enable the key areas of focus to be identified and the Board will then need to organise work and resources to move the work forward into its next stage. There will be an important community leadership role for elected members here too, both in terms of ensuring the impacts drawn out for each community are relevant and accurate as well as ensuring the Board itself is held to account for the way in which agencies plan to respond to the findings of the exercise.

Political leadership throughout this phase is critical. Governments the world over are striving to secure the confidence of citizens as they work through unprecedented challenges to move from response, through stabilisation to recovery. Elected members must be supported to provide strong community leadership through the next period and beyond as we move towards recovery. The cross-party Member Panel established by Council will be an important mechanism to achieve this.

The work we undertake in each of the three areas summarised above will be tested against the vision, principles and objectives set out in the next section.

Moving Forward – Vision, Aims and Objectives

Vision

Residents, businesses and organisations are able to shape and agree upon the measures each needs to take to protect public health, control the spread of the disease and maximise the life chances of everyone who lives and works in the county borough.

Aim:

To ensure that the residents, council staff and all other employment sectors within Neath Port Talbot are supported to move safely from lockdown conditions in accordance with Welsh Government guidance whilst continuing to reduce the impact of Covid-19 on our communities and most vulnerable populations.

To identify and implement the most effective and efficient ways of delivering and facilitating services in order to support local economic recovery and public service functions, prioritised according to resource and need.

Objectives:

1. To encourage residents, staff and organisations to continue to comply with the public health guidance;
2. To establish a resilient and effective contact tracing capability to support the delivery of the Welsh Government's strategy ³"Test, Trace and Protect";
3. To support vulnerable residents who are required to shield themselves;
4. To bring the Council's services and functions safely back into operation;
5. To work with Public Service Board partners to identify the wider impacts of the pandemic on the communities of Neath Port Talbot and the collective action needed to address those impacts; and
6. To ensure the Council can mobilise a speedy and effective emergency response should infection rates increase.

³ <https://gov.wales/test-trace-protect-html>

Principles:

- We will act in step with the policy decisions taken by the Welsh Government, wherever possible;
- We will adopt a corporate and consistent approach to recovery activities;
- We will base decisions on the most recent scientific advice and evidence available, supporting Welsh Government to keep the reproduction rate “R” below 1;
- We will prioritise the safety and wellbeing of our staff and those who need to use our services and functions;
- Where possible, services and functions will be delivered on-line or be re-designed to limit face to face contact;
- We will continuously engage with and involve our workforce, residents, businesses and other organisations in our recovery process;
- We will assess the impact of our recovery work on people who share protected characteristics, on our ability to deliver our statutory responsibilities and also on the Council’s financial health; and
- We will ensure strong democratic oversight and public accountability of our recovery work.

Leadership and Governance in the Stabilisation Phase

Political Leadership and Governance

Political leadership will be provided by the Cabinet, supported by a cross-party Member Panel – Coronavirus Recovery Phase. Through the work of the Panel, mechanisms will be established to ensure all Members of Council have an opportunity to shape the Council’s plans to resume services and functions as we move through stabilisation towards recovery. Regular reports will be provided to enable Members to monitor the progress made.

Senior members will continue to actively participate in regional and national networks to ensure we are learning from elsewhere, helping to shape national and regional policy and continuing to advocate for the interests of our citizens.

Formal meetings of the Council will be expanded but most, if not all business, will take place over remote technology. Public access to meetings will be enhanced and scrutiny committees will begin to play a more significant role in helping to shaping the Roadmap and associated work as well as scrutinising the done by the Neath Port Talbot Public Services Board, the Cabinet Scrutiny Committee, exercising powers delegated to it by Council to scrutinise the work of the Board.

Professional Leadership

Professional Leadership will be provided by the chief officer group, led by the Chief Executive through a Recovery Planning Group. The Recovery Planning Group will ensure there continues to be a corporate and coherent approach to the way we approach stabilisation through to recovery, using the lessons learned from the immediate response phase.

