2. **CHAIRPERSON'S ANNOUNCEMENT/S**

The Chairperson welcomed all to the meeting.

3. **MINUTES OF PREVIOUS MEETING**

The minutes of the previous meeting held on the 21st of March, 2024, were approved as a true and accurate account.

4. **AUDIT WALES - USE OF PERFORMANCE INFORMATION:
SERVICE USER PERSPECTIVE AND OUTCOMES - NEATH PORT
TALBOT COUNCIL**

Officers from Audit Wales provided an overview to the circulated report.

Audit Wales Officers informed the committee that the audit was undertaken in 22 Councils in Wales as well as Neath Port Talbot, also they intend to publish a national summary of the work in the late summer.

A draft was shared with council officers and the report was published in January, 2024.

Audit Wales Officers mentioned the performance information that is provided in the quarterly reports is not reflected in the report and feel that it is a missed opportunity to give senior leaders information which would help them understand the views of service users. Officers recommended that the council should ensure that the information that is provided to senior leaders enable them to understand the service user perspective on a broader range services and policies, the council should ensure this information is drawn from the diversity of service users.

Audit Wales Officers highlighted that performance information that the council provides to senior leaders focuses on activities and outputs, as opposed to evaluating their impact. In the Corporate Plan Annual Report (2021-2022) the council provides some case studies examples to illustrate the outcomes that is achieved under each of the three wellbeing objectives. The council quarterly performance reports describe activities and outputs, as opposed to as assessment for progress against the outcomes that the council is seeking to achieve. Officers recommended that the Council should strengthen the information it provides to senior leaders to help them evaluate whether the council is delivering its objectives and intended outcomes.

Audit Wales Officers highlighted that the council has limited arrangements to ensure the information it provides to the senior leaders on the service users perspective and outcomes is accurate. Officers recommended that the council needs to assure itself that it has robust arrangements to check the quality and accuracy of the information it provides to senior leaders, relating to the service user perspective and outcomes.

NPT Officers explained to the committee that they acknowledge that there is work for them to do to bring together the information corporately and ensure that information is reported to senior leaders. Officers stated the response was submitted towards the end of last year. Officers highlighted that in the papers, there is an organisational response form which the recommendations have been responded to. Officers also added that the Corporate Plan will be going to Cabinet the end of July for approval and Council for adoption. Officers also stated that the new model of scrutiny is now embedded.

Members asked when there will be another update. Officers stated they will give an update at the next meeting. Members asked in relation to the data quality, has management considered the impact of models and spreadsheet application in the reporting process. Officers mentioned they had a corporate performance system which they no longer have but are looking at a system that will help them in the future. An update will be brought to the next meeting, also a digital services officer has been appointed and taken the lead on data. An invite will be sent to the new officer to attend a future committee.

Resolved: That the report be noted.

5. **AUDIT WALES - ANNUAL AUDIT SUMMARY 2023**

Officers from Audit Wales provided an overview to the circulated report.

Officers updated the Committee that the summary will be presented to Council on the 6th September, 2024.

Officers mentioned that the Corporate Performance Management Framework update will be brought back to the next meeting.

Resolved: That the report be noted.

6. **AUDIT WALES - PROGRAMME & TIMETABLE - QUARTER 4 UPDATE TO 31ST MARCH 2024**

Officers from Audit Wales provided an overview to the circulated report.

Resolved: That the report be noted.

7. **AUDIT WALES - 2024 AUDIT PLAN NEATH PORT TALBOT COUNCIL**

Officers from Audit Wales provided an overview to the circulated report.

Officers explained that in relation to performance, they have a standard piece of work that they do every year in every council which is called Our Assurance in Risk Assessment Work. Each year, Officers meet with the Councils Corporate Management Team (January/February), discuss the assurances with risk and find out what areas they can be supported, Officers take the Councils views and put all the information into an Audit Plan. Officers explained there will be a review on Cyber Security arrangements and there is a meeting scheduled for September 2024.

Officers informed the committee they have a Thematic (Service User Information) on the Performance Audit Work Programme, they are two pieces of work ongoing, one in relation to financial sustainability and the other on commissioning. Officers updated the committee that The Work Force Pressures in local government will be deferred to the 2025/26 work programme as opposed to the 24/25 programme. Members asked if they could have a list of the audits that had been undertaken in relation to cyber security. Officers will get the information to the committee.

Decision: That the report be noted.

8. **ANNUAL GOVERNANCE STATEMENT 2023-2024**

Officers provided an overview to the circulated report.

Officers updated members that this report will be going to Cabinet 24th July, 2024.

Decision: That the report be noted.

9. **REGISTER OF REGULATORS REPORTS & RECOMMENDATIONS.**

Officers provided an overview to the circulated report.

Officers and members agreed that a report would be brought back to the next meeting.

Decision: That the report be noted.

10. **GOVERNANCE & AUDIT COMMITTEE ANNUAL REPORT 2023/24**

Officers provided an overview to the circulated report.

Officers gave apologies in relation to the formatting of the covering report and will be corrected the next time it comes to committee.

Decision: That the report be noted.

11. **2023/24 ANNUAL INTERNAL AUDIT REPORT**

Officers provided an overview to the circulated report.

Officers updated the committee that there will be a new Head of Internal Audit appointed from September 2024.

Decision: That the report be noted.

12. **CLOSURE OF ACCOUNTS 2023/24**

Officers provided an overview to the circulated report.

Decision: That the report be noted.

13. **FORWARD WORK PROGRAMME**

In relation to Social Services, members asked for information on Performance Indicators to service users.

Officers mentioned they can attend Social Services Scrutiny Committee to get this information but will also check if this information can go to Governance and Audit Committee.

Members asked is there any work being undertaken in relation to poverty outcomes.

Officers mentioned that they do have a poverty prevention working group, Officers suggested that members have a look at minutes/reports from that group. Officers will ask the chair of the group to speak to members with more information.

Members asked if they could bring an update to the next Committee in relation to Risk Registers.

Officers mentioned Corporate Directors Group are having a workshop the end of August, Officers will bring an update to the next meeting with the outcomes.

Decision: That the forward work programme 2024/ 2025 be noted.

Our link inspectors are continuing to work with Torfaen as part of our follow-up process for an authority causing significant concern.

We inspected two local government education services during the summer term, which were Ceredigion and Caerphilly. The reports will be published in late August and early September respectively.

During the summer term piloted our enhanced link visits in Pembrokeshire and Neath Port Talbot. The visits were carried out by three link inspectors visiting the local authorities for two days focusing on two specific aspects of the local authority's work. In Pembrokeshire we looked at the asymmetric timetabling arrangements in 24 of their schools and their approaches to improving attendance. In Neath Port Talbot, the focus was on their support for curriculum development and attendance. We carried out field work in nearly all local authorities on the Implementation of the Additional Learning Needs and Education Tribunal [Wales] Act 2018 in non-maintained settings, primary and secondary schools and all age schools. This review follows on from the year 1 review of the implementation of the ALNET Act in schools, which was published in September 2023. We also carried out field work focusing on 'the impact of poverty in educational attainment, support, provision and transition for early education' in nearly all local authorities.

Introduction

I have now largely completed my audit in line with my Detailed Audit Plan.

This Audit of Accounts Report summarises the main findings from my audit of your 2023-24 statement of accounts. My team have already discussed these issues with the Director of Finance.

I am very grateful to your officers for their support in undertaking this audit.

Auditor General for
Wales

Your audit at a glance

Audit opinion

We are proposing to give an unqualified opinion on the accounts.

We have nothing to report under the other sections of my report, ie those relating to going concern; other information; other matters; or matters I report by exception.

Significant issues

There are uncorrected misstatements accounts of £746,525 in the accounts.

We have identified the following significant issues:

- Derecognition of capital expenditure.
- Nil net book value assets.

In addition to the above, during our audit we identified two additional risks to those reported to you within our detailed audit plan:

Significant risk	Our response
<p>Treatment of internal recharges</p> <p>We identified a net credit of £14.6 million within gross expenditure in the Comprehensive Income and Expenditure Statement (CIES).</p> <p>We would expect internal recharges of income and expenditure to net off to nil within the general ledger.</p> <p>The Council was unaware of this issue and had to undertake considerable work during the audit to review the transactions and provide us with details of what the transactions related to.</p>	<p>The audit team:</p> <ul style="list-style-type: none"> • gained an understanding of the process undertaken by the Council to account for internal recharges during the year; • gained an understanding of the process to remove all internal recharges during the preparation of the year end accounts; • reviewed the detailed population provided by the Council to identify any significant values; and • tested a sample of transactions to gain assurance that they were valid and were supported by evidence. <p>Our audit findings are summarised in the other significant issues section of this report.</p>
<p>Classification of surplus assets</p> <p>Note 11 Property, Plant and Equipment included Surplus Assets of £10.2 million.</p> <p>Our initial review of surplus assets identified a piece of land valued at £1.6 million that was a duplication of land held within other land and buildings.</p> <p>We were unable to treat this error as isolated and therefore conclude that the value of surplus assets within the accounts was not materially misstated.</p>	<p>The audit team:</p> <ul style="list-style-type: none"> • reviewed the detailed list of all assets considered by the Council to be surplus; • requested the Council review all surplus assets valued over £100,000 to identify any further duplications or operational assets; and • tested a further sample of assets classified as surplus to ensure correctly treated. <p>Our audit findings are summarised in the other significant issues section of this report.</p>

Financial Statements Materiality

Materiality

Materiality	£6,143,000
Reporting threshold ('trivial')	£307,200
Areas of specific interest:	
• Remuneration report	£1,000
• Related party disclosures	£10,000

Materiality £6.143 million

My aim is to identify and correct material misstatements, ie those that might otherwise cause the user of the accounts to be misled.

Materiality is calculated using:

- 2023-24 gross expenditure of £614.398 million calculated using 2023-24 final draft actual expenditure.
- Materiality percentage of 1%

I apply the materiality percentage to gross expenditure to calculate materiality.

I will report to you any misstatements above £307,200, calculated as 5% of materiality (called the 'trivial level').

Areas of specific interest

There are some areas of the accounts that may be of more importance to the user of the accounts. We set lower materiality levels for these as follows:

- Remuneration report £1,000
- Related party disclosures £10,000

Ethical compliance

Compliance with ethical standards

We believe that:

- we have complied with the ethical standards we are required to follow in carrying out our work;
- we have remained independent of yourselves;
- our objectivity has not been comprised; and
- we have no relationships that could undermine our independence or objectivity.

Proposed audit opinion

Audit opinion

We intend to issue an unqualified audit opinion on this year's accounts once you have provided us with a Letter of Representation (see below).

Our proposed audit report is set out in **Appendix 1**.

Letter of representation

A Letter of Representation is a formal letter in which you confirm to us the accuracy and completeness of information provided to us during the audit. Some of this information is specified as being necessary by auditing standards; other information may relate specifically to your audit.

The letter we are requesting you to sign is included in **Appendix 2**.

Issues arising during the audit

Misstatements

A misstatement arises where information in the accounts is not in accordance with accounting standards.

Uncorrected misstatements

We set out below the misstatements we identified in the accounts, which have been discussed with management but remain uncorrected. We request that these misstatements be corrected.

If you decide not to correct these misstatements, we ask that you provide us with the reasons in writing for not correcting them:

Note 17 Creditors – Central Government bodies

We identified £390,000 of Welsh Government creditors that were misclassified as creditors and should be treated as earmarked reserves.

The balances relate to grant funding received in previous years that has not been completely spent but which does not have a requirement to be repaid to Welsh Government.

The Council will amend the treatment of these balances within the 2024-25 financial statements.

Note 11 Property Plant and Equipment – Infrastructure Assets

We identified £356,525 of costs relating to EV charges and solar panels that were misclassified as infrastructure assets and given an estimated useful life of 40 years.

We do not believe that such assets should be treated as infrastructure and given such a long estimated useful life. We consider the assets to be equipment and should be included within vehicles, plant, furniture and equipment and given a more realistic estimate of useful life.

The Council will amend the treatment of these balances within the 2024-25 financial statements.

Corrected misstatements

During our audit, we identified misstatements that have been corrected by management, but which we consider should be drawn to your attention.

The amendments made to the financial statements increased the Council's reported deficit in the year within the Comprehensive Income and Expenditure Statement (CIES) by £1.383 million from £15.594 million to £16.977 million.

The impact on the Balance Sheet was to reduce Net Assets by £1.383 million from £603.072 million to £601,689 million.

The corrected misstatements are set out in **Appendix 3**.

Other significant issues

In the addition to misstatements identified during the audit we also report other significant issues to you.

The following significant issues were identified during the audit.

Weaknesses in Controls – internal recharges

We identified a net credit of £14.0 million within gross expenditure in the CIES due to the incorrect posting of some internal recharges during the year. Whilst the CIES was not misstated, we would expect internal recharges of income and expenditure to net off to nil within the general ledger.

We were able to conclude that the transactions were legitimate internal recharges that had been posted to the wrong ledger code during the year.

We recommend that the Council reviews its procedures and guidance for the treatment and allocation of internal recharges to ensure all finance staff are aware of the correct ledger codes to post recharges.

Surplus Assets

Note 11, Property Plant and Equipment (PPE) included Surplus Assets of £10.2 million. We identified property classified as Surplus Assets that was either in operational use by the Council or was duplicated within Other Land and Buildings.

As a consequence of our audit, the Council reduced the value of surplus assets by £1.9 million. £1.6 million of this was removed from the PPE balance altogether due to the duplication of the asset within surplus assets and other land and buildings.

There remains an immaterial balance in surplus assets of £2.166 million that has not been specifically reviewed this year.

We have recommended that, going forward the Council undertakes a review of all surplus assets (including the £2.166 million not reviewed in year) to ensure only true assets that are surplus for the Council's purposes are classified as such

Derecognition of capital expenditure

Note 11 Property, Plant and Equipment included additions in year of £19.7 million of which £13.3 million was derecognised as it was deemed not to add value to the asset to which it related.

This is a significant level of capital expenditure that the Council does not believe has added value to its assets.

Our review identified that £963,792 was incorrectly removed from additions as it related to either Assets Under Construction or other assets. We also noted that some expenditure included as capital additions (and subsequently derecognised) was below the £10,000 de-minimus level applied by the Council for expenditure to be classified as capital.

We recommend the Council undertakes a detailed review each year of the capital expenditure incurred to ensure:

- any expenditure which is considered revenue in nature is charged directly to revenue;
- spend incurred against a longer-term project is kept as assets under construction; and
- spend on equipment is correctly classified.

Nil net book value assets

Note 11 Property, Plant and Equipment included £11.7 million of assets that were fully depreciated and therefore had a nil net book value at the year-end.

Our audit identified five assets that were no longer owned by the Council such as Pwllwatkin Restoration which had a gross cost (and corresponding gross depreciation) of £1.1 million. As a consequence of our audit work, the asset was removed from infrastructure assets.

We were able to confirm the existence and continued use of £7.7 million of assets, but there remains a residual immaterial balance of £4.0 million where a further review is required to determine if the assets are still owned or in use by the Council.

We recommend the Council reviews the remaining £4.0 million of assets with a nil net book value to ensure that they are still owned, are in operational use and should be retained in the fixed asset register and disclosed in the financial statements.

Consideration should also be given to the estimated useful life applied to assets. We identified 89 assets (mainly vehicles) still in use, despite being fully depreciated which may suggest that the Council is underestimating their useful life.

Proposed audit report

The report of the Auditor General for Wales to the members of Neath Port Talbot County Borough Council

Opinion on financial statements

I have audited the financial statements of Neath Port Talbot County Borough Council for the year ended 31 March 2024 under the Public Audit (Wales) Act 2004.

Neath Port Talbot County Borough Council's financial statements comprise the Expenditure and Funding Analysis, the Movement in Reserves Statement, the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Cash Flow Statement and the related notes, including the material accounting policies.

The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards as interpreted and adapted by the Code of Practice on Local Authority Accounting in the United Kingdom 2024.

In my opinion, in all material respects, the financial statements:

- give a true and fair view of the financial position of Neath Port Talbot County Borough Council as at 31 March 2024 and of its income and expenditure for the year then ended; and
- have been properly prepared in accordance with legislative requirements and UK adopted international accounting standards as interpreted and adapted by the Code of Practice on Local Authority Accounting in the United Kingdom 2024.

Basis of opinion

I conducted my audit in accordance with applicable law and International Standards on Auditing in the UK (ISAs (UK)) and Practice Note 10 'Audit of Financial Statements of Public Sector Entities in the United Kingdom'. My responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of my report.

My staff and I are independent of the [name of local government body and the group] in accordance with the ethical requirements that are relevant to my audit of the financial statements in the UK including the Financial Reporting Council's Ethical Standard, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Conclusions relating to going concern

In auditing the financial statements, I have concluded that the use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work I have performed, I have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Neath Port Talbot County Borough Council's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from when the financial statements are authorised for issue.

My responsibilities and the responsibilities of the responsible financial officer with respect to going concern are described in the relevant sections of this report.

Other Information

The other information comprises the information included in the annual report other than the financial statements and my auditor's report thereon. The Responsible Financial Officer is responsible for the other information contained within the annual report. My opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in my report, I do not express any form of assurance conclusion thereon.

My responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If I identify such material inconsistencies or apparent material misstatements, I am required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact.

I have nothing to report in this regard.

Opinion on other matters

In my opinion, based on the work undertaken in the course of my audit:

- the information contained in the Narrative Report for the financial year for which the financial statements are prepared is consistent with the financial statements and is in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2024.
- The information given in the Governance Statement for the financial year for which the financial statements are prepared is consistent with the financial statements and is in accordance with guidance.

Matters on which I report by exception

In the light of the knowledge and understanding of [name of local government body and the group] and its environment obtained in the course of the audit, I have not identified material misstatements in the Narrative Report or the Governance Statement.

I have nothing to report in respect of the following matters, which I report to you, if, in my opinion:

- I have not received all the information and explanations I require for my audit;
- adequate accounting records have not been kept, or returns adequate for my audit have not been received from branches not visited by my team; or
- the financial statements are not in agreement with the accounting records and returns.

Responsibilities of the responsible financial officer for the financial statements

As explained more fully in the Statement of Responsibilities for the Statement of Accounts, the responsible financial officer is responsible for:

- the preparation of the statement of accounts, which give a true and fair view and comply with proper practices;
- maintaining proper accounting records;
- internal controls as the responsible financial officer determines is necessary to enable the preparation of statements of accounts that are free from material misstatement, whether due to fraud or error; and
- assessing the Neath Port Talbot County Borough Council's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the responsible financial officer anticipates that the services provided by the Neath Port Talbot County Borough Council will not continue to be provided in the future.

Auditor's responsibilities for the audit of the financial statements

My responsibility is to audit the financial statements in accordance with the Public Audit (Wales) Act 2004.

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. I design procedures in line with my responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud.

