Introduction

Welcome to Neath Port Talbot Council's Strategic Equality Plan (SEP) 2024-2028.

Local councils touch the lives of people in very many ways, delivering valuable public services to our communities, day in, day out. To do this effectively, we must consider and provide for the wide range of needs and aspirations of everyone living and working in our county borough.

Councils in Wales have a legal duty to develop equality objectives and produce a Strategic Equality Plan. Our plan has been produced to meet this requirement, but more importantly to reflect and deliver on our determination to promote genuine equality of opportunity, tackle discrimination and create a fairer and more equitable Neath Port Talbot.

This, the fourth such plan produced by the council, will build on what we have already achieved and set out our equality objectives for the next four years, together with an action plan for delivering on these.

As one of the largest employers in the county borough, promoting equality starts with our own workforce. We have a genuine commitment to equality of opportunity and aim to ensure our workforce is reflective of the communities we serve, so diversity, equality and inclusion is something we take very seriously in order to provide the best services.

We have called our plan 'Let's be fair' as this is something the council can't do alone. 'Let's be fair' is an invitation to everyone in the county borough to join with us, partners, residents and other stakeholders to work together to make NPT a fairer and more equitable place to live.

The publication of the Plan builds upon the progress we have already made.

We welcome people's views and comments throughout the life of the SEP and will consider them, along with those received through other engagement activities, when reviewing our equality objectives and associated actions.

We are proud to present Neath Port Talbot Council's Strategic Equality Plan for 2024-2028.

Karen Jones
Chief Executive, Neath Port Talbot Council

Councillor Steve Hunt
Leader, Neath Port Talbot Council

Who We Are

Neath Port Talbot is located on the coast between Swansea to the west and Bridgend to the east. Neath Port Talbot also shares boundaries with Carmarthenshire, Powys, Rhondda Cynon Taff and the Brecon Beacons National Park. Covering an area of over 44,217 hectares, the physical characteristics of the county borough are broadly divided into the coastal corridor and the valleys.

According to the Census 2021, Neath Port Talbot has a resident population of 142,300 and has the 11th highest population density of the 22 local authorities across Wales. This includes 30,131 people over the age of 65.

The Welsh Index of Multiple Deprivation (WIMD) 2019 identified that 14% of Lower Super Output Areas (areas with a population of between 1,000 and 3,000) in Neath Port Talbot are in the top 10% of the most deprived areas in Wales. The WIMD is designed to identify those small areas where there are the highest concentrations of several different types of deprivation; income, employment, health, education, access to services, housing, community safety and physical environment.

According to the 2021 Census, black and minority ethnic groups account for 3.4% of the population in Neath Port Talbot, compared to 6.2% in Wales.

Data from our schools indicates that the proportion of pupils from ethnic minority backgrounds (non-white British) is 8.8% compared to the all Wales percentage of 13.6%.

At the 2021 Census, of those people indicating a religion, faith or belief, 42.15% described themselves as Christian, 0.75% Muslim, 0.28% Hindu, 0.26% Buddhist, 0.11% Sikh, 0.02% Jewish and 0.44% indicating 'other religion'. 49.8% of people indicated that they have no religion while 6.12% did not answer the question on the Census.

Neath Port Talbot has one of the largest Gypsy and Traveller Communities in Wales with (according to the NPT Gypsy & Traveller Accommodation Assessment - 2022) a population of 212. There are three authorised gypsy traveller caravan sites in the county borough with 67 pitches.

At the time of the Census 2021, over three quarters (76.4%) of adults living in Neath Port Talbot considered their health was good/very good, which is slightly lower than the Wales average of 79.1%. 8.5% of adults surveyed felt that their health was bad/very bad, which is a little higher than the average across Wales (6.7%), with 15.1% having a fair standard of health (Wales average 14.1%). 24.7% of our residents indicated that their disability limited their day-to-day activities while the provision of unpaid care (ranging from between one and over 50 hours a week) in Neath Port Talbot is 13.95%.

Structure of the Council

Within Neath Port Talbot there are 34 electoral wards returning 60 elected members and we operate a cabinet model of local government with a Leader who is supported by nine cabinet members (the Executive). All executive decisions are taken through the Cabinet. Scrutiny Committees monitor the performance and decisions of the Executive and make reports and recommendations which advise the Executive and the council as a whole on its policies, budget and service delivery.

Each Cabinet Member has responsibility for a broad range of matters. The cabinet member for Finance, Corporate Services and Social Justice is our designated Equality Champion, while the Cabinet Member for Adult Social Services and Health is our designated Older Persons' Champion. Further Cabinet Members have portfolios which are associated with the equalities agenda, for example, children, education and community safety.

The importance we give to equalities is reinforced by the fact that policies and plans relating to equalities and the Welsh language are amongst the limited number that require approval by full Council.

