R.W.Wood, J.Hale a/ac C.Galsworthy

Nodiadau:

- (1) Os yw aelodau'r pwyllgor neu'r rhai nad ydynt yn aelodau'r pwyllgor am gynnig eitemau perthnasol i'w cynnwys ar yr agenda cyn cyfarfodydd y dyfodol, rhaid iddynt roi gwybod i'r Prif Weithredwr/Cadeirydd 8 niwrnod cyn y cyfarfod.
- (2) Os yw'r rhai nad ydynt yn aelodau'r pwyllgor am fod yn bresennol ar gyfer eitem o ddiddordeb, mae'n rhaid rhoi rhybudd ymlaen llaw (erbyn 12 hanner dydd ar y diwrnod cyn y cyfarfod). Gall y rhai nad ydynt yn aelodau'r pwyllgor siarad ond nid oes ganddynt hawl i bleidleisio, cynnig nac eilio unrhyw gynnig.
- (3) Fel arfer, ar gyfer trefniadau cyn craffu, bydd y Cadeirydd yn argymell eitemau gweithredol sydd ar ddod i'w trafod/herio. Mae hefyd yn agored i aelodau'r pwyllgor ofyn i eitemau gael eu trafod er y gofynnir i'r aelodau ddewis a dethol yma o ran materion pwysig.
- (4) Gwahoddir aelodau perthnasol Bwrdd y Cabinet hefyd i fod yn bresennol yn y cyfarfod at ddibenion Craffu/Ymgynghori.
- (5) Gofynnir i aelodau'r Pwyllgor Craffu ddod â'u papurau ar gyfer Bwrdd y Cabinet i'r cyfarfod.

NEATH PORT TALBOT COUNTY BOROUGH COUNCIL

Streetscene & Engineering Scrutiny Committee 10th December 2018

Report of the Director of Environment

Matter for Information

Wards Affected: All Wards

CONSULTATION ON ENVIRONMENT DIRECTORATE'S BUDGET AND DRAFT SAVINGS FOR 2019/20

Purpose of Report

To provide Members of the Streetscene and Engineering Scrutiny Committee with supplementary information concerning the savings proposals for the Environment Directorate budget, set out in the Cabinet report of 31st October 2018, with a view to aiding the scrutiny of these proposals.

Executive Summary

The Environment Directorate has made considerable savings over the last few years and has reduced large numbers of staff, particularly front line staff who deliver a broad range of public facing services which the Directorate delivers across the County Borough on a daily basis.

The Directorate budget is currently £32.7m and is currently 11.5% of the total Authority's net budget. Since 2009/10, the Directorate has contributed over £18m towards the Authority's saving target and this total will increase to circa £20m allowing for the removal of one-off monies this year and if all the savings proposals currently out to consultation are implemented.

During financial years 2013/14 and 2014/15, over 200 staff left the Directorate under the ER/VR scheme and in excess of 400 staff have left in the last seven years.

Background

On the 9th October 2018 The Welsh Government (WG) published details of the Provisional Local Government Settlement for 2019/20. The settlement shows that the Welsh Government is providing £4.214bn of funding to Local Government. However this is £12m or -0.3% less in comparison with the current year. Neath Port Talbot Council's share at £213.406m is the 4th best settlement in Wales providing an increase of 0.2%.

Neath Port Talbot Council's net revenue budget 2018/19 amounts to £282.855m.

Draft Budget 2019/20

On the 31st October 2018 the Council's Cabinet resolved to commence public consultation on its budget and draft savings proposals for 2019/20. It is projected that financial savings of £12.262m are required to set the balanced budget for the next financial year and more than £64m over the next four financial years.

This report sets out for Members scrutiny further details on the savings proposals required for the Environment Directorate's budget.

Draft savings for consultation

Attached at Appendix 1 is a schedule of proposals which are out to public consultation for the Environment Directorate and affect this Cabinet Board. Please find below specific information from each Head of Service relating to the draft savings proposal for 2019/20.

Savings Proposals 19/20

ENVT901 (£30k) – Parking Tariff Increase

This proposal is to increase the tariffs by 30p for parking between three and four hours (£3.00 up to £3.30) and all day parking (£3.50 to £3.80) when parking in the Town Centre Car Parks. All other tariff bands will remain the same.

The proposed car parking tariff schedule is set out at Appendix 2 for member information.

ENVT902 (£10k) – Increased income from Neath Inspired through car park usage.

The Council are currently in dialogue with Neath Inspired to encourage increased footfall in Neath Town Centre through various parking initiatives that are supported by the Business Improvement District (BID) with a view to further exploring opportunities to increase income and reduce subsidies.

ENVT903 (£64k) - Engineering & Transport Cost Saving

This saving is specifically linked with the Council's current Voluntary Redundancy strategy and will be subject to the availability of bumped redundancies with a view to protecting employees whose jobs may be at risk in other parts of the Council's workforce.

ENVT904 (£10k) – Highways Development Control

The Highway Development Control section has identified that additional income will be generated from applications for new developments and water course consents across the County Borough.

ENVT905 (£4k) - Car Parking Permits

This relates to increased income generation from the sale of car parking permits to the police and schools in Neath Town Centre.

ENVT906 (£50k) - Staff & Member Parking Charges

This proposal is to increase the monthly contribution by Staff and Members in the scheme based at The Quays, Neath and Port Talbot Civic Centres by £3 per month for staff working more than 23 hours and £1.50 for other part time staff.

ENVT907 (£9k) - Road Safety & Business Performance

There are two crossing patrol sites that are no longer required, one as a result of the installation of a pelican crossing and one other crossing patrol where the safe route to school has changed following the

Council's strategic schools improvement building programme and no longer meets criteria. Consequently there will be a small saving in the supplies budget in this service area.