My procedures included the following:

- Enquiring of management, the Neath Port Talbot County Borough Council's internal audit and those charged with governance, including obtaining and reviewing supporting documentation relating to Neath Port Talbot County Borough Council's policies and procedures concerned with:
 - identifying, evaluating and complying with laws and regulations and whether they were aware of any instances of non-compliance;
 - detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected or alleged fraud; and
 - the internal controls established to mitigate risks related to fraud or non-compliance with laws and regulations.

- Considering as an audit team how and where fraud might occur in the financial statements and any potential indicators of fraud. As part of this discussion, I identified potential for fraud in the following areas: management override and the posting of unusual journals;
- Obtaining an understanding of Neath Port Talbot County Borough Council's framework of authority as well as other legal and regulatory frameworks that Neath Port Talbot County Borough Council operates in, focusing on those laws and regulations that had a direct effect on the financial statements or that had a fundamental effect on the operations of Neath Port Talbot County Borough Council; and
- Obtaining an understanding of related party relationships.

In addition to the above, my procedures to respond to identified risks included the following:

- reviewing the financial statement disclosures and testing to supporting documentation to assess compliance with relevant laws and regulations discussed above;
- enquiring of management, the Governance and Audit Committee and legal advisors about actual and potential litigation and claims;
- reading minutes of meetings of those charged with governance; and
- in addressing the risk of fraud through management override of controls, testing the appropriateness of journal entries and other adjustments; assessing whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluating the business rationale of any significant transactions that are unusual or outside the normal course of business.

I also communicated relevant identified laws and regulations and potential fraud risks to all audit team members and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

The extent to which my procedures are capable of detecting irregularities, including fraud, is affected by the inherent difficulty in detecting irregularities, the effectiveness of the Neath Port Talbot County Borough Council's controls, and the nature, timing and extent of the audit procedures performed.

A further description of the auditor's responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website www.frc.org.uk/auditorsresponsibilities. This description forms part of my auditor's report.

Other auditor's responsibilities

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Certificate of completion of audit

I certify that I have completed the audit of the accounts of Neath Port Talbot County Borough Council in accordance with the requirements of the Public Audit (Wales) Act 2004 and the Auditor General for Wales' Code of Audit Practice.

Representations regarding the 2023-24 financial statements

This letter is provided in connection with your audit of the financial statements of Neath Port Talbot County Borough Council for the year ended 31 March 2024 for the purpose of expressing an opinion on their truth and fairness and their proper preparation.

We confirm that to the best of our knowledge and belief, having made enquiries as we consider sufficient, we can make the following representations to you.

Management representations

Responsibilities

We have fulfilled our responsibilities for:

- the preparation of the financial statements in accordance with legislative requirements and the Code of Practice on Local Authority Accounting in the United Kingdom 2024; in particular the financial statements give a true and fair view in accordance therewith; and
- the design, implementation, maintenance and review of internal control to prevent and detect fraud and error.

Information provided

We have provided you with:

- full access to:
 - all information of which we are aware that is relevant to the preparation of the financial statements such as books of account and supporting documentation, minutes of meetings and other matters;

- additional information that you have requested from us for the purpose of the audit; and
- unrestricted access to staff from whom you determined it necessary to obtain audit evidence.
- the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud;
- our knowledge of fraud or suspected fraud that we are aware of and that affects Neath Port Talbot County Borough Council and involves:
 - management;
 - employees who have significant roles in internal control; or
 - others where the fraud could have a material effect on the financial statements;
- our knowledge of any allegations of fraud, or suspected fraud, affecting the financial statements communicated by employees, former employees, regulators or others;
- our knowledge of all known instances of non-compliance or suspected non-compliance with laws and regulations whose effects should be considered when preparing the financial statements; and
- the identity of all related parties and all the related party relationships and transactions of which we are aware.

Financial statement representations

All transactions, assets and liabilities have been recorded in the accounting records and are reflected in the financial statements.

The methods, the data and the significant assumptions used in making accounting estimates, and their related disclosures are appropriate to achieve recognition, measurement or disclosure that is reasonable in the context of the applicable financial reporting framework.

Related party relationships and transactions have been appropriately accounted for and disclosed.

All events occurring subsequent to the reporting date which require adjustment or disclosure have been adjusted for or disclosed.

All known actual or possible litigation and claims whose effects should be considered when preparing the financial statements have been disclosed to the auditor and accounted for and disclosed in accordance with the applicable financial reporting framework.

The financial statements are free of material misstatements, including omissions. The effects of the uncorrected misstatement identified during the audit is immaterial to the financial statements taken as a whole. The unadjusted misstatement is set out below:

- **Note 17 Creditors – Central Government bodies**
 - £390,000 of Welsh Government creditors are misclassified as creditors and should be treated as ear-marked reserves.
 - The balances relate to grant funding received in previous years that has not been completely spent but which does not have the requirement to be repaid to Welsh Government.
 - The misstatement is not considered material to the accounts and will be amended within the 2024-25 accounts.
- **Note 11 Property Plant and Equipment – Infrastructure Assets**
 - £356,525 of costs relating to EV charges and solar panels are classified as infrastructure assets and given an estimated useful life of 40 years.
 - These assets are considered to be equipment and should be included within vehicles, plant, furniture and equipment and given a more realistic estimate of useful life.
 - The misstatement is not considered material to the accounts and will be amended within the 2024-25 accounts.

Representations by the Governance and Audit Committee

We acknowledge that the representations made by management, above, have been discussed with us.

We acknowledge our responsibility for the preparation of true and fair financial statements in accordance with the applicable financial reporting framework. The financial statements were approved by Neath Port Talbot County Borough Council on 22 October 2024.

We confirm that we have taken all the steps that we ought to have taken in order to make ourselves aware of any relevant audit information and to establish that it has been communicated to you. We confirm that, as far as we are aware, there is no relevant audit information of which you are unaware.

No other classification of assets within Note 11 were affected.

As the asset had a nil net book value there was no impact and no historic valuation movements there was no impact on any other areas of the accounts.

To ensure compliance with the Code of Practice on Local Authority Accounting in the United Kingdom 2024

There were other minor amendments to the accounts following our audit that collectively were below our 'trivial' reporting threshold.

Audit quality

Our commitment to audit quality in Audit Wales is absolute. We believe that audit quality is about getting things right first time.

We use a three lines of assurance model to demonstrate how we achieve this. We have established an Audit Quality Committee to co-ordinate and oversee those arrangements. We subject our work to independent scrutiny by QAD*, and our Chair acts as a link to our Board on audit quality. For more information see our [Audit Quality Report 2023](#).

Our People

The first line of assurance is formed by our staff and management who are individually and collectively responsible for achieving the standards of audit quality to which we aspire.

- Selection of right team
- Use of specialists
- Supervisions and review

Arrangements for achieving audit quality

The second line of assurance is formed by the policies, tools, learning & development, guidance, and leadership we provide to our staff to support them in achieving those standards of audit quality.

- Audit platform
- Ethics
- Guidance
- Culture
- Learning and development
- Leadership
- Technical support

Independent assurance

The third line of assurance is formed by those activities that provide independent assurance over the effectiveness of the first two lines of assurance.

- EQCRs
- Themed reviews
- Cold reviews
- Root cause analysis
- Peer review
- Audit Quality Committee
- External monitoring

* QAD is the quality monitoring arm of ICAEW.

NEATH PORT TALBOT COUNTY BOROUGH COUNCIL

GOVERNANCE AND AUDIT COMMITTEE

22nd OCTOBER 2024

REPORT OF THE DIRECTOR OF FINANCE

Matter for Decision

Wards Affected – All wards.

Closure of Accounts 2023/24

Purpose of the Report

The purpose of this report is to consider and approve the 2023/24 Statement of Accounts following completion of the external audit.

Background

The Council's financial year ends on 31st March and following this date, the exercise starts to complete the annual outturn and the statutory statement of accounts.

The Council prepares its revenue and capital position which provides financial information reflecting the structure and operations of the Council. A draft statement of accounts is also prepared to comply with the current Accounting Code of Practice issued by the Chartered Institute of Public Finance and Accountancy (CIPFA).

The Accounts and Audit (Wales) regulations requires the responsible financial officer to sign and date the statement of accounts and certify that it presents a true and fair view of the financial position of the authority by 31 May 2024 and following this certification that published audited statement of accounts should be completed by 31 July 2024.

Following the pandemic there has been some disruption in the standard accounts preparation timetable for a number of years. Audit Wales (AW) provided their 2024 Audit Plan in which they have indicated that the proposed finalisation for the current year sign off would be November 2024.

Closure of Accounts 2023/24

Neath Port Talbot's Draft Statement of Accounts were signed and certified by the Director of Finance on 31st May 2024, and passed to Audit Wales to begin the audit process.

Audit Wales intend to issue an unqualified audit report on the financial statements once the Letter of Representation found in Appendix 2 has been approved and issued to Audit Wales by this committee.

Their work has identified 2 unidentified misstatements, 3 adjusted misstatements and 4 significant issues to be reported upon.

Uncorrected misstatements

£390,000 of government creditors were misclassified and should have been treated as an earmarked reserve. As the amendment has no effect on the closing general reserve position for 2023-24, and also in respect of the extended timing for the sign off of the statement of accounts in relation to the budgeting monitoring cycle for 2024-25 a decision was made to amend this item in the 2024-25 financial year.

£356,525 of costs relating to electric vehicle charges and solar panels were misclassified as infrastructure assets instead of property plant and equipment with a differing useful life on the asset. Due to the significant number of accounting entries that would be required within the statement of accounts it was felt it was beneficial to transact the adjustments during 2024-25 financial year. To ensure this does not happen in the future, there will be more stringent checks on the useful lives of assets.

Adjusted misstatements.

All other corrections identified as part of the audit of the draft accounts have been actioned in the final accounts and it should be noted that although the amendments had a £1.383m effect on the balance sheet and a corresponding effect on the Comprehensive Income and

Expenditure Account there was no overall impact on the Council's reported outturn, net expenditure, or usable reserves.

Members should note the main changes to the Final Statement of Accounts related to the derecognition of capital expenditure held within the Property Plant and Equipment (PPE). Derecognition other was reduced by £963,792 and reclassified within the PPE and infrastructure notes to the accounts. The remaining balance relates to the surplus assets that were required to be revalued due to new projects coming into existence. Due to this misstatement, there will be quarterly meetings with officers to discuss the correct classification of the assets and the assets that are being held as surplus. This will mitigate the likelihood of this misstatement reoccurring.

Significant Issues

As well as the items above 2 further items have been highlighted within the Auditors report as significant issues.

Internal Recharges

Although Audit Wales identified a net credit within the recharge coding structure the postings were identified as being in the main recharges for capital purposes. Audit Wales concluded that the recharges were treated correctly within the statement of accounts. Work has already commenced to provide an improved transparency of coding for audit purposes.

Classification of Surplus Assets

A review of surplus assets identified the double counting of land within the fixed asset register, one entry being within surplus assets the other included within other land and buildings. Audit Wales have recommended that all surplus assets going forward that processes are in place to ensure all surplus assets are reviewed each year. Processes have now already been agreed between Finance staff and the valuation team.

Annual Governance Statement

Members should note the Annual Governance Statement was approved by Cabinet on 24 July 2024. A copy can be found in Appendix 3.

Financial Impact

All financial impacts are contained within the body of the report.

Integrated Impact Assessment

There is no requirement for an integrated impact assessment in respect of this item.

Valleys Communities Impacts

There are no impacts in respect of this item.

Workforce impacts

There are no workforce impacts in respect of this item.

Legal Impacts

There are no legal impacts in respect of this item.

Risk Management

There are no risk management issues in respect of this item.

Consultation

There is no requirement under the Constitution for external consultation on this item.

Recommendations

It is recommended that Members of the Governance and Audit Committee:

- Approve the Letter of representation, included in Appendix 1.
- Approve the final 2023/24 Statement of Accounts as included in Appendix 2.
- Note the Annual Governance Statement included in Appendix 3.
- Authorise the Chair of Governance and Audit Committee to provide their electronic signature for both the Letter of Representation and the Statement of Accounts.

Representations regarding the 2023-24 financial statements

This letter is provided in connection with your audit of the financial statements of Neath Port Talbot County Borough Council for the year ended 31 March 2024 for the purpose of expressing an opinion on their truth and fairness and their proper preparation.

We confirm that to the best of our knowledge and belief, having made enquiries as we consider sufficient, we can make the following representations to you.

Management representations

Responsibilities

We have fulfilled our responsibilities for:

- the preparation of the financial statements in accordance with legislative requirements and the Code of Practice on Local Authority Accounting in the United Kingdom 2024; in particular the financial statements give a true and fair view in accordance therewith; and
- the design, implementation, maintenance and review of internal control to prevent and detect fraud and error.

Information provided

We have provided you with:

- full access to:
 - all information of which we are aware that is relevant to the preparation of the financial statements such as books of account and supporting documentation, minutes of meetings and other matters;
additional information that you have requested from us for the purpose of the audit; and
 - unrestricted access to staff from whom you determined it necessary to obtain audit evidence.

- the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud;
- our knowledge of fraud or suspected fraud that we are aware of and that affects Neath Port Talbot County Borough Council and involves:
 - management;
 - employees who have significant roles in internal control; or
 - others where the fraud could have a material effect on the financial statements;
- our knowledge of any allegations of fraud, or suspected fraud, affecting the financial statements communicated by employees, former employees, regulators or others;
- our knowledge of all known instances of non-compliance or suspected non-compliance with laws and regulations whose effects should be considered when preparing the financial statements; and
- the identity of all related parties and all the related party relationships and transactions of which we are aware.

Financial statement representations

All transactions, assets and liabilities have been recorded in the accounting records and are reflected in the financial statements.

The methods, the data and the significant assumptions used in making accounting estimates, and their related disclosures are appropriate to achieve recognition, measurement or disclosure that is reasonable in the context of the applicable financial reporting framework.

Related party relationships and transactions have been appropriately accounted for and disclosed.

All events occurring subsequent to the reporting date which require adjustment or disclosure have been adjusted for or disclosed.

All known actual or possible litigation and claims whose effects should be considered when preparing the financial statements have been disclosed to the auditor and accounted for and disclosed in accordance with the applicable financial reporting framework.

The financial statements are free of material misstatements, including omissions. The effects of the uncorrected misstatement identified during the audit is immaterial to the financial statements taken as a whole. The unadjusted misstatement is set out below:

- **Note 17 Creditors – Central Government bodies**
 - £390,000 of Welsh Government creditors are misclassified as creditors and should be treated as ear-marked reserves.
 - The balances relate to grant funding received in previous years that has not been completely spent but which does not have the requirement to be repaid to Welsh Government.
 - The misstatement is not considered material to the accounts and will be amended within the 2024-25 accounts.

- **Note 11 Property Plant and Equipment – Infrastructure Assets**
 - £356,525 of costs relating to EV charges and solar panels are classified as infrastructure assets and given an estimated useful life of 40 years.
 - These assets are considered to be equipment and should be included within vehicles, plant, furniture and equipment and given a more realistic estimate of useful life.
 - The misstatement is not considered material to the accounts and will be amended within the 2024-25 accounts.
 -

Representations by the Governance and Audit Committee

We acknowledge that the representations made by management, above, have been discussed with us.

We acknowledge our responsibility for the preparation of true and fair financial statements in accordance with the applicable financial reporting framework. The financial statements were approved by Neath Port Talbot County Borough Council on 22 October 2024.

We confirm that we have taken all the steps that we ought to have taken in order to make ourselves aware of any relevant audit information and to establish that it has been communicated to you. We confirm that, as far as we are aware, there is no relevant audit information of which you are unaware.

NARRATIVE REPORT

1. INTRODUCTION

This report presents the 2023/24 Statement of Accounts for Neath Port Talbot County Borough Council. It sets out our financial performance for the past year and is prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2023/24.

Our Services and the Way We Work

Neath Port Talbot County Borough covers over 170 square miles. It is home to around 141,000 people living and working in more than 64,000 households in communities across the County Borough.

The Council provides a variety of services supporting local communities on a daily basis, a number of which are shown below:

<p>Education, Leisure & Lifelong Learning</p> <ul style="list-style-type: none"> • Primary, Secondary & Special Schools • School Catering • Adult Education • Youth Services • Libraries • Theatres and Leisure 	<p>Social Services, Health & Housing</p> <ul style="list-style-type: none"> • Homecare • Residential Care • Supporting Children & Vulnerable Adults with Disabilities • Homelessness • Disabled Facility Grants

NARRATIVE REPORT

The Council is made up of 60 locally elected councillors who represent 34 divisions of Neath Port Talbot. The constitution sets out how the Council operates, how decisions are made and the procedures which are followed to ensure decisions are efficient, transparent, and accountable to local people. Council appoint a leader of the Council who appoints Cabinet Members, each with a responsibility for a specific portfolio of services.

The role of Cabinet is:

- to be responsible for most major decisions;
- provide leadership;
- propose the budget framework and subsequent budget.

Scrutiny Committees support the work of the Cabinet and Council by:

- Monitoring decisions of the Cabinet
- Allowing all Councillors, citizens and stakeholders to have a say in matters concerning the Council
- Producing reports and recommendations to support development of policies and decision
- Having the ability to review a decision that has been made but not yet implemented

Regulatory and other committees support delivery of Council services. Council has given Governance & Audit Committee the responsibility to review and approve the Financial Statements of the Council.

During 2023/24 the Council's Management Team was led by the Chief Executive and included Corporate Directors and the Chief Finance officer, (including the monitoring Officer and Section 151 Officer). The Chief Finance officer post was redesignated to Director of Finance in May 2024. They are responsible for:

- providing impartial advice on policy and implementing decisions of the Cabinet and Council; and
- delivery of services and performance

The Council's purpose, vision, values, relationships and priorities are set out in the corporate plan 2022-2027 and strategic change programme 2023-2027.

NARRATIVE REPORT

Our continued commitment to the Strategic Change Programme will drive forward the work we are undertaking to achieve our vision. This is organised at three levels:

Strategic level – we will continue to implement a strategic change programme to ensure we are embracing a ‘one council’ strategic approach to achieving the vision. The key well-being objectives include:

- All children get the best start in life
- All communities are thriving and sustainable
- Our local environment, heritage and culture can be enjoyed by future generations
- Our jobs and skills - local people are skilled and can access high quality, green jobs
- Enabling Programme – Organisational Development

Corporate level - corporate strategies will be realigned to support the achievement of the vision and the delivery of the strategic change programme.

Operational level - Every service and function within the council will align their service recovery plans to maximise their contribution to achieving the vision that we have set.

2. ACCOUNTING STATEMENTS

The statement of accounts is made up of a number of statements that are accompanied by explanatory notes. The following paragraphs provide an explanation of the purpose of the information included within these statements.

Statement of Responsibilities

This sets out the respective responsibilities of the Authority and the Section 151 officer for the preparation and approval of the Statement of Accounts.

Expenditure and Funding Analysis

The expenditure and funding analysis starts by showing how annual expenditure is used and funded from resources, such as government grants, council tax and business rates. It then updates this position to show those resources consumed or earned by authorities in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between directorates, which reflect the Council’s management structure. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the comprehensive income and expenditure statement.