Each service manager will prepare plans for the recovery of the services and functions for which they are accountable, using this strategy as a framework. The Chief Executive will also designate lead officers to develop other responses as may be required, to fulfil the objectives set out in this strategy.

The development and operation of Test, Trace, Protect and the planning and delivery of health and social care services will operate on the Swansea Bay Health Board footprint, enabling Neath Port Talbot Council to integrate and co-ordinate its local arrangements with Swansea Council and the Swansea Bay Local Health Board. Governance arrangements are in place to support this joint work with clear lines of communication back to the Council's Recovery Planning Group and associated democratic arrangements.

Officers will also continue to participate in the South Wales Local Resilience Forum and wider networks to help shape government policy and to share the learning that is emerging as all agencies adapt to the impact of this pandemic.

Risks and Issues

There are a number of key risks and issues that we will need to manage as we seek to implement this Strategy. These include:

- Risk that the reproductive rate (R) for the disease will increase – ie will exceed 1 and consequently lockdown measures will be reintroduced and emergency responses re-mobilised;
- Availability of suitable Personal Protective Clothing (PPE) – whilst supply chains are improving, in the short term pressures for some stocks continue to be experienced;
- Impact of Test, Trace, Protect – with more extensive testing of the population, it is likely that the number of staff self-isolating will increase, placing strain on business continuity;
- Impact of social distancing measures – the 2m requirements have a significant initial and recurring impact on the model and cost of services and functions;
- Organisational capacity – the Welsh Government is requiring the Council to establish new services such as the NPT Safe and Well Service and the Test, Trace, Protect Service as foundations of its health protection strategy. Resourcing of these new services has been met by redeploying staff from other roles. As the Welsh Government eases restrictions and encourages more public services to come back into operation, staffing resources will come under increasing strain as we balance new responsibilities with existing responsibilities;
- Community Impacts – the economic, social, environmental and cultural impacts will shape the volume, range and pattern of demand for Council services and functions. Impacts may be experienced differentially, between groups with protected characteristics and across different geographies which in turn may require a differential response by the Council and its partners as we design a pathway to recovery;

- Community Cohesion – as restrictions are eased and time elapses there is a risk that people’s propensity to comply with ongoing restrictions will be mixed, creating tension between those who are complying and those who are not. There are also reports from elsewhere of anti-Chinese sentiment that we need to be alert to locally;
- Financial and Resourcing Risks – the Welsh Government has already agreed a supplementary budget for 2020-21 which in part re-prioritises some elements of the budget voted by the Senedd prior to the outbreak. There is a risk that other programmes, including capital programmes will be affected by decisions taken by the UK and Welsh Government to undertake a wider re-prioritisation of public funding and also the policy choices made to fund the financial costs of the pandemic;
- Governance – the scale of the emergency response saw the temporary suspension of legislation, regulations, guidance and a range of statutory reporting requirements. There is a risk that these will be reintroduced without review, placing burdens on the Council at a time when capacity needs to be focused on the work we need to do during stabilisation and in recovery. There is also a need for the Council to ensure its own checks and balances are fit for purpose with systems of governance enabling and supporting the changes that will need to be delivered and not impeding them.

Financial Considerations

At the time of writing, the medium to long-term financial implications for the council are largely unknown. In the short term, the council’s cash flow can be sustained as a consequence of advance payments of Revenue Support Grant and the support announced in the Welsh Government Supplementary Budget on 28 May.

However, the financial implications of COVID-19 will undoubtedly be very significant and decisions in the short-term must be informed by this context.

The Director of Finance and Corporate Services and his team are preparing estimates of the one-off and recurring financial impacts of this outbreak and the detail of his work will be reported to Members as soon as available.

Strategy Review

Because of the dynamic nature of the situation, this strategy will need to be kept under continuous review to ensure its continued relevance.

DRAFT

Covid-19 – Moving Forward

Stabilisation – the period between response and recovery

Road Map

Version 2.3

July 2020

The Council has framed its action plan on the basis of a traffic light system, mirroring the approach the Welsh Government has set out in its document “Unlocking our Society and Economy: continuing the conversation”.