A senior management group, consisting of the Chief Executive and Corporate Directors oversees the strategic management of the council's business. Heads of Service have individual operational responsibility for services, as well as providing strategic support to senior management.

At the time of writing, we are in the process of reviewing and revising our equalities oversight arrangements at a service level to ensure they remain as effective as possible; these revised arrangements will be detailed in the 2024-2025 Annual Report.

The Legislative and Strategic Context

The Equality Act 2010

The Equality Act 2010 brought together and replaced previous anti-discrimination legislation, simplified and strengthened the law, removed inconsistencies and made it easier to understand for everyone. By implementing the Act our aim is to work towards creating a fairer society, improving public services, addressing entrenched inequalities and ultimately improving people's lives.

The council, along with other public bodies, is required under the Act to have due regard to the need to eliminate unlawful discrimination, harassment and victimisation, advance equality of opportunity and foster good relations amongst and between people of different protected groups (known as the Public Sector Equality Duty).

The protected groups, or characteristics, are:

- age
- gender reassignment
- sex
- race
- disability
- pregnancy and maternity
- sexual orientation
- religion and belief
- marriage and civil partnership (but only in respect of the need to eliminate discrimination)

Equality Act 2010 (Statutory Duties) (Wales) Regulations 2011

In Wales, specific duties have been introduced to help us carry out the public sector duty and these include the production of a Strategic Equality Plan (SEP) and the development and publication of equality objectives.

Welsh Language Measure 2011

The Measure gave the Welsh language official status in Wales, established the role of the Welsh Language Commissioner, created a procedure for introducing duties in the form of language standards and made provision regarding promoting and facilitating the use of the Welsh language amongst other provisions. The Welsh Language Commissioner's role is to promote the Welsh language, and improve the opportunities people have to use it, by emphasising the language's official status in Wales, and by placing standards on organisations.

The Legislative and Strategic Context (*cont...*)

Welsh Language Standards (No1) Regulations 2015

These Regulations, imposed on county councils and county borough councils, national park authorities and Welsh Ministers, include a range of standards of conduct in respect of the Welsh language.

The standards were grouped into the following areas:

- service delivery
- policy making
- operational
- promotion
- record keeping

Details on how we have complied with the Welsh language standards are reported on each year in accordance with these Regulations. The latest [Welsh Language Standards Annual Report 2022-2023](#) is published alongside other relevant information on the [Welsh Language pages of our Website](#).

Well-being of Future Generations (Wales) Act 2015

This legislation places duties upon the council to set well-being objectives and to work in a sustainable way to achieve a fairer and more equal Wales. The council has recently revised its Integrated Impact Assessment tool to assist officers in weaving together all of the duties that arise in relation to equality.

Socio Economic Duty

The Welsh Government introduced this duty on 31 March 2021 and we, along with other public bodies, are required to consider the impact of policy decisions on socio economic grounds more formally than had been done previously. In readiness of the introduction of the duty, our Integrated Impact Assessment tool was revised to include a specific section and thus consideration of the socio-economic inequalities in our area. With the continuing and deepening cost of living crisis along with the national and global economic situation, consideration of and addressing socio economic inequalities has never been so vital.

Welsh in Education Strategic Plan - Update

We recognise that language and culture are essential parts of an individual's identity and are therefore committed to promoting and celebrating the Welsh language and culture in a pro-active and inclusive way across all our schools.

Our [Welsh in Education Strategic Plan \(WESP\) 2022-2032](#) is the cornerstone for this vision and details how we plan to support and further develop Welsh language education in schools and in the wider communities and how we plan for future growth.

The Legislative and Strategic Context (*cont...*)

NPT Armed Forces Covenant

We are very aware that veterans of the Armed Forces who, by the very nature of their service involvement, can experience poor mental health and/or physical disabilities. Their experiences not only affect the individual but also impact on family and friends, straining relationships, causing distress, sometimes leading to even more critical situations for all concerned. The strain on family life is not confined to families of veterans but can be experienced by families of those currently serving in the Armed Forces.

As part of our commitment to this work we have signed the UK Government's Armed Forces Covenant and encourage our strategic partners to do so too. Locally, we have signed an Armed Forces Covenant with the Armed Forces community in the county borough and our local strategic partners. Signatories to the Covenant agree to help support the local Armed Forces community and make it easier for service personnel, families and veterans to access the help and support available. In addition, the Armed Forces community is encouraged to do as much as it can to support its community and promote activity that integrates the service community into civilian life.

We have attained a silver award under the Employer Recognition Scheme while two of our schools, Baglan Primary and Ysgol Cwm Brombil, were awarded gold and bronze status respectively in the Armed Forces Friendly Schools Cymru scheme in recognition of the support given to their service children by embedding good practice into the daily running of the school and creating a positive environment.