Comprehensive Income and Expenditure Statement (CIES)

This shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations and this may be different from the accounting cost. The taxation position is shown in the movement in reserves statement.

NARRATIVE REPORT

Movement in Reserves Statement

This shows the movement in the year on the different reserves held by the Authority, analysed into usable reserves, that is, those that can be applied to fund expenditure or reduce local taxation and other unusable reserves. The surplus or deficit on the provision of services line shows the true economic cost of providing the Authority's services, more details of which are shown in the comprehensive income and expenditure statement. These are different from the statutory amounts required to be charged to the general fund balance.

Balance Sheet

This shows a snapshot of the Authority's assets, liabilities, cash balances and reserves at the year-end date. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the Authority.

Cash Flow Statement

This shows the changes in cash and cash equivalents of the Authority during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Authority are funded by way of taxation and grant income or from the recipients of services provided by the Authority. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital borrowing to the Authority.

NARRATIVE REPORT

3. REVENUE SPENDING IN 2023/24

The Authority's budget requirement for 2023/24 was set at £361m. Actual spending compared to the budget was as follows:

Neath Port Talbot Management Accounts	Original Budget £000	Revised Budget £000	Outturn £000	Variance Under / (Over) £000

NARRATIVE REPORT

4. CAPITAL SPENDING IN 2023/24

	Actual £000
Capital Investment	39,129
The expenditure was financed by:	
Government Grants and Other Contributions	(22,682)
Loans	(13,864)
Capital Receipts	(465)
Direct Revenue Contributions and Reserves	(2,118)
	(39,129)

The capital investment figure of £39.129 includes £38.689m incurred directly by the Council and £440k incurred on behalf of the Council by Caerphilly CBC. Caerphilly CBC are acting on behalf of all Welsh Authorities in purchasing schools Information and Communication Technology infrastructure as part of the Welsh Governments HWB Programme. Whilst the expenditure is being incurred by Caerphilly, for accounting purposes each Authority is required to reflect their element within their Statement of Accounts.

5. EXTERNAL DEBT

At the year end, the Authority's total external debt was £269.920m which excludes accrued interest of £2.563m that is included within debt in the balance sheet. Sources of borrowing include the Public Works Loan Board and banks for long term borrowing and other financial institutions for short term borrowing.

6. RESERVES AND BALANCES AT 31ST MARCH 2024

The Authority holds both General and Earmarked Reserves. Earmarked reserves are set aside to support specified future revenue expenditure while the General Reserve is available to support the Authority against unexpected events and emergencies. Reserves held by the authority are as follows:

	Actual £000
Earmarked Reserves to Support Revenue Expenditure	58,650
General Reserve Working Balances	15,450
Total General Reserve Balance	74,100

7. REVALUATION OF ASSETS

The net book value of assets increased during 2023/24 by £3.309m There was a £14.554m gain relating to the revaluation of assets undertaken by the Director of Environment / Strategic Property and Valuation Manager.

The Authority's property, plant and equipment are valued on a five-year rolling programme by the Director of Environment / Strategic Property and Valuation Manager in accordance with the Royal Institute of Chartered Surveyors Statements of Asset Valuation Practice.

NARRATIVE REPORT

The significant assumption applied when estimating the fair value of property, plant and equipment is that the asset will continue in its existing use. Where there is a market value for the asset, its value will be determined with reference to the market, but in instances where no market exists for an asset, depreciated replacement cost, which is the current cost of replacing an asset with the modern equivalent asset less deductions for physical deterioration and all relevant forms of obsolescence and optimisation, will be used as the basis of valuation.

During 2023/24, the following categories of assets were revalued:

- Bus Facilities were valued as at 1st December 2023 on a Current Value Depreciated Replacement Cost basis;
- Car Parks were valued as at 1st December 2023 on a Current Value Existing Use basis;
- Garage Compounds, Plots and Domestic Garages were valued as at 1st January 2024 on a Current Value Existing Use Valuation basis;
- Outdoor Leisure Facilities were valued as at 1st February 2024 on a Current Value Depreciated Replacement Cost and Current Value Existing Use basis;

During 2023-24 not all assets valued under the Depreciated Replacement Cost basis have been fully revalued, only those in the current cycle were revalued in line with our accounting policy, whilst those assets not within the current cycle were only partially revalued. This partial revaluation exercise was undertaken to reflect the current economic climate and the increase in construction costs relating to these asset valuations.

Assets held for sale are valued annually and two assets with a value of £4.850m were valued at 31st March 2024.

8. INTERNATIONAL ACCOUNTING STANDARD 19 - PENSIONS

The accounts comply with the requirements of the above standard with the revenue accounts reflecting the current year cost of pension provision to employees as advised by the pension fund actuary. The balance sheet contains the actuary's assessment of the Authority's share of the pension fund liability at 31st March.

At 31st March 2024 there was a pension fund surplus of £103.86m for the Funded Pension Scheme. Following IAS19 restrictions, the asset ceiling has a nil value and additional liability of £29.95m due to a minimum funding requirement being recognised. The deficit or surplus changes on an annual basis dependent on the performance of investments and the actuarial assumptions that are made in terms of current pensioners, deferred pensioners and current employees.

The Unfunded Pension Funds deficit at 31st March 2024 is £23.85m.

The fund is subject to a 3 yearly actuarial valuation which assesses the then state of the pension fund and advises the various admitted bodies on the appropriate rate of employers contributions that needs to be made in order to restore the fund to a balanced position over a period of time. The contribution rate used in 2023/24 relates to the valuation undertaken on 31st March 2022.

NARRATIVE REPORT

The Local Government Pension Scheme is a statutory scheme and, as such, benefits accruing under the scheme can only be changed by legislation. The Department for Communities and Local Government legislated for a new scheme which commenced in April 2014 which was designed to have a material and beneficial effect on the projected cost of the scheme over future years.

9. SIGNIFICANT PROVISIONS

The Authority holds four significant provisions:

- An insurance provision of £3.756m to cover the likely cost of settling outstanding insurance liabilities. This is made up of a long-term provision of £2.442m and a short term provision of £1.314m.
- A provision of £0.923m for housing warranties following the transfer of the Housing stock to Tai Tarian in March 2011.
- A provision of £0.129m to provide the costs of early retirements and redundancies which have been agreed by 31st March 2024, with leaving dates during 2024/25.
- A provision of £1.565m for site restoration costs and landscaping relating to the landfill site at Giants Grave Briton Ferry following the transfer of the landfill site to the Council.

10. IMPACT OF CURRENT ECONOMIC CLIMATE ON THE AUTHORITY

The Public Sector has faced a sustained period of real term reductions in funding levels with Neath Port Talbot Council securing reductions in the revenue budget in excess of £100m in real terms since 2008. As well as finding genuine efficiencies and economies in the cost of services and functions (as has been the case in other councils) the scale of austerity measures imposed by the UK Government has also seen deep cuts in services and jobs, particularly in those services delivered under discretionary powers.

2023/24 has proved to be a period characterised by challenges on several fronts, including:

- The economic shock that arose from the illegal war waged by the Russian Government on Ukraine with its associated energy and general inflation impacts;
- Exceptional workload demands arising from the legacy of the Covid-19 pandemic;
- Additional workload demands arising from the Cost of Living crisis;
- Pay awards agreed in excess of funds made available from the Government;
- Continuing supply chain disruption arising from Covid-19 and the wider impacts of BREXIT;
- Structural changes in the labour market creating recruitment and retention challenges across many occupational groups;
- A substantial programme of policy initiatives arising from the Labour-Plaid Cymru Co-operation Agreement;
- Local policy initiatives prioritised by the Council;
- Significant new investor interest.

NARRATIVE REPORT

The budget agreed for 2023/24, following consultation, was set at £361m and provided for an increase in unavoidable costs of £42.189m (unfunded pay awards from 2022-23; pay awards and inflation in 2023/24; and unavoidable pressures). This was funded by £14.352m net savings across the revenue budget; the use of £3.5m general reserves; the use of £1.4m from the leisure specific reserve; an increase in council tax of 4.5% (which in part provided for an increase in the Mid and West Wales Fire and Rescue Authority levy equivalent to 1.8% on council tax); and an increase in the council tax collection rate).

In proposing the budget strategy for 2023/24, members of council were advised that a number of significant risks would need to also be managed in-year and that the prospects over the medium term were challenging, estimating a further £48 million pressures over the four year period 2024-28. A number of areas for review were highlighted to inform the development of the budget strategy for future years, including:

- Further work to review the Council's accommodation portfolio, delivered in phases;
- Work to reduce energy consumption, improve energy efficiency and to accelerate the move to renewable energy sources;
- A review of the Council's fleet and wider transport arrangements;
- A series of reviews to examine external commissioning and procurement spend;
- Further re-basing of the Council budget to reflect changes to the operating model;
- Re-modelling of statutory services to meet the needs of our population differently and at lower cost;
- Work to re-model discretionary services with a focus on alternative income and efficiency;
- Further automation of services and functions;
- Consideration of increased council tax rates for empty properties and second properties.

The work outlined above has been progressed throughout this financial year. Additionally, officers have reviewed all of the budget ideas submitted as part of the 2023-24 public consultation exercise and which were noted in the final budget report.

In terms of service pressures, the most recent data suggests that demands in many areas of the Council continue to be at increased volume and in many instances increased complexity.

In setting the budget, Members consider the requirement of delivering its statutory services, as well as those other services that the public and users have come to expect. The challenge is to set a budget at activity levels that are sustainable and equitable. Members also have to consider the demand for services and changes to these services in light of the impact on:

NARRATIVE REPORT

- Service users
- Employees
- Legislation including the Equality Act 2010 and Wellbeing of Future Generations (Wales) Act 2015 considerations
- Income generation
- Council tax level

The Council has set a budget of £376.599m for 2024/25. This includes increased funding of 2.8% from the Welsh Government and an increase of 7.9% in council tax.

Overall, the budget proposals protect service levels and jobs, maintaining stability across the Council at a time when there is considerable volatility and uncertainty in the external operating environment. The proposals recognise that demand across the Council remains at a very high level as a result of:

- More people seeking help and support following the pandemic period, many with more complex needs, particularly in housing, social services and education;
- Levels of investment interest with a number of significant planning applications and prospective developments happening in the same broad time frame.

Medium Term Financial Outlook

The current medium term financial outlook for local authorities in Wales is challenging to say the least. The Welsh Government have recently indicated that the local government settlement for 2025/26 is likely to be 'cash flat' at best.

The latest outlook from the Wales Fiscal Analysis team includes the following observation:

'local authority finances appear to be on an unsustainable path, with the funding gap growing in each year of the projection'.

In terms of the Council's Medium Term Financial Plan (MTFP) a budget gap of circa £48m by 2028/29 is being forecast. This increase is a mix of pay/inflation, service pressures and demographic demand. Since the Medium-Term Financial Plan was prepared the Welsh Government have provided forecasts which are far worse than previously modelled which will increase this gap significantly.

11. GROUP ACCOUNTS

There is a requirement for local authorities to produce group accounts to recognise material financial or controlling interests in companies, voluntary organisations, public bodies, etc. An assessment was made of all such interests, and this did not identify any relationship which is considered material, therefore, group accounts have not been prepared.

NARRATIVE REPORT

12. CHANGE IN ACCOUNTING POLICIES

Changes in accounting policies are made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Authority's financial position or financial performance.

13. FURTHER INFORMATION

Further information relating to the accounts can be obtained from the Director of Finance, Neath Port Talbot County Borough Council, Civic Centre, Port Talbot, SA13 1PJ.

THE AUTHORITY'S RESPONSIBILITIES

The Authority is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In 2023/24 for this Authority this officer was the Chief Finance Officer, whose post was redesignated as Director of Finance from May 2024;
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- Approve the statement of accounts.

Chief Finance Officer Responsibilities

The Chief Finance Officer is responsible for the preparation of the Authority's statement of accounts in accordance with proper practice as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this statement of accounts, the Chief Finance Officer has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the local authority Code.

The Chief Finance Officer has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities;
- ensured that the accounts show a true and fair view of the financial position of the Authority as at the date of preparation and of its expenditure and income for the year ended 31st March 2024.

NOTES TO THE ACCOUNTS

1. ACCOUNTING POLICIES

i. General Principles

The statement of accounts summarises the Council's financial transactions for 2023/24 and its position at 31st March 2024. The Council is required to prepare an annual statement of accounts by the Accounts and Audit (Wales) Regulations 2014 (as amended by The Accounts and Audit (Wales) (Amendment) Regulations 2018), in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2023/24, supported by International Financial Reporting Standards (IFRS). The accounts are prepared on a going concern basis.

ii. Recognition of Income and Expenditure

Activity is accounted for in the year that it takes place, not when cash payments are made or received. In particular:

- revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract.
- supplies are recorded as expenditure when they are consumed. Where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the balance sheet.
- services received (including employees services) are recorded as expenditure when the services are received, rather than when payments are made.
- interest receivable on investments and payable on borrowing is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument, rather than the cash flows fixed or determined by the contract.
- Government grants and third-party contributions are recognised when there is reasonable assurance that the Council will comply with any conditions attached to the payments, and that grant monies and contributions will be received. Where conditions attached to grants and contributions remain outstanding, monies received to date are carried forward in the balance sheet as creditors (receipts in advance) until the conditions have been satisfied.
- where revenue and expenditure have been recognised, but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the balance sheet. Where debts are not considered collectable, the balance is reduced by a provision for doubtful debts.

iii. Changes in accounting policies and prior period adjustments

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively, unless stated otherwise, by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

NOTES TO THE ACCOUNTS

iv. Property, Plant and Equipment (PPE)

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as property, plant and equipment.

Expenditure on the acquisition, creation or enhancement of property, plant and equipment is capitalised on an accruals basis subject to a de-minimus limit of £10,000, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential, such as repairs and maintenance, is charged as an expense when it is incurred.

Assets are initially measured at cost, comprising of the purchase price and any costs attributable to bringing the asset to an operational condition. The Council does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, that is estimated at highest and best use from a market participant's perspective. Where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are carried in the balance sheet using the following measurement basis:

Asset type	Measurement basis	Latest Full Revaluation year	Depreciation basis (straight line unless not finite usable life)
Other operational land and buildings	Existing use value or depreciated replacement cost if no market-based evidence.	Rolling programme across five years	Land n/a Buildings 3 to 40 years
Vehicles, Plant, Furniture and Equipment	Existing use value or depreciated historical cost if of low value or short life.	n/a	5 to 20 years
Infrastructure assets	Depreciated historical cost.	n/a	40 years
Community assets	Depreciated historical cost.	2019/20	5 to 40 years
Surplus assets	Fair value.	2020/21	5 to 40 years
Assets under construction	Depreciated historical cost	n/a	n/a
Assets held for sale	Revalued immediately before reclassification.	Annually	n/a
School assets	Depreciated replacement cost (modern equivalent asset).	2021/22	Land n/a Buildings between 40 and 50 years, though may be varied for agreed closures
Service Concession	Existing use value or depreciated replacement cost if no market-based evidence.	2022/23	Land n/a Buildings 3 to 40 years

NOTES TO THE ACCOUNTS

Revaluations

The Council's internal valuer undertakes this exercise in accordance with the professional standards of the Royal Institution of Chartered Surveyors. Assets included in the balance sheet at current value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at the year end, but as a minimum every five years. The Council must balance the requirement to include asset values at their fair or current value each year end with the costs involved in providing valuations. To ensure the information is materially correct, the Council valuer undertake an annual review to identify any significant impairments or change in the usage of assets.

The revaluation reserve contains revaluation gains recognised since 1st April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the capital adjustment account.

Impairment and Downward Revaluation

Assets are assessed at each year end as to whether there is any indication that an asset may be impaired in value because of a change in service potential or significant and permanent changes to the market value.

- Where there is a balance of revaluation gains for the asset in the revaluation reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- Where there is no balance in the revaluation reserve, the carrying amount of the asset is written down against the relevant service lines in the comprehensive income and expenditure statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service lines in the comprehensive income and expenditure statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Disposals

When an asset is disposed of or decommissioned, the carrying amount of the asset in the balance sheet is written off to the other operating expenditure line in the CIES against any receipts arising from the disposal as a gain or loss on disposal. If more than £10,000 is received at disposal, this is treated as a capital receipt and kept in a reserve that can only be used for capital purposes.

Componentisation

Where a single asset may have a number of different components, each having a different useful life, three factors are taken into account to determine whether a separate valuation of components is to be recognised in the accounts in order to provide an accurate figure for depreciation.

These factors are:

- materiality with regards to the Council's financial statements. Componentisation will only be considered for individual non land assets that have a net book value of more than £2.5m or 0.5% of total net book value.

NOTES TO THE ACCOUNTS

- significance of component. For individual assets meeting the above threshold, where services within a building, such as boilers, heating, lighting, ventilation, etc., are a material component of the cost of that asset, i.e. greater than 30%, then those services will be valued separately on a component basis.
- difference in rate or method of depreciation compared to the overall asset. Only those elements that normally depreciate at a significantly different rate from the non-land element as a whole, or that require a different method of depreciation will be identified for componentisation.

Assets that do not meet the test above can be disregarded for componentisation on the basis that any adjustment to depreciation charges would not result in a material misstatement in the accounts.

v. Charges to Revenue for Non-Current Assets

Services are charged the following amounts to record the cost of holding non-current assets during the year:

- depreciation attributable to the assets used by the relevant service.
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the revaluation reserve against which the losses can be written off.

vi. Financial Instruments

These are recognised in the balance sheet when the Council becomes a party to the contractual provisions and are initially measured at fair value.

Financial liabilities are carried at their amortised cost. For most of the Council's borrowing, it means that the amount presented in the balance sheet is the outstanding principal repayable, plus accrued interest. Annual interest, which is the amount payable for the year according to the loan agreement, is charged to the financing and investment income and expenditure line within the comprehensive income and expenditure statement. The Council has spread the cost of historical premiums and discounts arising from debt rescheduling over the term of the replacement loan. The reconciliation of amounts charged to the comprehensive income and expenditure statement to the net charge required against the general fund balance is managed by a transfer to or from the financial instruments adjustment account in the movement in reserves statement.

Financial assets are classified to reflect the business model for holding the financial assets and their cash flow characteristics and are held at fair value. The Council's investments at 31st March 2024 had no impairment allowance included for these financial assets, as the risk is immaterial. The Council's debtor position, excluding council tax, is included within the financial assets statement. These debts have been reviewed and although there is no significant financing component, funds are set aside for any potential impairment based on a collective assessment of the value and age of the outstanding debt.

NOTES TO THE ACCOUNTS

vii. Heritage Assets

Heritage assets are defined as assets that have historical, artistic, scientific, technological, geographical or environmental qualities, which are held and maintained principally for their contribution to knowledge and culture.

The Council holds heritage assets on the balance sheet in relation to works of art. Assets are included when an insurance valuation has been undertaken and the valuation for the individual asset is £5,000 or more. In the absence of historic cost, the insurable sum is deemed as an appropriate and relevant method of valuation, with the last valuation undertaken by Sotheby's in 2022. These items are considered to have indeterminate lives and a high residual value, consequently the Council does not consider it appropriate to charge depreciation.

viii. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

The Council holds one finance lease, as a lessee, for other land and buildings, which is recognised on the balance sheet. This is matched by a liability for the obligation to pay the lessor.