DRAFT

OBJECTIVE: To encourage residents, staff and organisations to continue to comply with the public health guidance

LEAD: Assistant Chief Executive and Chief Digital Officer

Lockdown	Red	Amber	Green
Promote and amplify public health messages across all of the Council's owned and commissioned channels			
Communicate services available to support vulnerable residents and encourage take up			
Communicate support and assistance available to people and organisations impacted by restrictions			
Communicate business opportunities to local companies and organisations			
Monitor channels to gain insight into how the lockdown is affecting people, business and other organisations			
Extend digital channels available to the workforce and elected members, including access to e-learning and wellbeing support			
Communicate how critical services are operating during the lockdown period			
	Communicate changes to service availability as restrictions are eased. Monitor the impact of changes to service availability on behaviours		
	Survey residents, staff and other stakeholders to assess the impact of ongoing restrictions and to gauge the level of confidence to engage with services as they are recovered		
		Use learning and insight to generate further innovation in the delivery of the communications function	

OBJECTIVE: To establish a resilient and effective contact tracing capability to support the delivery of the Welsh Government’s strategy ⁴“Test, Trace, Protect”;

LEAD: Director of Environment and Regeneration

Lockdown	Red	Amber	Green
	Recruit, train and equip 6 contact tracing teams and associated business support	Expand contact tracing capability in line with governance policy and available resource	Right size contact tracing capability to “new normal” requirements
	Establish regional tier of contact tracing capability to deal with more complex situations		Right size regional tier capability to “new normal” requirements
			Agree the actions the Council can take to sustain the public health protection strategy over the medium term

⁴ <https://gov.wales/test-trace-protect.html>

OBJECTIVE: To support vulnerable residents who are required to shield themselves;

LEAD: Assistant Chief Executive and Chief Digital Officer

Lockdown	Red	Amber	Green
Promote take up of the NPT Safe and Well Service to people who are shielding and to those who need to self-isolate where they have no other form of support	Work with food retailers across the county borough to ensure there are sufficient opportunities for people who are shielding or self-isolating to source their own food	Transition people supported by NPT Safe and Well with a food delivery service to local food retailer alternatives	
	Work with the Health Board to ensure there is sufficient capacity within the community pharmacy network to deliver medication to those who require assistance	Transition people supported by NPT Safe and Well to a community pharmacy delivery service	
	Review all of the cases open to NPT Safe and Well to establish needs other than food and medication	Develop options for meeting wider support needs.	Implement agreed model for meeting wider support needs

	collection where there is a need for ongoing support		
Promote volunteering opportunities with NPT Safe and Well to ensure there are enough people available to support those who are shielding or who need to self-isolate and who have no other form of support	Induct, train and support volunteers	Develop options for sustaining volunteer arrangements in line with changes to the model of support	Implement changes to volunteer model
Encourage and celebrate wider community action mobilised to support communities during the lockdown phase	Continue to encourage and celebrate wider community action	Explore how community action can be sustained over the longer term	

OBJECTIVE: To bring the Council’s services and functions safely back into operation;

LEADS : Assistant Chief Executive and Chief Digital Officer, all Directors

a) Education and Care for Children

Lockdown –closed except for key workers and vulnerable children. Outreach services in place	Red – no change, but able to manage increase in demand from children already eligible to attend schools and daycare	Amber – priority groups of pupils return to school in a phased approach. Increased numbers of children in daycare	Green – all children and students able to access education. All children able to access daycare.
Schools are closed except to accommodate vulnerable pupils and the children of critical workers. Measures are in place to support remote learning and to provide outreach services to vulnerable children and special needs pupils	Increase in number of hubs for children of critical workers	Schools re-open for a three week period to enable learners to check in, catch up and prepare for September term Blended learning continues Child care for critical workers stopped. Vulnerable learners continue to attend school and receive support over the summer holiday period	All schools re-open on 1 st September with all children attending school regularly from 14 th September.