ENVT918 (50k) - Pest Control.

It is proposed to Increase fee levels to cover costs. Appendix 3 provides detailed proposals with respect to revised charges.

ENVT919 (£50k) - Cemeteries

It is proposed to move closer to full cost recovery by increasing a number of cemetery services. Appendix 4 provides detailed proposals with respect to revised charges.

ENVT920 (£50k) - Bowling Greens/sports fields

It is proposed to cease to provide any maintenance services in relation to bowling greens. There are just five clubs/organisations purchasing this service and the income from these clubs does not cover the costs of providing this specialised service. One employee has asked to be considered for Voluntary Redundancy whilst otherwise employees associated with this service will be offered alternative employment within Streetcare. Clubs will need to buy the service from other private sector providers.

Ensure cost recovery of charges for work on sports fields – increase charges.

The chargeable service is available to clubs and community councils but is currently being subsidies by the Council. There are seven agreements in place with various organisations with ad-hoc work provided to others. Work is currently underway to identify the actual under recovery of costs for the season, it is estimated that costs will need to increase by 42% to break even. Should clubs decide to purchase this service from other providers then the employees associated with the work will be offered alternative employment in Streetcare.

ENVT921 (£10k) – Greater cost recovery on Schools grounds maintenance – income charges

This chargeable service is available to all schools within the County Borough. Currently all 6 secondary schools and 41 out of the 57 primary and junior schools etc. use the service. Whilst work is currently underway to identify the actual costs for this season, it is estimated and proposed that charges to schools are increased by circa 20% to move towards a break even position. Should schools decide to purchase services elsewhere this could lead to up to four redundancies if attempts to find alternative employment via 'bumped' Voluntary Redundancies or general staff turnover is not successful. The risk however of compulsory redundancies is considered unlikely.

ENVT924 (£11k) – Savings arising from the cessation of the Print Commissioning function

Following a corporate decision to cease the print commissioning function, the Directorate will now procure printing services directly from the supplier and will save its contribution towards the overheads of the print commissioning function.

Crime and Disorder Impact

The Council has a legal duty under Section 17 of the Crime and Disorder Act 1998 to carry out all its various functions with "due regard to the need to prevent Crime and Disorder in its area"

Individual proposals are being assessed as to their impact on crime and disorder and should any specific impact be identified these will be identified against individual proposals and summarised in final proposals.

Integrated Impact Assessment

Integrated Impact Assessments for the 2019/20 budget are being developed in two stages: stage one involves making an initial assessment of the impact of the budget proposals on a range of statutory duties that the Council is required to meet. Those duties include: the Equality Act 2010; the Welsh Language Standards; the Well-being of Future Generations (Wales) Act 2015; duties in respect of bio-diversity and a range of other factors.

The Equality Act 2010 requires public bodies to "pay due regard to the need to:

- eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under the Act;
- advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it; and
- foster good relations between persons who share a relevant protected characteristics and persons who do not share it."

The Well-being of Future Generations Act 2015 ("the 2015 Act") requires the Council to think about the long-term impact of their decisions, to work better with people, communities and each other and to prevent persistent problems such as poverty, health inequalities and climate change. The 2015 Act imposes a duty on all public bodies in Wales to carry out "sustainable development", defined as being, "The process of improving the economic, social, environmental and cultural wellbeing of Wales by taking action, in accordance with the sustainable development principle, aimed at achieving the wellbeing goals." The action that a public body takes in carrying out sustainable development includes setting and publishing wellbeing objectives, and taking all reasonable steps in exercising its functions to meet those objectives.

The 31st October report identified the need for the Council to make budget savings of £12.2m for 2019/20 and as such many of these will have a negative impact on services provided across the whole of the county borough.

The first stage assessment forms are given as background papers to this report.

Workforce Impact

The workforce will be impacted by any reductions in budget available to run services. The Council has shared this report and information with trade unions and will hold staff briefings where required over the next few months. The Council wishes to minimise compulsory redundancies and has launched its early retirement/voluntary redundancy scheme on the 16th October 2018. Staff leaving under this scheme would assist in delivering some financial savings.

Consultation

The report to Cabinet of 31st October 2018 sets out the proposed response to the draft Local Government Settlement for 2019/20. Public, Trade Union and staff consultation on the proposals set out in this report are taking place up to the 11th January 2019.

Recommendations

10 It is recommended that Members review and scrutinise the savings proposals included in this report.

Integration - how the budget proposal impacts upon our wellbeing objectives	×		Council services are being prioritised in line with the Council's Well-being objectives. Reducing subsidies to non-statutory services which are also available from other service providers is part of the strategy to preserve present services which would otherwise need to be cut to address the budget gap.
Involvement - how people have been involved in developing the budget proposal	×		Public consultation is currently taking place as part of developing the Council's Forward Financial Plan as a whole.

Moving to a financially break-even position will make service sustainable going forward.	*	Prevention - how the budget proposal will prevent problems occurring or getting worse	
The subsidy of non statutory services by the Council is becoming unsustainable. No opportunities to reduce costs by working with others have been identified as an alternative to raise charges schools can choose to move in-house services or other providers.	×	Collaboration - how we have worked with other services/organisations to find shared sustainable solutions	

The option is available for the school to bring in alternative providers	Measure is to make service cost neutral	Exercise is not a reduction in service.	Reasons for this conclusion	A full impact assessment (second stage) is not required	6. Declaration - based on above assessment (tick as appropriate)	Prevention - how the budget proposal will prevent problems occurring or getting worse	Collaboration - how we have worked with other services/organisations to find shared sustainable solutions