Where the Council grants an operating lease as a lessor for property or land, the asset is retained in the balance sheet and rental income is credited to the comprehensive income and expenditure statement.

ix. Service Concessions

These are agreements for services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the contractor. The Council is deemed to control the services provided under the contract and as ownership of the assets will pass to them at the end of the contract period, the Council carries the assets on its balance sheet as part of property, plant and equipment.

Further details of service concession costs and liabilities can be found in note 32.

x. Revenue Expenditure Funded from Capital Under Statute

Legislation requires defined items of revenue expenditure charged to services within the comprehensive income and expenditure statement to be treated as capital expenditure. This is transferred from the general fund balance via the movement in reserves statement to the capital adjustment account and is included in the capital expenditure and financing disclosure at note 31.

NOTES TO THE ACCOUNTS

xi. Cash and Cash Equivalents

Cash includes cash in hand, overnight deposits and bank overdrafts. Cash equivalents can be quickly converted to known amounts of cash with low risk of change in value. Cash equivalents held as part of treasury management operations are included as short term investments.

xii. Employee Benefits

Short term employee benefits such as wages and salaries, paid annual leave, sick leave and expenses are paid on a monthly basis and reflected as expenditure on an accruals basis in the relevant service line in the comprehensive income and expenditure statement.

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy. They are charged on an accruals basis to the comprehensive income and expenditure statement.

xiii. Retirement Benefits

The Council participates in two formal pension schemes, the Local Government Pensions Scheme, which is administered by the City and County of Swansea Pension Fund and the Teachers' Pension Scheme, administered by the Teachers Pension Agency. Both schemes provide defined benefits to members (retirement lump sums and pensions), earned as employees who worked for the Council.

The nature of the teachers' scheme prevents the Council's individual share of the pension liability from being separately identified. The scheme is therefore accounted for as if it were a defined contribution scheme.

The Local Government Pension Scheme is accounted for as a defined benefits scheme as follows:

- i. The assets attributable to the Council are measured at fair value at the balance sheet date, after deducting accrued expenses. The attributable liabilities are valued on an actuarial basis using the projected unit method, which assesses the future liabilities of the fund discounted to their present value. Net pension assets are recognised only to the extent that the Council is able to recover a surplus, either through reduced contributions in the future or through refunds from the scheme. Unpaid contributions to the schemes are recorded as creditors due within one year.
- ii. For pension charges, the change in defined benefit asset or liability is analysed and charged to the comprehensive income and expenditure statement as follows:
 - Current service cost, past service cost and gains / losses on curtailments and settlements are included within Cost of Services;
 - Net interest on the net defined benefit liability is included within financing and investment income and expenditure; and
 - Actuarial gains / losses are incorporated within other comprehensive income and expenditure.

Further details for pensions can be found in notes 34 and 35.

NOTES TO THE ACCOUNTS

xiv. Interest in Companies and Other Entities

The Council holds no material value interests in companies and other entities that have the nature of subsidiaries, associates and jointly controlled entities and therefore there is no requirement to prepare group accounts. Transactions for the Council's companies are included within the Council's own single entity accounts.

xv. Inventories

Inventories are included in the balance sheet at average purchase price or latest purchase price, which is a departure from normal practice which values stock at the lower of cost or net realisable value. The effect of this departure is not material.

xvi. Overhead and Support Costs

The costs of overheads and support services are charged to services in accordance with the Council's arrangements for accountability and financial performance.

xvii. Provisions, Contingent Liabilities and Contingent Assets

Provisions are based on the Council's obligations arising from a past event, the probability that a transfer of economic benefit will take place and when a reliable estimate can be made of the value of the obligation. They are charged to the appropriate service revenue account in the year the obligation becomes known and are reviewed at each balance sheet date.

Contingent liabilities and assets are included where an event has taken place that gives a possible obligation or asset arising from past events, which will only materialise if certain events not wholly within the control of the Council take place. They are not recognised in the balance sheet but disclosed in a note to the accounts when material.

xviii. Reserves

Usable reserves are set aside for future policy purposes or contingencies. Unusable reserves are kept to manage the accounting processes for non-current assets, financial instruments and retirement and employee benefits and do not represent usable resources for the Council.

xix. Schools

Schools assets, liabilities, reserves, transactions and cash flows are included in the Council's financial statements, which complies with the accounting Code.

xx. Value Added Tax (VAT)

VAT payable is excluded from spend except when it cannot be recovered from HM Revenues and Customs. VAT receivable is excluded from income.

NOTES TO THE ACCOUNTS

2. ACCOUNTING STANDARDS ISSUED BUT NOT YET ADOPTED

The Code of Practice requires that the Council disclose information relating to the anticipated impact of any accounting change required by a new International Accounting Standard (IAS) or International Financial Reporting Standards (IFRS) that has been issued but not yet adopted by the Code. This requirement applies to the adoption of the following new or amended standards.

The 2024/25 Code introduces changes arising from the accounting guidance in relation to:

- IFRS 16 Leases issued in January 2016. Requires local authorities to recognise most leases on their balance sheets as assets, with a balancing lease liability.
- Classification of Liabilities as Current or Non-current (Amendments to IAS 1) issued in January 2020. The amendments:
 - specify that an entity's right to defer settlement must exist at the end of the reporting period
 - clarify that classification is unaffected by management's intention to expectations about whether the entity will exercise its right to defer settlement
 - clarify how lending conditions affect classification and
 - clarify requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments.
- Lease Liability in a Sale and Leaseback (Amendments to IFRS 16) issued in September 2022. The amendments to IFRS 16 add subsequent measurement requirements for sale and leaseback transactions.
- Non-current Liabilities with Covenants (Amendments to IAS 1) issued in October 2022. The amendments improved the information an entity provides when its right to defer a liability for at least 12 months is subject to compliance covenants.
- International Tax Reform: Pillar Two Model Rules (Amendments to IAS 12) issued in May 2023. Pillar Two applies to multinational groups with a minimum level turnover.
- Supplier Finance Arrangements (Amendments to IAS 7 and IFRS7) issued in May 2023. The amendments require an entity to provide additional disclosures about its supplier finance arrangements. The requirements were developed to provide users of financial statements with information to enable them to:
 - Assess how supplier finance arrangements affect an entity's liabilities and cash flows, and
 - Understand the effect of supplier finance arrangements on an entity's exposure to liquidity risk and how the entity might be affected if the arrangements were no longer available to it.

NOTES TO THE ACCOUNTS

None of the matters covered in the annual improvements and IFRS amendments are expected to materially affect this Council.

The Code requires implementation after 1st April 2024, there is therefore no impact on the 2023/24 statement of accounts.

3. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The statement of accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's balance sheet at 31st March 2024, for which there is a significant risk of material adjustment in the forthcoming financial year, are as follows:

Pensions Liability

Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries was engaged to provide the Council with expert advice and assumptions and the various costings and disclosures necessary to comply with the code of practice. If any of the assumptions change as a result of actual experience, then the net liability of the Council would increase or decrease as a result.

Provisions – Insurance Claims

The Council has a provision of £3.756m as at 31st March 2024 to meet the potential cost of insurance liabilities. The number and value of potential claims includes actuarial assumptions particularly in respect of the most recent financial years, as these are immature in terms of insurance experience. Any significant change in assumptions and/or number and value of claims could significantly alter the value of the provision. The Council holds insurance reserves to mitigate any risk.

NOTES TO THE ACCOUNTS

4. NOTE TO THE EXPENDITURE AND FUNDING ANALYSIS

These adjustments are made to present the Council's accounts on an accounting and funding basis in accordance with generally accepted accounting practices. Further details in relation to these adjustments can be found in the note on "Adjustments between accounting basis and funding basis under regulations".

6. ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATIONS

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

The following sets out a description of the reserves that the adjustments are made against.

General Fund Balance

The general fund is the statutory fund into which all the receipts of the Council are required to be paid and out of which all liabilities of the Council are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the general fund balance, which is not necessarily in accordance with proper accounting practice. The general fund balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment at the end of the financial year.

Capital Receipts Reserve

The capital receipts reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year end.

Capital Grants Unapplied

The capital grants unapplied account holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies, but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.

11. PROPERTY, PLANT AND EQUIPMENT (PPE)

In accordance with the Temporary Relief offered by the Update to the 2021/22 Code of Practice on infrastructure assets this note does not include disclosure of gross cost and accumulated depreciation for infrastructure assets because historical reporting practices and resultant information deficits mean that this would not faithfully represent the asset position to the users of the financial statements.

The authority has chosen not to disclose this information as the previously reported practices and resultant information deficits mean that gross cost and accumulated depreciation are not measured accurately and would not provide the basis for the users of the financial statements to take economic or other decisions relating to infrastructure assets.

NOTES TO THE ACCOUNTS

Service Concessions - These are agreements for services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the contractor. The Council is deemed to control the services provided under the contract and as ownership of the assets will pass to them at the end of the contract period, the Council carries the assets on its balance sheet as part of property, plant and equipment.

Further details of service concession costs and liabilities can be found in note 32.

Depreciation

The following useful lives have been used in the calculation of depreciation:

Land	Depreciation not applicable
Buildings	At least 20 years
Vehicles, plant, furniture, and equipment	3 - 20 years
Infrastructure	40 years

Effects of Changes in Estimates

During 2023/24, there have been no material changes made to the accounting estimates for property, plant, and equipment.

Revaluations

The Council carries out a rolling programme that ensures that all property, plant and equipment required to be measured at fair value is revalued at least every five years. All valuations are carried out internally. Valuations of land and buildings is carried out in accordance with the methodologies and basis for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Valuations of vehicles, plant, furniture, and equipment is based on historic cost.

During 2023-24 not all assets valued under the Depreciated Replacement Cost basis have been fully revalued, only those in the current cycle were revalued in line with our accounting policy, whilst those assets not within the current cycle were only partially revalued. This partial revaluation exercise was undertaken to more accurately reflect the current economic climate and the increase in construction costs relating to these asset valuations.

NOTES TO THE ACCOUNTS

12. FINANCIAL INSTRUMENTS

Financial liabilities and financial assets represented by loans and receivables are carried in the balance sheet at principal plus accrued interest. Accrued interest is included within the current values as it is effectively payable or receivable within one year.

The debtors position differs from that reported in the balance sheet as the debts relating to council taxation do not meet the definition of a financial instrument.

Categories of Financial Instruments

The following categories of financial instrument are carried in the balance sheet:

Fair Values of Assets and Liabilities

Financial liabilities and financial assets represented by loans and receivables are carried on the balance sheet at amortised cost. The fair value of the loans and receivables and financial liabilities is determined by calculating the net present value (NPV) of future cash flows, which provides an estimate of the value of payments in the future as at 31st March 2024, using the following assumptions:

- For loans from the Public Works Loan Board (PWLB) and other loans payable, borrowing rates from the PWLB have been applied to provide the fair value under PWLB debt redemption procedures.
- For loans receivable prevailing benchmark market rates have been used to provide the fair value.
- No early repayment or impairment is recognised.
- Where an instrument has a maturity of less than 12 months or is a trade or other receivable the fair value is taken to be the carrying amount or the billed amount.
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

The discount rate used in the NPV calculation is equal to the current rate in relation to the same instrument from a comparable lender and is the rate applicable in the market as at 31st March 2024, for an instrument with the same duration. Where it is difficult to obtain the rate for an instrument with identical features in an active market then the prevailing rate of a similar instrument with a published market rate has been used as the discount factor.

The values calculated are as follows:

31st Mar 2023			31st Mar 2024	
Carrying Amount £000	Fair Value £000		Carrying Amount £000	Fair Value £000
(216,446)	(165,649)	Public Works Loan Board (PWLB)	(210,803)	(147,098)
(67,152)	(60,760)	Long Term Non-PWLB Debt.	(56,957)	(45,975)
(10,000)	(10,000)	Short Term Non-PWLB Debt.	-	-
(1,597)	(1,597)	Non-PWLB Debt Temporary Borrowing.	(2,160)	(2,160)
(295,195)	(238,006)	Total Debt	(269,920)	(195,233)
(16,567)	(16,567)	Long Term Creditors	(17,536)	(17,536)

NOTES TO THE ACCOUNTS

31st March 2024 – Debt

The fair value of the liabilities is lower than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest payable is lower than the prevailing rates available for similar loans in the market at the balance sheet date. This shows a notional future gain, based on economic conditions at 31st March 2024, arising from a commitment to pay interest to lenders below market rates.

18. PROVISIONS

The Council holds a number of provisions as detailed below:

Insurance & Municipal Mutual Insurance (MMI) Scheme

This provision covers the estimated cost of settling all the outstanding insurance claims of the Council that existed at 31st March 2024.

Housing Warranties

This provision has been set aside in recognition of the warranties and commitments relating to potential liabilities following the transfer of housing services in 2010/11. The provision reflects the costs likely to be incurred in future years.

NOTES TO THE ACCOUNTS

Redundancy

The provision has been set up to fund redundancy costs for agreements approved to leave in the next financial year in line with accounting regulations. A charge has been made to this year's individual revenue accounts, for the cost of these leaving.

Waste

This provision has been set aside following the transfer of the landfill licence from Neath Port Talbot Waste Management Ltd to the Council on 31st March 2023. The site is in an aftercare phase and provision reflects the potential aftercare costs likely to be incurred in the future.

Revaluation Reserve

The revaluation reserve contains the gains made by the Council arising from increases in the value of its property, plant and equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost,
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The reserve contains only revaluation gains accumulated since 1st April 2007, the date that the reserve was created. Accumulated gains arising before that date are consolidated into the balance on the capital adjustment account.

NOTES TO THE ACCOUNTS

Capital Adjustment Account

The capital adjustment account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction, or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the comprehensive income and expenditure statement CIES (with reconciling postings from the revaluation reserve to convert fair value figures to a historical cost basis). The account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction, and enhancement.

The account also contains revaluation gains accumulated on property, plant and equipment before 1st April 2007, the date that the revaluation reserve was created to hold such gains. Note 6 provides details of the source of all the transactions posted to the account, apart from those involving the revaluation reserve.

NOTES TO THE ACCOUNTS

Financial Instruments Adjustment Account

The financial instruments adjustment account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions. The Council uses the account to release premiums and discounts paid which were received on the early redemption of loans. Over time, the premiums are posted back to the general fund balance in accordance with statutory arrangements for spreading the effect on council tax.

During 2022/23 the Council took the decision to charge the remaining balance to the General Fund.

Pensions Reserve

The pensions reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the comprehensive income and expenditure statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the pensions reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

51,620	Balance at 31st March	53,800

NOTES TO THE ACCOUNTS

Deferred Capital Receipts Reserve

The deferred capital receipts reserve holds the gains recognised on the disposal of non-current assets but for which cash settlement has yet to take place. Under statutory arrangements, the Council does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the capital receipts reserve.

Accumulated Absences Account

The accumulated absences account absorbs the differences that would otherwise arise on the general fund balance from accruing for compensated absences earned but not taken in the year, that is, annual leave entitlement carried forward at 31st March. Statutory arrangements require that the impact on the general fund balance is neutralised by transfers to or from the account.

25. POOLED BUDGETS

Community Equipment Store – Health, Neath Port Talbot Council and the City and Country of Swansea

Neath Port Talbot Council is party to a pooled arrangement with the Swansea Bay University Health Board and the City and County of Swansea Council. This arrangement is led by the City and County of Swansea.

The agreement for this pool is that the host partner shall retain operational responsibility for any costs, expenses, or liabilities in excess of the pooled fund at any time during its existence, other than where these have been incurred with the express agreement of the partners. Where this agreement has been made, the partners are jointly responsible in the proportions of their respective contributions to the pool.

Intermediate Care – Neath Port Talbot Council and Health

Neath Port Talbot Council is host to a pooled arrangement with the Health Board, which covers arrangements to plan and arrange provision of adult and older people's services.

The arrangement for this pool is that the partners shall be jointly responsible, in accordance with the funding agreement for any costs, claims, expenses or liabilities incurred in accordance with the terms of the pool agreement. Any underspend is either put into a ring-fenced reserve or distributed to partners as agreed by the partnership board. During 2023/24, the surplus was paid out in full.

27. OFFICERS REMUNERATION

The Council is required to provide details on a range of remuneration issues, such as the median remuneration for all employees compared to the Chief Executive, the amounts earned by senior officers, salary costs greater than £60,000 and the cost and number of any exit packages. As the effect of including voluntary aided schools is not material, the information prepared for the remuneration notes includes the staff employed at the voluntary aided faith schools in the area, which are:

- Alderman Davies Church in Wales Primary
- Bryncoch Church in Wales Primary
- St Therese's Catholic Primary
- St Joseph's Catholic Primary, Infants and Junior schools
- St Joseph's Comprehensive.

The Accounts and Audit Regulations (Wales) 2014 introduced the requirement for the statement of accounts to disclose the organisations pay multiple. This is the ratio of the highest paid employee, the Chief Executive and the median earnings across the organisation. In 2023/24 this ratio is 5.29 times the median remuneration of the organisation which is £28,770.

NOTES TO THE ACCOUNTS

The Employers pension contribution of 21.3% (20.3% in 2022/23) excludes any deficit contribution to the Fund and represents the normal contribution required for the year. No contribution cost is included when an officer has left the employers pension scheme.

NOTES TO THE ACCOUNTS

The Chief Executive opted out of the pension scheme between 31st January 2022 and 30th June 2023. The figures do not include any remuneration for the Chief Executive in her role as returning officer. The amount paid to the Chief Executive in 2023/24 was £495 (2022/23 was £6,980) which is based on rates defined by the respective election bodies and election expenses of £20 were reimbursed for 2023/24 (2022/23 NIL).

The Director of Strategy and Corporate Services was appointed on 26th June 2023. Since his appointment the Chief Digital Office, Head of People & Organisational Development and Head of Legal Services report to him and not the Chief Executive. Full year costs have been included in the Senior Employees table to avoid duplication with those advised to receive remuneration over £60,000.

The number of other staff employed by the Council, including teachers, receiving more than £60,000 remuneration for the year, excluding employer's pension contributions, is listed below, in bands of £5,000. The number being included is increasing each year due to annual pay awards.

NOTES TO THE ACCOUNTS

The Council continues to minimise compulsory redundancy as far as is possible by using alternatives such as voluntary redundancy and redeployment to alternative employment. Those who left under either voluntary or compulsory redundancy received redundancy payments in line with the Council's scheme and where eligible, accessed their pensions.

The numbers of exit packages with total cost per band and total cost of the compulsory and other redundancies are set out in the table below.

30. RELATED PARTIES

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Members

Members of the Council have direct control over the Council's financial and operating policies. The total paid to members in 2023/24, including on-costs, is shown in note 26.

Under the code of conduct incorporated in the Council's Constitution, members are required to record in the register of members interests any financial and other personal interests, together with any gift, hospitality, material interest or advantage. The register is open to inspection by the public and is available on an individual member basis on the Council Website.

Members of the Council serve on numerous outside bodies some of which either receive funding from the Council or issue levies and precepts to be paid by the Council. These payments are made with proper consideration of declarations of interest and relevant members do not take part in any discussion or decision relating to the grants.

NOTES TO THE ACCOUNTS

Officers

The Head of Legal Services is an unpaid shareholder representative on behalf of the Council with Neath Port Talbot Waste Management Ltd; the company is in the process of being dissolved.

The Chief Executive was the Chief Executive for South West Wales Corporate Joint Committee (CJC) until 31st October 2023. The Head of Legal Services is the Monitoring Officer; the Council is reimbursed by the CJC for costs.

Under the Employees' Code of Conduct, officers are required to declare potential conflicts of interest arising from employment arrangements together with gifts or hospitality received. Several Senior Officers benefited from gifts and hospitality during 2023/24 none of which were material or deemed to be a conflict of interest.

Central Government

Central government has significant influence over the general operations of the Council – it is responsible for providing the statutory framework, within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties, such as council tax bills and housing benefits. Grants and contributions received from government departments are set out in the notes 5 and 29.

Entities Significantly Influenced by the Council

Swansea Bay City Deal

The Swansea Bay City Deal is a £1.3bn investment in 9 major projects across the Swansea Bay City Region – which is made up of Carmarthenshire, Neath Port Talbot, Pembrokeshire, and Swansea.

The Swansea Bay City Deal is being led by the four regional local authorities through a Joint Committee Agreement, together with non-voting partners - Swansea Bay and Hywel Dda University Health Boards, Swansea University, the University of Wales Trinity Saint David.

The Head of Legal is the monitoring officer and cost of £21,000 for Democratic Services in respect of the Joint Scrutiny Committee were recharged for 2023/24.

The two projects for Neath Port Talbot Council are Supporting Innovation and Low Carbon Growth and Homes as Power Stations.

NOTES TO THE ACCOUNTS

Celtic Leisure

The Council has a contract with Celtic Leisure (a company limited by guarantee) to manage its indoor leisure activities and the Gwyn Hall. Following negotiations with the Council the Trustees have agreed to surrender the contract prior to the Trust commencing liquidation procedures. The Council has agreed to provide the Trust with funding to meet its obligations until the date of the completion of the contract and in respect of the planned liquidation.

A decision was taken by Cabinet on 1st February 2022 to insource indoor leisure activities and arrangements will continue to develop in that regard. The indemnity agreement that the Council has with Celtic Leisure remains in place until the insourcing is complete.

The Council pays Celtic Leisure an annual management fee to run the service (excluding the structural maintenance of buildings) which for 2023/24 was £3.469m (£2.839m in 2022/23). There was £106,000 (£93,000 in 2022/23) balance owed by Celtic Leisure to the Council on 31st March 2024.

South West Wales Corporate Joint Committee

Formally constituted in January 2022, the Corporate Joint Committee for South West Wales covers the local authority areas of Carmarthenshire, Neath Port Talbot, Pembrokeshire and Swansea. The Committee will improve the regional planning, co-ordination and delivery of transport, land use planning, economic development, and energy.

The Corporate Joint Committee has been created by the Local Government and Elections (Wales) Act 2021 and is made up of representatives from the four Councils as well as Bannau Bryncheniog and the Pembrokeshire Coast National Park Authority.

Neath Port Talbot Council commits a sum by way of a levy, £126,022 for 2023/24 (£117,384 for 2022/23), and are reimbursed for officer time associated with the governance arrangements of the Corporate Joint Committee. Service Level Agreements are in place between the Corporate Joint Committee and the respective public bodies for service delivery.

NOTES TO THE ACCOUNTS

31. CAPITAL EXPENDITURE AND CAPITAL FINANCING

The total amount of capital expenditure incurred in the year is shown in the table below, together with the resources that have been used to finance it.

2022/23 £000		2023/24 £000
37,420	Capital Investment	32,732

NOTES TO THE ACCOUNTS

32. SERVICE CONCESSION

On 1st April 2012, the Council entered into a service concession arrangement with Tai Gwalia CYF to take over and operate the Council's long-term care and short term respite care homes. As part of this arrangement, the Council transferred its existing care homes to Tai Gwalia CYF who have constructed two new residential care homes, Plas Bryn Rhosyn in Neath and Llys Y Seren in Port Talbot, on land owned by the Council. This arrangement is in place until 2037.

The agreement included the construction of two residential care homes with a commitment that the Council will purchase a guaranteed number of beds for the duration of the contract. The contract includes a series of events which could trigger termination of the contract. At the end of the contract the assets transfer into the ownership of the Council for no additional charge. The Council carries the non-current assets used under the contract on the balance sheet as service concession assets.

The following table shows the payments to be made under the service concession:

	Payment for Services £000	Reimburse Capital Expenditure £000	Interest £000	Total £000
Payable:				
Within 1 year	4,300	115	138	4,553

33. LEASES

Council as Lessee

Finance Leases

The Council has one finance lease recognised in its balance sheet.

31st Mar 2023 £000		31st Mar 2024 £000
3,744	Other Land and Buildings - Asset Value.	3,745

The Council is committed to making minimum payments under these leases comprising settlement of the long-term liability for the interest in the property acquired by the Council and finance costs that will be payable by the Council in future years, while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

31st Mar 2023 £000		31st Mar 2024 £000
	Finance Lease Liabilities	
13	Current.	13
819	Non Current.	805

Council as Lessor

Operating Lease

The Council currently leases out property under operating lease agreements ranging from indoor market units to shops, clubs, land, etc.

The lease income received in 2023/24 was £1.194m (2022/23 was £1.299m). The leases are short term by nature and future income streams will be affected by external factors, most noticeably economic conditions and therefore cannot be estimated with certainty.

NOTES TO THE ACCOUNTS

34. PENSION SCHEMES ACCOUNTED FOR AS DEFINED CONTRIBUTION SCHEMES

Teachers employed by the Council are members of the Teachers' Pension Scheme, administered by Teachers' Pensions on behalf of the Department for Education. The Scheme provides teachers with specified benefits upon their retirement, and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

The Scheme is a multi-employer defined benefit scheme. The Scheme is unfunded, and the Department for Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. Valuations of the notional fund are undertaken every four years.

The Council is not able to identify its share of underlying financial position and performance of the Scheme with sufficient reliability for accounting purposes. For the purposes of this statement of accounts, it is therefore accounted for on the same basis as a defined contribution scheme.

In 2023/24 the Council paid £13.5m (£12.7m in 2022/23) to Teachers' Pensions in respect of teachers' retirement benefits, based on a 23.68% which has been the effective rate from 1st September 2019.

The Council is responsible for the costs of any additional benefits awarded upon early retirement outside of the terms of the teachers' scheme. These costs are accounted for on a discretionary basis within the defined benefit detailed in note 35.

The Council is not liable to the scheme for any other entities' obligations under the plan.

35. DEFINED BENEFIT PENSION SCHEMES

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

The Council participates in two post-employment schemes:

- the Local Government Pension Scheme, administered locally by the City and County of Swansea. This is a funded defined benefit final salary scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pensions' liabilities with investment assets.
- arrangements for the award of discretionary post-retirement benefits upon early retirement – this is an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. However, there is no investment assets built up to meet these pensions' liabilities, and cash has to be generated to meet actual pension payments as they eventually fall due.

NOTES TO THE ACCOUNTS

The City and County of Swansea Pension Fund is operated under the regulatory framework for the Local Government Pension Scheme and the governance of the scheme is the responsibility of the pensions committee of the City and County of Swansea Council. Policy is determined in accordance with the pension fund regulations. The investment managers of the fund are appointed by the committee and the committee consist of the Director of Finance, Council members and independent investment advisers.

The principal risks to the Council of the scheme are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme, (i.e. large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the general fund the amounts required by statute.

Discretionary Post–Retirement Benefits

Discretionary post-retirement benefits on early retirement are an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. There are no plan assets built up to meet these pension liabilities.

Transactions Relating to Post-Employment Benefits

The cost of retirement benefits is recognised in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the general fund via the movement in reserves statement.

McCloud

The Local Government Pension Scheme Regulations covering the McCloud remedy has been concluded. The net pension liability reported in the accounts includes the liability related to the McCloud judgement.

Virgin Media Case

In June 2023 the High Court found that changes to member benefits in contracted out defined benefit pension schemes between 1996 and 2016 required an actuarial certificate in line with section 37 of the Pension Schemes Act 1993 and that changes without this certification are to be considered void. This requirement applies to past service rights and future service rights, and to changes to the detriment or benefit of scheme members. An appeal in June 2024 was dismissed. The Government Actuary's Department is reviewing the scheme changes to confirm whether actuarial certificates are available. Due to the time periods covered, it is unclear how long this review process will take.

Due to the uncertainty over whether there is a liability, and where there is, the current lack of information about the timing and value of the liability. The Pension Liability included within the accounts does not include an adjustment for the Virgin Media Case.

NOTES TO THE ACCOUNTS

Actuarial Valuation

The pension fund liability disclosed in the balance sheet is the total projected surplus or deficit that exists over the expected life of the fund. This surplus or deficit changes on an annual basis dependent on the performance of investments and the actuarial assumptions that are made in terms of current pensioners, deferred pensioners, and current employees.

The fund is subject to a 3 yearly actuarial valuation which assesses the then state of the pension fund and advises the various admitted bodies on the appropriate rate of employers' contributions that needs to be made in order to restore the fund to a balanced position over a period of time. The contribution rate used in 2023/24 relates to the valuation undertaken on 31st March 2022.

The effect of allowing for this is shown in the 'Actuarial (gains) / losses due to liability experience' and the 'Return on plan assets (in excess of)/below that recognised in net interest' and is reflected in the balance sheet position. The demographic assumptions have also been updated to reflect those of the 2022 valuation. These changes have had a positive effect on the balance sheet position.

Surplus Recognition and Additional Liability

The defined benefit Pension Scheme has a net pension asset at the accounting date. The Actuary has calculated the maximum economic benefit that can be recognised in the accounts (referred to as the asset ceiling) calculated in accordance with IFRIC 14. As the asset ceiling is below the net pension asset, the net pension asset has been restricted to the asset ceiling.

The Council is currently paying deficit contribution. IFRIC 14 requires recognition of an additional liability with the current year's accounts due to the obligation to pay deficit contributions in the future under a minimum funding requirement. The additional liability is equal to the value of the future deficit contributions that cannot be recognised as a net pension asset after they have been paid into the Fund (i.e. they would have no economic benefit to the Council).

Basis for Estimating Assets and Liabilities

NOTES TO THE ACCOUNTS

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. Both the Local Government Pension Scheme and discretionary benefits liabilities have been assessed by AON Hewitt Ltd, an independent firm of actuaries, estimates for the Fund being based on the latest full valuation of the scheme as at 31st March 2022.

The significant assumptions used by the actuary have been:

Local Government Pension Scheme	Discretionary Benefit Arrangements		Local Government Pension Scheme	Discretionary Benefit Arrangements
2022/23			2023/24	
		Mortality Assumptions:		
		Longevity at 65 for Current Pensioners:

Sensitivity Analysis

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The approximate impact of changing the key assumptions on the present value of the funded defined benefit obligation as at 31st March 2023 and the projected service cost for the year ending 31st March 2024 is set out below:

Asset Liability Matching Strategy (ALM)

The pension committee of the City and County of Swansea has agreed to an asset and liability matching strategy (ALM) that matches, to the extent possible, the types of assets invested to the liabilities in the defined benefit obligation. The fund has matched assets to the pensions' obligations by investing in long-term fixed interest securities and index linked gilt edged investment with maturities that match the benefits payments as they fall due. This is balanced with a need to maintain the liquidity of the fund to ensure that it is able to make current payments.

Impact on the Council's Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The City and County of Swansea has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over 25 years. Funding levels are monitored on an annual basis.

The last triennial valuation was as at 31st March 2022.

The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31st March 2014. The Act provides for scheme regulations to be made within a common framework, to

NOTES TO THE ACCOUNTS

establish new career average revalued earnings schemes to pay pensions and other benefits to certain public servants.

The Council expects to pay £31.97m contributions to the scheme in 2024/25. Expected payments to beneficiaries of the discretionary benefits schemes in the year to 31st March 2025 are £0.97m for the LGPS Scheme and £1.56m for Teachers.

36. DISCLOSURE OF NATURE AND EXTENT OF RISK ARISING FROM FINANCIAL INSTRUMENTS

Key Risks

The Council's activities expose it to a variety of financial risks. The key risks are:

- Credit risk The possibility that other parties might fail to pay amounts due to the Council
- Liquidity risk The possibility that the Council might not have funds available to meet its commitments to make payments
- Market risk The possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates movements.

Overall Procedures for Managing Risk

The Council's overall risk management procedures focus on the unpredictability of financial markets and are structured to implement suitable controls to minimise these risks. Risk management is carried out by a central treasury team, under policies approved by Council in the treasury management strategy, annual investment strategy, capital strategy and minimum revenue policy report. The full report can be accessed on the Council's web site.

Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers.

This risk is minimised through the annual investment strategy, which is available on the Council website.

The key areas of the investment strategy in relation to minimum criteria for investment counterparties and investment limits are included within the Council Annual Investment Strategy.

The Council's maximum exposure to credit risk in relation to its investments in individual banks and building societies cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. A minimal risk of irrecoverability applies to all of the Council's deposits and by adopting stringent investment criteria this risk continues to be minimised.

NOTES TO THE ACCOUNTS

No breaches of the Council's counterparty criteria occurred during the reporting period and the Council does not expect any losses from non-performance by any of its counterparties in relation to deposits and bonds.

The Council does not allow credit for its trade debtors. The following analysis shows the age profile of the due amounts:

31st Mar 2023 £000		31st Mar 2024 £000
4,320	Current - Up to One Month.	2,818
727	One to Three Months.	3,381
742	Three to Six months.	1,193
771	Six Months to One Year.	1,206
2,165	More than One Year.	2,739
8,725	Total	11,337

Liquidity Risk

The Council has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. If unexpected movements happen, the Council has ready access to borrowings from the money and the Public Works Loan Board. There is no significant risk that it will be unable to raise finances to meet its commitments under financial instruments.

Refinancing and Maturity Risk

The Council maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer term risk to the Council relates to managing the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer-term financial liabilities and longer term financial assets.

The approved treasury indicator limits for the maturity structure of debt and the limits placed on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council approved treasury and investment strategies address the main risks and the central treasury team address the operational risks within the approved parameters.

The maturity analysis of financial liabilities (excluding interest) is as follows:

31st Mar 2023 £000		31st Mar 2024 £000
(20,436)	Less than 1 Year.	(7,767)
(5,606)	Between 1 and 2 Years.	(1,194)
(2,009)	Between 2 and 5 Years.	(1,009)
(22,313)	Between 5 and 10 Years.	(29,240)
(244,831)	More than 10 Years.	(230,710)
(295,195)	Total	(269,920)

NOTES TO THE ACCOUNTS

Market Risk

Interest Rate Risk

The Council is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects:

- Borrowings at variable rates – the interest expense charged to the surplus or deficit on the provision of services will rise;
- Borrowings at fixed rates – the fair value of the liabilities borrowing will fall;
- Investments at variable rates – the interest income credited to the surplus or deficit on the provision of services will rise;
- Investments at fixed rates – the fair value of the assets will fall.

Borrowings are not carried at fair value on the balance sheet, so nominal gains and losses on fixed rate borrowings would not impact on the surplus or deficit on the provision of services or other comprehensive income and expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the surplus or deficit on the provision of services and affect the general fund balance.

The Council has a number of strategies for managing interest rate risk. The annual treasury management strategy draws together Council's prudential and treasury indicators and its expected treasury operations, including an expectation of interest rate movements. This strategy is used to set a treasury indicator which provides maximum limits for fixed and variable interest rate exposure. The central treasury team will monitor the market and interest rate forecasts during the year and adjust exposures appropriately. For instance during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, similarly the drawing of longer term fixed rates borrowing would be postponed.

If there were a fluctuation of 1% in the interest rates (with all other variables held constant) the financial effect at 31st March would be:

	31st Mar 2024 £000
Increase/Decrease in Interest Received and Credited to the Comprehensive Income and Expenditure Statement.	245
Increase/Decrease in External Interest Payable and Debited to the Comprehensive Income and Expenditure Statement.	2,663

Price Risk

The Council does not invest in equity shares or marketable bonds.

37. LOCAL TAXATION

Council Tax

Council tax is the current form of local taxation for domestic properties. All domestic properties are placed into one of nine valuation bands according to their open market value at 1st April 2003. The average amount of council tax for a property in Band D in 2023/24 was £2,112. This was calculated by dividing the amount of council tax required by Neath Port Talbot Council, each community council, and the South Wales Police Authority by the council tax base of 48,808 (which is the number of properties we collect council tax from, adjusted by discounts etc., and converted to the equivalent number of band d properties). The amounts for properties in other bands are calculated by multiplying the band d figure by the relevant multiplier in the table below:

Band	A	B	C	D	E	F	G	H	I	Total
Multiplier	6/9	7/9	8/9	9/9	11/9	13/9	15/9	18/9	21/9

NOTES TO THE ACCOUNTS

Business Rates

Non-domestic rates are calculated by multiplying a property's rateable value by the rating multiplier (or rate in the pound). Rateable values are determined by the Valuation Office Agency and the multiplier is set by the Welsh Government. The multiplier for 2023/24 was 53.5p (2022/23 53.5p). The Council is responsible for collecting rates due from businesses in its area but pays the proceeds into the NNDR pool administered by the Welsh Government. The Welsh Government redistributes the sums payable back to local authorities on the basis of a fixed amount per head of population.

In 2023/24, the total non-domestic rateable value at the year-end was £105.399m (2022/23 £103.264m).

38. ANNUAL GOVERNANCE STATEMENT

The Council is required by statute to provide an Annual Governance Statement that covers all significant corporate systems, processing, and controls, spanning the whole range of its activities. It is signed by the Council's Leader and Chief Executive and approved by Cabinet.

The report of the Auditor General for Wales to the Members of Neath Port Talbot County Borough Council

Opinion on financial statements

I have audited the financial statements of Neath Port Talbot County Borough Council for the year ended 31 March 2024 under the Public Audit (Wales) Act 2004.

Neath Port Talbot County Borough Council's financial statements comprise the Expenditure and Funding Analysis, the Movement in Reserves Statement, the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Cash Flow Statement and the related notes, including the material accounting policies.

The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards as interpreted and adapted by the Code of Practice on Local Authority Accounting in the United Kingdom 2024.

In my opinion, in all material respects, the financial statements:

- give a true and fair view of the financial position of Neath Port Talbot County Borough Council as at 31 March 2024 and of its income and expenditure for the year then ended; and
- have been properly prepared in accordance with legislative requirements and UK adopted international accounting standards as interpreted and adapted by the Code of Practice on Local Authority Accounting in the United Kingdom 2024.

Basis of opinion

I conducted my audit in accordance with applicable law and International Standards on Auditing in the UK (ISAs (UK)) and Practice Note 10 'Audit of Financial Statements of Public Sector Entities in the United Kingdom'. My responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of my report.

My staff and I are independent of the [name of local government body and the group] in accordance with the ethical requirements that are relevant to my audit of the financial statements in the UK including the Financial Reporting Council's Ethical Standard, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Conclusions relating to going concern

In auditing the financial statements, I have concluded that the use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work I have performed, I have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Neath Port Talbot County Borough Council's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from when the financial statements are authorised for issue.

My responsibilities and the responsibilities of the responsible financial officer with respect to going concern are described in the relevant sections of this report.

The report of the Auditor General for Wales to the Members of Neath Port Talbot County Borough Council

Other Information

The other information comprises the information included in the annual report other than the financial statements and my auditor's report thereon. The Responsible Financial Officer is responsible for the other information contained within the annual report. My opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in my report, I do not express any form of assurance conclusion thereon.

My responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If I identify such material inconsistencies or apparent material misstatements, I am required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact.

I have nothing to report in this regard.

Opinion on other matters

In my opinion, based on the work undertaken in the course of my audit:

- the information contained in the Narrative Report for the financial year for which the financial statements are prepared is consistent with the financial statements and is in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2024.
- The information given in the Governance Statement for the financial year for which the financial statements are prepared is consistent with the financial statements and is in accordance with guidance.

Matters on which I report by exception

In the light of the knowledge and understanding of [name of local government body and the group] and its environment obtained in the course of the audit, I have not identified material misstatements in the Narrative Report or the Governance Statement.

I have nothing to report in respect of the following matters, which I report to you, if, in my opinion:

- I have not received all the information and explanations I require for my audit;
- adequate accounting records have not been kept, or returns adequate for my audit have not been received from branches not visited by my team; or
- the financial statements are not in agreement with the accounting records and returns.

Responsibilities of the responsible financial officer for the financial statements

As explained more fully in the Statement of Responsibilities for the Statement of Accounts, the responsible financial officer is responsible for:

- the preparation of the statement of accounts, which give a true and fair view and comply with proper practices;
- maintaining proper accounting records;
- internal controls as the responsible financial officer determines is necessary to enable the preparation of statements of accounts that are free from material misstatement, whether due to fraud or error; and
- assessing the Neath Port Talbot County Borough Council's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the responsible financial officer anticipates that the services provided by the Neath Port Talbot County Borough Council will not continue to be provided in the future.

Auditor's responsibilities for the audit of the financial statements

My responsibility is to audit the financial statements in accordance with the Public Audit (Wales) Act 2004.

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. I design procedures in line with my responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud.

My procedures included the following:

- Enquiring of management, the Neath Port Talbot County Borough Council's internal audit and those charged with governance, including obtaining and reviewing supporting documentation relating to Neath Port Talbot County Borough Council's policies and procedures concerned with:
 - identifying, evaluating and complying with laws and regulations and whether they were aware of any instances of non-compliance;
 - detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected or alleged fraud; and

the internal controls established to mitigate risks related to fraud or non-compliance with laws and regulations.

The report of the Auditor General for Wales to the Members of Neath Port Talbot County Borough Council

- Considering as an audit team how and where fraud might occur in the financial statements and any potential indicators of fraud. As part of this discussion, I identified potential for fraud in the following areas: management override and the posting of unusual journals;
- Obtaining an understanding of Neath Port Talbot County Borough Council's framework of authority as well as other legal and regulatory frameworks that Neath Port Talbot County Borough Council operates in, focusing on those laws and regulations that had a direct effect on the financial statements or that had a fundamental effect on the operations of Neath Port Talbot County Borough Council; and
- Obtaining an understanding of related party relationships.

In addition to the above, my procedures to respond to identified risks included the following:

- reviewing the financial statement disclosures and testing to supporting documentation to assess compliance with relevant laws and regulations discussed above;
- enquiring of management, the Governance and Audit Committee and legal advisors about actual and potential litigation and claims;
- reading minutes of meetings of those charged with governance; and
- in addressing the risk of fraud through management override of controls, testing the appropriateness of journal entries and other adjustments; assessing whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluating the business rationale of any significant transactions that are unusual or outside the normal course of business.

I also communicated relevant identified laws and regulations and potential fraud risks to all audit team members and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

The extent to which my procedures are capable of detecting irregularities, including fraud, is affected by the inherent difficulty in detecting irregularities, the effectiveness of the Neath Port Talbot County Borough Council's controls, and the nature, timing and extent of the audit procedures performed.

A further description of the auditor's responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website www.frc.org.uk/auditorsresponsibilities. This description forms part of my auditor's report.

The report of the Auditor General for Wales to the Members of Neath Port Talbot County Borough Council

Other auditor's responsibilities

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Certificate of completion of audit

I certify that I have completed the audit of the accounts of Neath Port Talbot County Borough Council in accordance with the requirements of the Public Audit (Wales) Act 2004 and the Auditor General for Wales' Code of Audit Practice.

GLOSSARY OF TERMS

This glossary of terms has been prepared on the basis that a basic knowledge of accountancy terms is held. It provides a description of specialist terms relating to local government finance.

Audit	An audit is an independent examination of the Council's activities
Accumulated Absences	The Code of Practice requires an adjustment for accumulated absences which gives a monetary value to the cost of holidays accrued by staff but not taken at the end of the financial year. The net effect of this adjustment is reversed from the accounts.
Actuary	An actuary is someone who works out insurance and pension fund valuations, taking into account relevant factors such as trends in insurance claims and life expectancy.
Amortised Cost	Amortised costs are used to spread the financial impact of depreciation or using an equivalent interest rate or the effect of a premium or discount over a number of years on the income and expenditure account.
Balance Sheet	This is a statement of our assets, liabilities and other balances at the balance sheet date i.e. 31 st March.
Budget	A budget is a spending plan, based upon which the Council tax is set. Actual expenditure and income is subsequently monitored against this plan.
Capital Expenditure	Capital expenditure is spending on fixed assets. These are assets that will be used for several years in the provision of services and are items such as buildings, equipment and vehicles.
Capital Receipt	Capital receipts are proceeds from the sale of fixed assets such as land and buildings.
Cash Flow Statement	This statement summarises the movements in cash during the year.
CIPFA/LASAAC	The Chartered Institute of Public Finance and Accountancy and Local Authority Scotland Accounts Advisory Committee (CIPFA/LASAAC) is the body that sets the Code of Practice on Local Authority Accounting in the United Kingdom.
Comprehensive Income and Expenditure Statement (CIES)	This account records day to day spending and income on items such as salaries and wages, the running costs of services and the financing of capital expenditure.
Componentisation	Accounting standards require that assets are split into separate components where there are significant differences in the life of elements of the assets which would have a significant effect on the depreciation costs.

GLOSSARY OF TERMS

Contingent Asset	This is a possible asset that arises from past events but whose existence will only be confirmed after an uncertain future.
Contingent Liability	This is a possible obligation that may arise from past events and whose existence will be confirmed by the occurrence of uncertain future events.
Creditor	A creditor is someone we owed money to at the date of the balance sheet for goods or services received.
Current Asset	These are short-term assets which are available for us to use in the following accounting year.
Current Liability	These are short-term liabilities which are due for payment by us in the following accounting year.
Debtor	A debtor is someone who owed money to us at the date of the balance sheet.
Depreciation	Depreciation is the estimated loss in value of fixed assets that are presented in the Balance Sheet.
Expenditure and Funding Analysis	This analysis is designed to provide a more direct link between the Council's budgeted spend and the figures reported under generally accepted accounting practices. It provides a link between management information and the figures included in the Comprehensive Income and Expenditure Statement.
Fair Value	This is the estimated value of an asset or liability at the balance sheet date. The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.
Finance Lease	Leasing is a method of financing capital expenditure by paying the owner to use property or equipment for a number of years. Finance leases are used to finance purchases where the Council takes on most of the risks associated with owning the asset.
Financial Year	This is the accounting period. For local Authorities it starts on 1 April and finishes on 31 March of the following year.
Financial Instruments	This relates to any contract which gives rise to a financial asset in one organisation and a financial liability or equity instrument of another. A collective name for investments, trade debtors and borrowings.
General Fund Balance	This represents the cumulative retained surpluses on the Council's revenue budget. It includes reserves the Council has earmarked to fund its plans as well as a cushion against unexpected events or

GLOSSARY OF TERMS

emergencies. The level of the balance is considered as part of the annual budget process each year.

IFRIC	International Financing Reporting Interpretations Committee.
Impairment	This happens when fixed asset or investment values change significantly due to changes in circumstances. It can occur if there is a significant change in a fixed asset's market value or significant physical damage such as fire. The cost of impairment is charged to the revenue account in the year it occurs.
Liability	A liability is an amount payable at some time in the future.
Minimum Revenue Provision (MRP)	This is an amount we have set aside to repay loans.
Movement in Reserves Statement	This statement shows the movement in the year on the different reserves held by the Council, analysed between the usable reserves which can be applied to fund expenditure or reduce local taxation and the unusable reserves which cannot be utilised in this way.
National Non-Domestic Rates (NDR)	Also known as the Business Rate, it is the charge occupiers of business premises pay which is collected by this Council and paid to the Welsh Government for reallocation. The charge is based on the rateable value of the business premises.
Net Realisable Value	The selling price of an asset, reduced by the relevant cost of selling it.
Pension Reserve	The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits (pensions) and for funding benefits in accordance with statutory provisions.
Pooled Budgets	These are budgets which are joined up across differing organisations with similar objectives and used to ensure improvements through coordinating expenditure.
Precepts	Precepts are levied on the Council by non-billing organisations such as the police and community councils to enable them to cover their costs in the performance of their services or duties.
Provision	This is an amount set aside in the accounts for a past event which is likely or certain to result in a financial cost some time in the future, though the exact amount and date may be uncertain.
Public Works Loans Board(PWLB)	This is a Government Agency which provides longer term loans to local authorities.

GLOSSARY OF TERMS

Related Party Transactions	These are disclosed to highlight any relationships that may exist between the Council and third parties who may materially affect or influence the way the Council or third parties are able to operate.
Reserves	These are sums set aside to meet future expenditure. This Council splits the total reserve to show those earmarked to fund specific expenditure and those held to fund non-specific future expenditure in the general reserve.
Revaluation Reserve	This reserve is used to record gains in fixed asset values as a result of formal revaluations of the Council's fixed assets.
Revenue Expenditure Funded from Capital under Statute	This represents revenue expenditure which the Council is allowed to apply to Capital under statutory provisions. It does not result in fixed assets controlled by the Council.
Revenue Support Grant/NDR	This is general government grant in support of local council services which is paid by the Welsh Government. The distribution of this grant tries to take account of the differing needs in each Council.
Service Concession	A service concession arrangement arises when a Council grants a contract to a supplier who provides or maintains capital assets on the Council's behalf, which revert to the Council's ownership at the end of the contract. The grantor regulates the services the operator must provide using the assets and also controls any significant residual interest in the assets at the end of the term of the arrangement.
The Code of Practice	The Code of Practice incorporates guidance in line with IFRS, IPSAS and UK GAAP accounting standards. It sets out the proper accounting practice to be adopted for the Statement of Accounts to ensure they 'present fairly' the financial position of the Council.

Note: values throughout these accounts are presented rounded to whole values as shown throughout the accounts. Totals in supporting tables and notes may not appear to cast, cross-cast, or exactly match to the core statements or other tables due to rounding differences.

Introduction

To prepare our Annual Governance Statement the council has adopted the 2016 Delivering Good Governance in Local Government: Framework (the Framework), developed by the Chartered Institute of Public Finance and Accountancy (CIPFA) and the Society of Local Authority Chief Executives (SOLACE).

The council must publish an Annual Governance Statement (AGS) to comply with this Framework. The AGS explains the processes and procedures in place to enable the council to carry out its functions effectively. The governance framework comprises of the systems, processes, cultures and values by which the council is directed and controlled, and through which we engage with, and lead, the local community. The framework brings together an underlying set of legal requirements, good practice and management processes.

Supporting the work of the AGS the council is now in its third year of conducting a self-assessment, meeting the requirements of the Local Government and Elections (Wales) Act 2021. The self-assessment allows us to score ourselves on the effectiveness of the council's system of internal control in place for the year ending 31st March 2024. This Annual Governance Statement contributes to the self-assessment by demonstrating:

- the council's business is conducted in accordance with all relevant laws and regulations;
- public money is safeguarded and properly accounted for;
- there is sound and inclusive decision making;
- resources are used economically, efficiently and effectively; and
- there is clear accountability for the use of those resources to achieve agreed priorities which benefit local people and communities.

“Corporate governance is about making sure that the council is run properly. It is about ensuring the council does the right things, at the right time and in the right way.”

The council’s systems of internal control are designed to manage risk to a reasonable level. The council cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness.

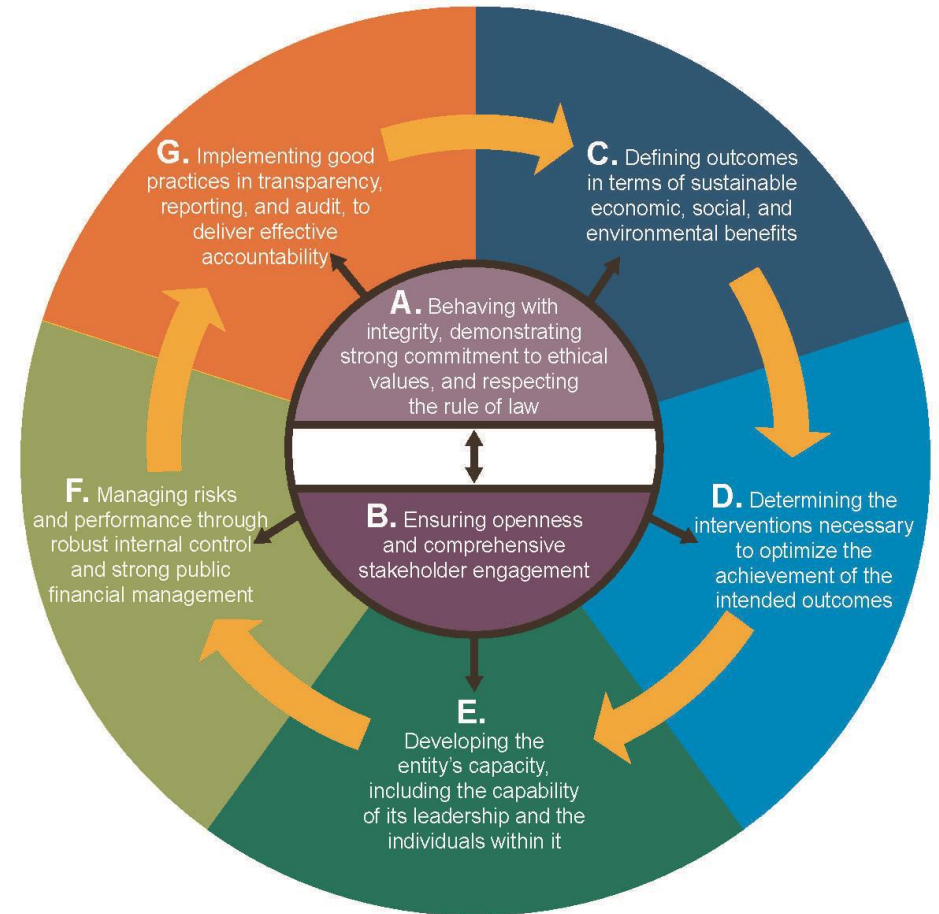

Delivering Good Governance in Local Government: Framework (The Framework) 2016

The Framework comprises of two core principles and five supporting principles as illustrated in the diagram.

Principles A and B run through principles C to G but good governance is dynamic, and the council as a whole is committed to improving governance on a continuing basis through a process of evaluation and review.

The next section: Putting the Principles into Practice, illustrates examples of how the council demonstrates compliance to meet these seven principles. In addition, the council uses a number of ways to review and assess the effectiveness of its governance arrangements and **Table 1** on page 83 highlights the difference mechanisms during 2023/2024.

Whilst preparing the annual governance statement we have reflected on any governance improvement areas which need reviewing or will be further developed in 2024-2025, these have been included in an action plan set out in **Table 2** on page 87. The Corporate Governance Group, will oversee the action plan and progress will be reported to Corporate Directors Group, Cabinet and Governance & Audit Committee throughout the financial year.

Behaviours and actions that demonstrate good governance in practice	Evidence of key systems, documents and processes	Assurance of arrangements in place	Suggested improvement / action
1.1 Ensuring members and officers behave with integrity and lead a culture where acting in the public interest is visibly and consistently demonstrated thereby protecting the reputation of the organisation	1.1.1 Employee Code of Conduct	In November 2020 an Internal Audit review was published of the compliance need to make the necessary declarations regarding interests, gifts and hospitality accepted/rejected. The recommendations made were taken into account and the Code was updated in January 2021.	None identified
	1.1.2 Corporate Induction	The HR Future of Work Team re-instated the Corporate Induction Programme in 2023. In terms of its purpose: participants benefit from consistent, council-wide information – gaining an appreciation of our purpose and values, prompting them to consider how they can embody these on a day to day basis (in other words: How do I fit into the “big picture”?). There are contributions from HR colleagues, Health & Safety, Learning & Development etc. as well as a “welcome” from the Chief Executive. New starters still receive a “local induction” from their line managers – addressing departmental matters. Corporate Induction days are now scheduled to take place on a quarterly basis. In 2023/2024, 157 employees attended the programme.	None identified

The Plan was informed by the extensive Lets Keep Talking campaign. The Corporate Plan demonstrates how the council contributes to the economic, social, environmental and cultural wellbeing of Neath Port Talbot and to the seven national wellbeing goals contained in the Wellbeing of Future Generations (Wales) Act 2015. The Plan sets out the council's four well-being objectives and under each one, the vision for 20 years' time and the aims we plan to achieve in the next three years. The Transformation Programme contained within the Corporate Plan, sets out the areas where the council is expecting to make a step change, undertaking actions that are essential to service and financial sustainability, whilst in a number of areas focusing on themes that have been derived from the extensive engagement undertaken over the last three years.</p>	None identified

These themes included:</p> <ul style="list-style-type: none"> • Cabinet Members to be held to account; • Public engagement being very important; • Members need to have option to be involved in decisions at an earlier stage; • There process needs to be more accessible and transparent so it is clear to the public what is going to be scrutinised; • The council need to consider a system which operates consistently both pre and post decision scrutiny; and • Ongoing performance monitoring is very important

Review of Effectiveness

The council has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the Chief Officers and the Internal Audit Service who have responsibility for the development and maintenance of the governance environment and also by comments made by the external auditors and other review agencies and inspectorates. A Corporate Governance Group, reporting to the Corporate Directors Group ensures that improvement work is scheduled, resourced and monitored. The council uses a number of ways to review and assess the effectiveness of its governance arrangements, the table below highlights the different mechanisms during 2023/2024:

Governance Arrangements	Update for 2023/2024
<p>Tudalen246</p> <p>Constitution Review & Monitoring</p>	<p>The Constitution is reviewed on a regular basis to ensure it is up to date and amendments taken through the decision making process as and when required.</p> <p>Amendments took place in summer 2023 to reflect decision making structures within the council and the changes proposed by the new administration.</p> <p>Reports are taken as and when necessary to ensure the Constitution is up to date and Democratic Services Committee have been tasked to work with the Monitoring Officer to review arrangements as and when necessary.</p> <p>Formal reports by s151 or Monitoring Officer – no reports were issued by the s151 or Monitoring Officer in 2023/2024.</p>
<p>Internal Audit Service</p>	<p>The focus of Internal Audit work in 2023/24 was on auditing areas considered to be a high / medium risk. Overall 81% of the plan was achieved.</p> <p>60% high risk audits were completed and 100% medium to low risk audits were completed. The remaining high risk audits were carried for completion in the early part of 2024/25.</p> <p>The Head of Internal Audit's opinion is that the council's internal control environment and systems of internal control in the areas audited are satisfactory and reasonable assurance can be given that</p>

	<p>there have been no major weaknesses noted in relation to the internal control systems operating within the authority.</p>
<p>Governance & Audit Committee</p>	<p>Approved the council's Internal Audit Plan on 17th March 2023.</p> <p>Monitored Internal Audit performance against the plan.</p> <p>Monitored External Audit Performance and received update reports from Audit Wales.</p> <p>The Committee received Treasury Management Progress Reports in order to fulfill their obligations in relation to the Scrutiny of Treasury Management activity.</p>
<p>Tudalen247</p> <p>Standards Committee</p>	<p>On signing their Declaration of Acceptance of Office, Members are required to give an undertaking to abide by the Members' Code of Conduct.</p> <p>A detailed member induction programme took place following local government elections in May 2022. This included specified training relating to the member code of conduct, social media issues, gifts and hospitality and officer/member protocols. Refresher training takes place on an annual basis to enhance member's compliance with the Members Code of Conduct and to ensure members are aware of the responsibility to act ethically and with integrity throughout the year, with advice provided on a variety of matters throughout year on interests and predetermination matters.</p> <p>The Local Government and Elections (Wales) Act 2021 provided an additional duty on group leaders to ensure members within their political group also comply with the Members Code of Conduct and ongoing support will be provided on this function via the Standards Committee.</p> <p>The Standards Committee were pleased to note the approach that Group Leaders take in promoting standards and the personal commitment they have to encourage members within their groups to embed ethical processes in their day to day activities. Of interest particularly to the Standards Committee was how Group Leaders deal with the "thick skin" ideology that the Public Service Ombudsman and other regulatory bodies adopt and the views that all Group Leaders have that often this is an inappropriate test and it is not something that any elected member should have to have if they face abuse from members of the public, particularly in a social media setting.</p>

	<p>The Standards Committee are required to conduct an assessment of how political group leaders have complied with their new duty to promote high standards of conduct and the Standards Committee are able to confirm that throughout 2023/2024, Group Leaders have discharged their duty, in the views of the Standards Committee, and that there were no ethical concerns arising.</p> <p>The Standards Committee prepared their Annual Report in April 2024 for the work of the previous finance year.</p>
<p>External Auditors</p>	<p>In the Audit Wales Annual Audit Summary 2023, which detailed the work completed since the council's last Annual Audit Summary, the Auditor General provided an unqualified true and fair opinion on the council's financial statements on 14th November 2023, in line with the statutory deadline.</p> <p>The Auditor General also certified that the council has met its legal duties for improvement planning and reporting, and believes that it is likely to meet the requirements of the Local Government (Wales) Measure 2009 and Local Government & Elections Act (Wales) 2021 during 2022/2023.</p>

Group Leaders consider bi-annual meetings with the Monitoring Officer to discuss standards and ethics and how they can work together to promote standards within their political groups; V. Steps be taken to promote the Member Officer Protocol to all elected members and officers of the Council, with training provided as appropriate; VI. A series of guidance documents to be circulated to all members in respect of key conduct matters such as declarations of interest, predetermination, conduct case studies and key information for members. 	Head of Legal & Democratic Services	<p>All 60 members of Council have received code of conduct training on commencement of their role in 2022. Two refresher sessions were held in 2023/2024, with approximately 72% of members attending the refresher session provided. Further refresher sessions will continue to be provided.</p> <p>As per a request of the Standards Committee, all Group Leaders have been requested to make standards a standard item on their agenda and confirmation has been received that this is the case.</p> <p>Meetings are held on a regular basis with Group Leaders, over and above the target of bi-annual meetings.</p> <p>The Member/Officer Protocol has been considered by the Standards Committee and copies provided to elected members. Head of Legal & Democratic Services	Training has been rolled out throughout the council and in 2023/2024 four sessions were held for officers. The training has also now been incorporated into the corporate training programme for new Accountable Managers and sessions provided as part of training provided in that forum.
2.1.1	Corporate Procurement to monitor and evaluate compliance looking at what approach sections adopt. Head of Legal & Democratic Services to report annually to the Corporate Governance Group.	Head of Legal & Democratic Services	A detailed review of procurement practices has been undertaken throughout 2023/2024 to help frame the preparation of the Neath Port Talbot Procurement Strategy. As part of this an analysis of strengths and weaknesses and corporate priorities have been undertaken to help identify strategic objectives and the development of a delivery plan to achieve the same.
Principle B: Ensuring openness and comprehensive stakeholder engagement			
4.4.3	Review the Citizens' Panel and further develop in line with the action plan in the Public Participation Strategy	Strategic Manager - Policy & Executive Support	Following a recent recruitment drive, there are over 700 members on the Panel. Officers will analyse the data to

The review has been undertaken jointly between the council and the community and voluntary sector which has included workshops and a consultation exercise to inform the final document.
4.6.3	Commence the review of the Charter between the council and Town and Community Councils (to be completed by September 2024)	Strategic Manager - Policy & Executive Support	At the meeting of the Town & Community Council Liaison Forum on 4 th December 2023 it was agreed for volunteers to join a working group to tease out common areas of interest for the Forum to focus on going forward. Two representatives came forward to take part in a discussion on 29 th January 2024. The output of that discussion was to be presented to the meeting of the Forum on 27 th February but was unfortunately cancelled. For the 2024/2025 Civic year, two meetings of the Liaison Forum have been scheduled.

Financial Management Code of Self-Assessment

CIPFA issued a new code, The FREM, which sets out the standards of financial management for local authorities. Adoption of the Code commenced in April 2021. This appendix provides a self-assessment which has been approved by Corporate Directors Group and provides assurance that the financial management of the council are being met.

Section 1: The Responsibilities of the Director of Finance and the Leadership Team

Standard Reference	Financial Management	Rating (Red / Amber / Green)
Tudalen258 A	The Leadership Team is able to demonstrate that the services provided by the authority provide value for money.	The Auditor General examines whether the council has put in place arrangements to get value for money for the resources it uses, and has to be satisfied that it has done this. The 2023 Annual Audit Summary issued by Audit Wales identified no issues in relation to value for money. RAG Rating = Green
B	The authority complies with the CIPFA Statement on the Role of the Director of Finance in Local Government.	We comply with the requirements of the code. The Director of Finance is a CIPFA qualified accountant with over 20 years of local government experience. Reports directly to Director of Finance and sits on the Leadership Team, influencing material decisions and ensuring financial implications are provided in all reports. The Director of Finance is responsible for maintaining and resourcing an effective Internal Audit service and leads on risk management. RAG Rating = Green

Section 2: Governance and Financial Management Style

Standard Reference	Financial Management	Rating (Red / Amber / Green)
C	The leadership team demonstrates in its actions and behaviours responsibility for governance and internal control.	<p>The council adopts the Nolan principles as can be evidenced in the Annual Governance Statement (AGS). The AGS was signed off by Audit Wales as part of the accounts audit process.</p> <p>RAG Rating = Green</p>
D	The authority applies CIPFA/ SOLACE Delivering Good Governance in Local Government: Framework 2016.	<p>The Governance & Audit committee reviews the adequacy of Governance arrangements of the authority, reviewing the AGS and receiving risk management updates.</p> <p>RAG Rating = Green</p>
E	The financial management style of the authority supports financial sustainability.	<p>Audit Wales Annual Audit Summary for 2023 concluded that the council is financially stable, helped recently by additional Welsh Government funding, but needs to develop a sustainable plan to address cost pressures and close its medium-term funding gap in an increasingly challenging financial climate.</p> <p>RAG Rating = Amber</p>

Tudalen 259

Section 3: Long to Medium-Term Financial Management

Standard Reference	Financial Management	Rating (Red / Amber / Green)
F	The authority has carried out a credible and transparent financial resilience assessment.	<p>The budget setting for 2023/2024 includes a statement relating to the robustness of the estimates used in calculating the budget requirement and indicates the budget process has been prepared in conjunction with officers. It also identifies the risk areas that will be actively managed during the financial year.</p> <p>RAG Rating = Green</p>
G	The authority understands its prospects for financial sustainability in the longer term and has reported this clearly to members	<p>The council has developed a Medium Term Financial Plan (MTFP) to 2027/28 and are in the process of finalising the 2028/2029 MTFP.</p> <p>RAG Rating = Green</p>
H	The authority complies with the Prudential Code for Capital Finance in Local Authorities	<p>The authority complies will all elements of the Prudential Code.</p> <p>RAG Rating = Green</p>
I	The authority has a rolling multi-year financial plan with sustainable service plans	<p>During 2021/2022 the council developed its medium-term financial plan, work is ongoing in finalising 2028/2029 MTFP. Service recovery plans have been developed and are being monitored and updated annually.</p> <p>RAG Rating = Green</p>

Tudalen260

Section 4: The Annual Budget

Standard Reference	Financial Management	Rating (Red / Amber / Green)
J	The authority complies with its statutory obligations in respect of the budget setting process	<p>The council complies with its statutory obligations in respect of the budget setting process as set out in the Local Government Finance Act (1992). A legal and balanced budget set by the council by the statutory deadline was approved by Council on 2nd March 2023. The council is aware of the circumstances under which a S114 notice should be issue.</p> <p>RAG Rating = Green</p>
K	The budget report includes a statement by the Director of Finance on the robustness of the estimates on the adequacy of the proposed financial reserves.	<p>The budget setting report comments upon the robustness of the estimates included therein and a balanced affordable budget has been set. The reserves are reported within the budget setting process and monitored throughout the financial year. The council agreed a general reserves policy which states reserves should be maintained at circa 4% of the net revenue budget.</p> <p>RAG Rating = Green</p>

Tudalen261

Section 5: Stakeholder Engagement and Business Plans

Standard Reference	Financial Management	Rating (Red / Amber / Green)
L	The authority has engaged with key stakeholders where appropriate in developing its long term financial strategy, medium term financial plan and annual budget.	<p>Key stakeholders are consulted on key projects for example stakeholder views were sought when developing the corporate plan.</p> <p>Member workshops are run at budget setting. Cabinet approved the consultation process with stakeholders on the draft budget. Consultation responses are reported to Council.</p> <p>RAG Rating = Green</p>
M	The authority uses an appropriate documented option appraisal methodology to demonstrate the value for money of its decisions.	<p>An investment proposal template has been created and utilised. More work is needed to refine the processes around agreement and priority of the investment appraisals put forward.</p> <p>RAG Rating = Amber</p>

Tudalen262

Section 6: Monitoring Financial Performance

Standard Reference	Financial Management	Rating (Red / Amber / Green)
N	The leadership team takes action using reports enabling it to identify and correct emerging risks to its budget strategy and financial sustainability.	<p>Monthly reports are considered by budget holders and reported to the Corporate Directors Group. Quarterly Finance revenue and capital reports are presented to Cabinet.</p> <p>Treasury management reports are taken to Cabinet on a quarterly basis, any significant issues identified are reported to Senior Management Team</p> <p>RAG Rating = Green</p>
O	The leadership team monitors the elements of its balance sheet that pose a significant to its financial sustainability.	<p>The balance sheet is monitored by the relevant service department accountants as part of the budget monitoring process. With the balance sheet being reviewed by the Director of Finance as part of the closure of accounts process.</p> <p>RAG Rating = Green</p>

Report Title - Progress Update – Use of Performance Information: Service User Perspective and Outcomes

Purpose of the Report

The purpose of this report is to provide Governance and Audit Committee with an update on the work undertaken to implement the recommendations made by Audit Wales following their review of the Use of Performance Information: Service User Perspective and Outcomes.

Background

The Well-being of Future Generations (Wales) Act 2015 places a “well-being duty” on 48 public bodies. The duty requires those bodies to set and publish “well-being objectives” that are designed to maximise their contribution to achieving each of the Act’s seven national well-being goals.

Section 15(1) (a) of the above Act requires the Auditor General to carry out examinations to assess the extent to which public bodies have acted in accordance with the sustainable development principle when setting their well-being objectives.

Audit Wales undertook the above examination during July – September 2023 the aim of which was to determine:

'Does the Council's performance data enable senior leaders to understand the service user perspective and the outcomes of its activities to effectively manage its performance?'

The findings of the examination were reported to Governance & Audit Committee on 12th July 2024 along with the Council's response to the following three recommendations:

Information on the perspective of the service user

R1 - The Council should ensure that the information provided to its senior leaders enable them to understand the service user perspective on a broader range of services and policies. The Council should ensure this information is drawn from the diversity of service users.

Outcomes information

R2 - The Council should strengthen the information provided to senior leaders to help them evaluate whether the Council is delivering its objectives and intended outcomes

Quality and accuracy of data

R3 - The Council needs to assure itself that it has robust arrangements to check the quality and accuracy of the information it provides to senior leaders relating to service user perspective and outcomes.

As requested by the Committee at the meeting on 12th July, an update on the progress made in implementing the above recommendations is attached at Appendix 1.

Report of the Audit Manager – Steph Payne

Matter for Information

Wards Affected: All Wards

Internal Audit Update Report 2024/25

1. Purpose of the Report

To inform Members of the Internal Audit activity progress against the approved Internal Audit Plan 2024/25.

2. Executive Summary

The Internal Audit Update Report is the first report in relation to the Internal Audit Plan 2024/25. The report summarises:

- The outcomes of the 2024/25 Internal Audit activity delivered up to September 2024 (**Appendix 1**);
- The progress against the Internal Audit Plan 2024/25 (**Appendix 2**);
- Service Lead responses in relation to Limited Assurance Rating Reports (**Appendices 3 to 5**); and
- Post Audit Reviews completed up to September 2024.

3. Background

Governance and Audit Committee agreed the [Neath Port Talbot County Borough Council Internal Audit Plan 2024/25](#) on 21st March 2024.

In accordance with the [Public Sector Internal Audit Standards \(PSIAS\) 2017](#) and the [Governance and Audit Committee terms of reference](#), this report details the outcomes of Internal Audit work carried out in accordance with the agreed Plan.

4. Internal Audit resourcing

The new Audit Manager has been in post from September 2024, following retirement of the original post holder in May 2024.

The Audit Manager is the lead for the Internal Audit service. From September 2024 onwards, the Council does not have a separate Head of Internal Audit role.

Two members of the team are currently on long term sick leave.

As at September 2024, approximately 62 days have been lost in 2024/25 due to team sickness. Audit Manager turnover has also had an impact. Both are being managed through Plan allocations and reduction of the available contingency budget.

5. Audit Work Undertaken

As at 25th September 2024, a total of 20 audit reports have been issued in line with normal reporting processes:

- Six Schools;
- Four National Fraud Initiative (NFI) activities;
- Two Mandatory Training Spot Check activities;
- Ethics – Members;
- Agency Costs – Waste Services;
- Fundamental Financial System Control Risk Self-Assessments 2023/24;
- Schools Data Protection;
- Glamorgan Further Education Trust Fund Independent Examination;
- Live Kilometre Support Grant Claim 2023/24;
- Procurement Cards Non-Compliance; and
- Officers Declarations.

In addition to the above, the following work has also been undertaken:

- The Senior Auditor has attended the iTrent System (Payroll and HR) Project Board meetings;

- The Senior Auditor has attended the Mosaic System (Social Services) Project Board meetings;
- Six investigations have been progressed or concluded;
- The Internal Audit team have continued to provide advice to staff from across the Council; and
- 10 Post Audit Reviews have been completed (report section 6) confirming the implementation and progression of audit recommendations.

6. Post Audit Reviews Undertaken and Recommendations Tracking

Audit Report Title	Recommendations Made	Post Audit Review Outcome
Court Deputy Service	12	Six recommendations have been implemented. Six recommendations are in progress and are due to be actioned by 2024/25 year-end. A second Post Audit Review will be completed in April 2025.
Creditors	6	Three recommendations have been implemented. Three are in progress - these relate to update of Accounting Instructions and creation of a new Financial Information System (FIS) report. The three in progress areas will be reviewed as part of the 2024/25 Creditors internal audit activity.
Crymlyn Burrows Transfer Station	2	Both recommendations (mandatory training relevant) are in progress. The service is now 100% compliant for manual handling training and are gradually improving their overall mandatory training completion rates.
Crymlyn Primary School	1	The recommendation has been implemented.

Audit Report Title	Recommendations Made	Post Audit Review Outcome
Disabled Facilities Grant	3	All recommendations have been implemented.
Gnoll Primary School	2	One recommendation has been implemented. One is in progress - this relates to school meal debtors, which the school are actively pursuing.
Mandatory Training – Engineering Services	8	Positive progress has been made. The overall mandatory training completion rate has improved from 33.1% (original audit) to 73.4% (post audit review). Staff sick leave and other medium term leave types will impact the service’s ability to achieve 100%.
Mandatory Training – Strategy and Corporate Services Directorate	8	Positive progress has been made. The overall mandatory training completion rate has improved from 35.8% (original audit) to 73.8% (post audit review). Staff sick leave and other medium term leave types will impact the service’s ability to achieve 100%.
South Wales Trunk Road Agency (SWTRA) Payment Processes	3	All recommendations have been implemented.
St. Joseph’s Catholic Primary School	2	All recommendations have been implemented.

7. Integrated Impact Assessment

There is no requirement to undertake an Integrated Impact Assessment as this report is for information and monitoring purposes only.

8. Valley Communities Impact

No implications.

9. Workforce Impacts

No implications.

10. Legal Impacts

Monitoring the implementation of Internal Audit recommendations assists the Council in managing identified risk areas and thereby reduces the prospects of legal challenge.

11. Risk Management Impacts

The work of Internal Audit provides independent assurance on the adequacy and effectiveness of the Council's control environment (comprising of risk management, control systems and governance arrangements).

Failure to deliver effective governance would negatively impact on the achievement of the Council's objectives and priorities.

12. Consultation

There is no requirement for external consultation on this item.

13. Recommendations

That Members note the content of the report and appendices.

14. Reason for Proposed Decisions

This is a matter for information therefore no decision is required.

Completion of the Internal Audit Update Reports ensures compliance with the PSIAS, the [Council Constitution](#) and the Governance and Audit Committee Terms of Reference.

Appendix 3 – Response from the Director of Social Services, Health and Housing and the Principal Officer – Business and Performance Management relating to Report No.7

To: Governance and Audit Committee

From: The Director of Social Services, Health and Housing and the Principal Officer – Business and Performance Management

Subject: Internal Audit Report No 7 – Mandatory Training Business Support for Children’s Services Case Management Teams

All recommendations made within the Internal Audit report have been agreed and accepted.

The agreed expectation was for all available staff to complete relevant mandatory training courses by 30th September 2024. This action has been co-ordinated and monitored by the Principal Officer – Business and Performance Management.

As at 4th October 2024, of those staff available to work (excluding individuals on sick leave and other medium/long term leave types) the service can report a mandatory training course completion rate of 100%.

Service Business Managers have also implemented a robust reminder and monitoring process to ensure future mandatory training renewals are completed on time and within requirements.

To: Governance and Audit Committee

From: Director of Finance

Subject: Internal Audit Report No 19 – Procurement Cards Non-Compliance

All of the recommendations in the report have been accepted and agreed.

As this non-compliance issue was reported in the previous years audit and hasn't been resolved, it was escalated to Corporate Directors Group on 2nd October for discussion by the Chief Executive.

It was agreed that the list on non-compliance would be shared with the group for them to discuss and action within their own management teams. We will review the position again in three months to see if there is an improvement before we look at suspending cards.

NEATH PORT TALBOT COUNTY BOROUGH COUNCIL

GOVERNANCE & AUDIT COMMITTEE

22nd OCTOBER 2024

Report of the Director of Strategy & Corporate Services

Noelwyn Daniel

Matter for Information

Wards Affected – All wards

Register of Regulators Reports & Recommendations.

Purpose of the Report

To provide the Governance & Audit Committee with an updated Register of Regulators Reports and Recommendations.

Background

This report presents a summary of the reports issued by external review bodies since July 2024 and an updated Register of Regulators Reports (Appendix 1).

National Reports

1. Council's use of performance information: service user perspective

The all Wales review undertaken by Audit Wales looked at whether the performance information provided to senior leaders helps them to understand the perspective of service users and the outcomes of the Council's activities so that they can manage their performance effectively. By senior leaders, we mean senior officers and senior members. This review was undertaken across at all 22 councils.

This report provides an overview of the work, findings and implications for councils and Welsh Government.

The local report for Neath Port Talbot and recommendations were presented to Governance and Audit Committee on 12th July 2024 along with the council's response.

2. Digital by design? Lessons from our digital strategy review across councils in Wales

Audit Wales undertook a digital strategy review during 2022/2023 which looked at council's strategic approaches to digital, undertaking individual reviews at each of the 22 councils across Wales. The focus was on the extent to which digital strategies had been developed in accordance with the sustainable development principle; and would help to secure value for money in the use of councils' resources.

This report provides an overview of the work and what councils can do improve. Neath Port Talbot Council has been referenced within the report as an example of good practice in relation to the council's integrated digital strategy, investment made in digital capacity and capability and understanding of the current digital position.

The local report for Neath Port Talbot and the recommendation was presented to Governance and Audit Committee in October 2023.

3. Affordable Housing

The report considers spending and performance against Welsh Government's social homes target and the underpinning governance and management arrangements.

The Welsh Government has set a target of building 20,000 new low carbon social homes by March 2026. The target builds on a previous commitment to deliver 20,000 affordable homes in the previous Senedd term. The Welsh Government exceeded that target, but a different definition makes the current target more challenging.

There are 7 recommendations contained within the report for Welsh Government. This report has been circulated to officers responsible for housing.

4. Active Travel

The report focuses on national level arrangements led and/or managed by on the Welsh Government's and Transport to Wales' approach to Active Travel. Audit Wales has not examined interventions by individual local authorities, although they recognise their important front-line role and reflect certain evidence about issues at a local level.

Consideration has been taken to understand whether the Welsh Government is well placed to lead a step change in active travel rates, as part of its wider approach to modal shift. Findings demonstrated that despite increased spending through its Active Travel Fund and a new, wide-ranging, delivery plan, the Welsh Government remains a long way from achieving the step change in active travel intended through the Act.

There are 7 recommendations contained within the report for Welsh Government. This report has been circulated to both Director of Social Services, Health and Housing and Head of Housing and Communities,

Local Reports

1. Neath Port Talbot Council – Financial Sustainability

During the early part of this financial year Audit Wales reviewed the council's strategic approach to support its financial sustainability, our understanding of the current financial position, and arrangements for reporting and oversight of financial sustainability. Audit Wales note that this audit was limited to a consideration of the arrangements that the council has put in place to support its financial sustainability, and was not a review of the council's wider financial management, or of the individual financial decisions that the council has made or intends to make.

Overall, Audit Wales found that the council has arrangements in place to support its financial sustainability in the short term but lacks a documented longer-term financial strategy to support more transformative change and inform Members' future spending decisions.

As the council does not have a financial strategy to support its financial sustainability over the longer-term the following recommendation was made:

R1 - The council should develop and publish a clear and robust financial strategy showing how it intends to close the identified budget gap over the medium and longer-term. This would help support Members' and other stakeholders understanding in relation to the decisions that will be required to ensure the future financial sustainability of the council.

Financial Impact

There are no financial impacts in respect of this item.

Integrated Impact Assessment

There is no requirement for an integrated impact assessment in respect of this item.

Valleys Communities Impacts

There are no impacts in respect of this item.

Workforce impacts

There are no workforce impacts in respect of this item.

Legal Impacts

There are no legal impacts in respect of this item.

Risk Management

There are no risk management issues in respect of this item.

Consultation

There is no requirement under the Constitution for external consultation on this item.

Recommendation

It is recommended that:

- The Governance & Audit Committee note the reports issued by the Council's external review bodies since July 2024 and the updated Register of Regulators Reports and Recommendations.

Sustainable development? – making best use of brownfield land and empty buildings	<p>R1 To enable stakeholders to assess potential sites councils should create a systematic process to find and publicise suitable sites for regeneration:</p> <ul style="list-style-type: none"> • this should draw on data already held by councils, as well as external data sources to develop a composite and more complete picture of sites; and • where known, key barriers should be named to help efforts to overcome them <p>R2 To help ensure that regeneration activity and the shaping of the environment is informed by the needs of communities Councils should increase opportunities for community-based involvement in regeneration, both in plan-making and actual development.</p> <p>R3 To provide focus and impetus to developing brownfield sites Councils should review their current regeneration approaches and where appropriate set clearer, more ambitious regeneration policies and targets. Together these should:</p> <ul style="list-style-type: none"> • set out the approach and expectations of the council; • set out how their approach will be resourced; and • set out how the approach aligns with national policy goals and regional planning priorities. <p>R4 To help enable stakeholders to assess potential sites the Welsh Government should:</p> <ul style="list-style-type: none"> • work with councils to ensure that listings of identified sites for regeneration are reported by council area; and • produce a national listing informed by the local listings and through working in conjunction with other public sector bodies. 	R5 To help inform scrutiny of performance both locally and nationally the Welsh Government should create a national framework for monitoring and assessing levels of brownfield sites being developed compared to levels of sites available and levels of greenfield development									
Neath Port Talbot Council - Springing Forward - Strategic Management of Assets	R1 Strategic asset management vision and strategy • In developing its new Corporate Asset Management Strategy, the Council should put the Sustainable Development Principle at the heart of its considerations. In particular setting out its long-term vision and the outcomes it wants to achieve over the short, medium and longer term.	Nicola Pearce	3 Recommendations	Dec-23	26.01.2024	Local	TBC	TBC	21.03.2024	TBA
	R2 Strategic asset management planning and delivery • Once the Council has agreed its new Corporate Asset Management Strategy it should develop the supporting arrangements to ensure that it has sufficient corporate oversight and a consistent approach to the delivery of its asset objectives across the organisation.									
	R3 Strategic asset management governance and monitoring • To ensure that the Council is able to understand the progress its asset management strategy and arrangements are making and how those are helping to deliver and achieve its Well-being Objectives, it will need to assure itself that its current governance arrangements are sufficient to effectively monitor its progress. • To ensure that it can better understand the progress it is making around its assets, and to determine if it is delivering value for money, the Council needs to: – develop and communicate regular progress monitoring reports; – develop a broader set of asset related measures; and – look for opportunities to benchmark itself against other organisations									
Neath Port Talbot Council - Springing Forward - Strategic Workforce Management (2021-2022)	R1 Workforce planning and delivery: • To ensure there are progression pathways for staff and there is resilience around its business-critical roles, the Council should ensure all services have succession plans and have identified their business-critical roles.	Noelwyn Daniel	2 recommendation	Dec-23	26.01.2024	Local	Cabinet	14.02.2024	21.03.2024	TBA
	R2 Workforce governance and monitoring: • To have a better understanding of the impact of its workforce strategy the Council should develop measures that focus on outcomes and impacts in addition to inputs. • The Council should build on its benchmarking with the Chartered Institute of Personnel and Development and consider where there may be opportunities to benchmark its measures and metrics with its peers to ensure it can identify areas of good practice and potential areas for improvement. • To enable the Council to have a clearer understanding of the progress it is making towards meeting its workforce ambitions the Council should assure itself that the Organisational Delivery Board is providing effective oversight and driving integration across related programmes of work.									
Neath Port Talbot Council - Review of Scrutiny	R1 Current model and role of scrutiny: The Council should review its current model for scrutiny to ensure scrutiny can fulfil its broader range of roles and responsibilities. Any revised model should ensure there are opportunities for scrutiny to engage in its wider roles, including for example, in relation to: Policy development – Performance monitoring – Holding cabinet members to account throughout the decision-making process – Following up outcomes of previous recommendations or decisions Public engagement	Noelwyn Daniel	5 recommendations	Nov-23	26.01.2024	Local	Council	20.03.2024	TBC	TBA
	R2 Public Engagement - The Council's scrutiny model should be more citizen focused by strengthening its arrangements for public involvement and engagement in scrutiny. This should include ensuring greater transparency and timeliness about which items will be on the scrutiny committee agendas; and using existing engagement and consultation work to inform its scrutiny work including consideration of scrutiny topics, as part of its scrutiny reviews, in holding cabinet members and decisions to account, and in its performance monitoring roles.									
	R3 Planning and work programme - To enable the scrutiny model to be more citizen focused, the Council should review its arrangements for the way in which scrutiny is planned to ensure scrutiny can independently plan and strategically prioritise its own work programme.									

	R4 Support - The Council should review the type of scrutiny support it requires across all areas of the organisation including service areas, to enable scrutiny to perform its wider role and ensure that any resourcing implications arising from any changes to the scrutiny model are understood and planned for. R5 Evaluation - The Council should strengthen its arrangements for assessing the effectiveness and impact of scrutiny.

Cracks in the Foundations' - Building Safety in Wales	R1 The Welsh Government should provide greater clarity on the implementation and expectations of the Building Safety Act to ensure local authorities are able to deliver their new responsibilities and duties. This should include: • clarifying the detailed requirements for competency and registration to enable local authorities to plan for these changes; • a specific timetable for development and adoption of Welsh guidance to ensure local authorities and others can deliver their duties; and • the Welsh Government should work with key stakeholders, such as LABC Cymru, to support understanding and implementation when guidance is issued. R2 The Welsh Government should ensure that it has sufficient resources to deliver the legislative and policy changes for Building Safety to reduce implementation risks. Recommendations page 12 'Cracks in the Foundations' – Building Safety in Wales Recommendations R3 The Welsh Government should review the mixed market approach to building control and conclude whether it continues to be appropriate and effective in keeping buildings in Wales safe. This should: • assess the status quo against potential changes, such as the model of delivery in Scotland; • be framed around a SWOT analysis of costs, benefits, threats, and risks; • draw on existing research to identify good practice; and • be published and agree a way forward. R4 The Welsh Government should increase its oversight and management of the building control sector to ensure there is a robust assurance system in place for building control and safety by: • creating a national performance framework with clear service standards to promote consistency of service. This should also include outcome measures to monitor performance and an evaluation and reporting framework for scrutiny. • developing a national building safety workforce plan to address the most significant risks facing the sector. This should include regular data collection and publication, as well as coverage of priorities, such as: - a greater focus on trainees to mitigate succession risks; - establishing aligned, national job roles matched to competency levels; - increasing the diversity of the sector to ensure it reflects modern Wales; and - specific funding to enable surveyors to obtain and maintain competence should also be considered. • the Welsh Government should explore with the further education sector how best to provide building control training in Wales to support succession planning, skills development, and competency. page 13 'Cracks in the Foundations' – Building Safety in Wales Recommendations		4 recommendations for local authorities / 4 recommendations for Welsh Government	Aug-23	12.10.2023	National		12.10.2023		

	<p>R5 Local authorities should develop local action plans that articulate a clear vision for building control to be able to plan effectively to implement the requirements of the Act. The Plans should: • be based on an assessment of local risks and include mitigation actions; • set out how building control services will be resourced to deliver all their statutory responsibilities; • illustrate the key role of building control in ensuring safe buildings and be linked to well-being objectives and other corporate objectives; and • include outcome measures that are focused on all building control services, not just dangerous structures.</p> <p>R6 Local authorities should urgently review their financial management of building control and ensure they are fully complying with Regulations. This should include: • establishing a timetable of regular fee reviews to ensure charges reflect the cost of services and comply with the Regulations; • annually reporting and publishing financial performance in line with the Regulations; • ensuring relevant staff are provided with training to ensure they apply the Regulations and interpret financial reporting correctly; and • revise fees to ensure services are charged for in accordance with the Regulations.</p> <p>R7 Local authorities should work with partners to make better use of limited resources by exploring the potential for collaboration and regionalisation to strengthen resilience through a cost benefit analysis of partnering with neighbouring authorities, establishing joint ventures and/or adopting a regional model where beneficial. page 14 'Cracks in the Foundations' – Building Safety in Wales Recommendations R8 Local authorities should review risk management processes to ensure that risks are systematically identified, recorded, assessed, mitigated and subject to regular evaluation and scrutiny</p> <p>R8 Local authorities should review risk management processes to ensure that risks are systematically identified, recorded, assessed, mitigated and subject to regular evaluation and scrutiny.</p>

Together we can' - Community Resilience and Self-Reliance	<p>R1 To strengthen community resilience and support people to be more self-reliant, local authorities need to ensure they have the right arrangements and systems in place. We recommend that local authorities use the evaluation tool in Appendix 2 to: • self-evaluate current engagement, management, performance and practice; • identify where improvement is needed; and • draft and implement an action plan with timeframes and responsibilities clearly set out to address the gaps and weaknesses identified in completing the evaluation tool.</p> <p>R2 To help local authorities address the gaps they identify following their self-evaluation, we recommend that they: • formally approve the completed Action Plan arising from the evaluation exercise; • regularly report, monitor and evaluate performance at relevant scrutiny committees; and • revise actions and targets in light of the authority's evaluation and assessment of its performance</p>	TBD	2 recommendations for local government	Jan-23	17.03.2023	National	Cabinet	TBD	16.06.2023	16.06.2023
A Missed Opportunity' – Social Enterprises	<p>R1 To get the best from their work with and funding of Social Enterprises, local authorities need to ensure they have the right arrangements and systems in place. We recommend that local authority officers use the checklist in Appendix 2 to: • self-evaluate current Social Enterprise engagement, management, performance and practice; • identify opportunities to improve joint working; and • jointly draft and implement an action plan with timeframes and responsibilities clearly set out to address the gaps and weaknesses identified through the self-evaluation</p> <p>R2 To drive improvement we recommend that the local authority: • formally approve the completed Action Plan; • regularly report, monitor and evaluate performance at relevant scrutiny committees; and • revise actions and targets in light of the authority's evaluation and assessment of its performance</p>	TBD	3 recommendations for local government	Dec-22	12.01.2023	National	N/A	TBD	16.06.2023	17.03.2023

	R8 In Paragraphs 3.27 to 3.32 we set out that while all councils undertake some form of assessment to determine the likely socio-economic impact of policy choices and decisions, approaches vary and are not always effective. We recommend that councils review their integrated impact assessments or equivalent to: <ul style="list-style-type: none"> • ensure that they draw on relevant, comprehensive and current data (nothing over 12 months old) to support analysis; • ensure integrated impact assessments capture information on: <ul style="list-style-type: none"> - involvement activity setting out those the service has engaged with in determining its strategic policy such as partners, service users and those it is co-producing with; - the cumulative impact/mitigation to ensure the assessment considers issues in the round and how it links across services provided across the council; - how the council will monitor and evaluate impact and will take corrective action; and - an action plan setting out the activities the Council will take as a result of the Integrated Impact Assessment 									
Assurance and Risk Assessment Progress – Carbon Reduction	In order to meet its net zero ambition the Council needs to fully cost its action plan and ensure that it is aligned with its Medium Term Financial Plan. National Fraud Initiative 2020-2021	All participants in the NFI exercise should ensure that they maximise the benefits of their participation. They should consider whether it is possible to work more efficiently on the NFI matches by reviewing the guidance section Audit committees, or equivalent, and officers leading the NFI should review the NFI self-appraisal checklist. This will ensure they are fully informed of their organisation's planning and progress in the 2022-23 NFI exercise. Where local auditors recommend improving the timeliness and rigour with which NFI matches are reviewed, NFI participants should take appropriate action	N/A	3 recommendations for local government	Oct-22	12.01.2023	National	N/A	N/A	N/A	17.03.2023
Equality Impact Assessments: More than a Tick Box Exercise	R4 While there are examples of good practice related to distinct stages of the EIA process, all public bodies have lessons to learn about their overall approach. Public bodies should review their overall approach to EIAs considering the findings of this report and the detailed guidance available from the EHRC and the Practice Hub. We recognise that developments in response to our other recommendations and the Welsh Government's review of the PSED Wales specific regulations may have implications for current guidance in due course	N/A	1 recommendations for local government	Sep-22	12.01.2023	National	Cabinet	N/A	17.03.2023	17.03.2023

Direct Payments for Adult Social Care	R1 Review public information in discussion with service users and carers to ensure it is clear, concise and fully explains what they need to know about Direct Payments. R2 Undertake additional promotional work to encourage take up of Direct Payments. R3 Ensure advocacy services are considered at the first point of contact to provide independent advice on Direct Payments to service users and carers. R4 Ensure information about Direct Payments is available at the front door to social care and are included in the initial discussion on the available care options for service users and carers. R5 Provide training to social workers on Direct Payments to ensure they fully understand their potential and feel confident promoting it to service users and carers. R6 Work together to develop a joint Recruitment and Retention Plan for Personal Assistants. R7 Clarify policy expectations in plain accessible language and set out: <ul style="list-style-type: none"> • what Direct Payments can pay for; • how application and assessment processes, timescales and review processes work; • how monitoring individual payments and the paperwork required to verify payments will work; • how unused monies are to be treated and whether they can be banked; and • how to administer and manage pooled budgets. Public information should be reviewed regularly (at least every two years) to ensure they are working effectively and remain relevant.