We offer a guaranteed interview scheme for Armed Forces veterans (who meet the required criteria), which is included within our application process, providing recruiting managers with clear instruction of any applicants who are eligible. We provide guidance on this process as part of our recruitment and selection training for managers. We continue to provide the Career Transition Partnership (the Ministry of Defence's official provider for supporting leavers of the Armed Forces transitioning from the military into civilian life) with a weekly list of current vacancies.

We are mindful of our responsibility for 'due regard' to ensure that the members of the Armed Forces community are not disadvantaged in relation to health, education and housing and have ensured staff attended the Ministry of Defence online sessions in May 2023 which provided further information on this new requirement.

The Legislative and Strategic Context (*cont...*)

Digital Inclusion

Our new Digital Data and Technology (DDaT) Strategy aims to build on the foundations put in place by our previous digital strategy (Smart and Connected 2018 - 2022). It sets out our strategic vision, aims and delivery themes, demonstrating how we will embrace new approaches and emerging technologies to provide our users with the best value, user-centred products and services.

Digital, Data and Technology (DDaT) is fundamental to the successful delivery of council services. We are committed to adopting the best DDaT to transform the services we provide to our residents, businesses, elected members, staff and visitors. However, we remain fully committed to helping our digitally excluded people access the benefits of being online. We understand that there are a wide range of reasons why people may find it hard or impossible to stay connected with family and friends (including skills, affordability, availability of broadband connectivity, personal choice etc.), recognising that this also prevents them from being able to benefit from accessing key services from government channels to online shopping.

We have committed to the Digital Inclusion Charter which aims to help digitally excluded people enjoy the benefits of being online – particularly older people, people with disabilities, unemployed people, social housing tenants, families in poverty and ethnic minority communities.

Assessment of Impact

The Socio-Economic Duty (Equality Act 2010) which came into force on 31 March 2021 requires councils, when taking strategic decisions such as setting priorities, to consider how their decisions might help to reduce the inequalities associated with socio-economic disadvantage.

The consideration of the impacts of socio-economic disadvantage had to a degree been part of our Integrated Impact Assessment (IIA) process from the outset. However, with the introduction of the duty a more considered approach was required and the IIA process was revised to ensure its full consideration alongside our other statutory duties.

During 2021-2022 three audits were undertaken by our internal audit service, an external consultant and Audit Wales. These audits considered the completion of and compliance with legislation surrounding Integrated Impact Assessments, the quality of the assessments undertaken and the way that public bodies undertake Equality Impact Assessments (EIAs) and what impact this has on decision making, respectively.

In spring 2023, in response to the audits' recommendations, an action plan was developed and is being progressed to ensure the assessment process is as robust.

Training on undertaking impact assessments is a key element in the action plan and as such has been incorporated into the corporate training programme as a mandatory course for leaders, managers and principal officers.

Completed Integrated Impact Assessments form part of decision reports and are published on our website as part of the reports pack for Cabinet. The intention of the Integrated Impact Assessment is that Members have a good understanding of how decisions proposed to be taken impact on people who share protected characteristics, or other factors, enabling them to make safe and informed decisions.

Training

Training is an important element of our work, not only in helping us meet our equality objectives but also as a key feature in the personal development of employees and Elected Members. As a result a training programme was developed, informed by an assessment of existing provision and feedback from a staff survey, in spring 2023, to help better promote equality in the workplace. The training programme includes general equalities awareness, as well as more specific training on topics such as unconscious bias; awareness training in relation to specific protected characteristics; health and wellbeing as well as Welsh language awareness and Integrated Impact Assessment training.

In addition to specific training to help better promote equality in the workplace, equality issues are also included as a component in other training, e.g. for complaints officers, performance management and performance appraisal for managers training etc.

Our Equality Objectives

A significant period of time has passed since our last Plan yet the challenges, inequalities and injustices apparent then are no less so now. Our communities continue to face increasing pressures due to the consequences of global conflicts; inequities caused by the impact of the pandemic, inflation and energy prices; more people are seeking help from social services; more people presenting as homeless and more children are needing extra help in school and in travelling to school.

It was against this backdrop that we reviewed our equality objectives and found they remained relevant to our communities in Neath Port Talbot. Changes that were required were in relation to actions to meet these objectives; changes primarily due to the completion of actions; outdated actions/actions of their time; a shift in focus to more relevant actions.

Our equality objectives, therefore, remain as:

- **Education:** To ensure children and young people are the best they can be
- **Health and Wellbeing:** To promote wellbeing and good mental health and tackle mental health stigma and discrimination
- **Personal Safety:** To ensure people and communities are safe, respected and free from violence and abuse
- **Employment:** To ensure our workforce is more reflective of our community, our policies are fair and equitable and gender pay gaps are reduced
- **Participation:** To ensure services are accessible for all and people and communities are able to better influence decisions that affect them
- **Living standards:** To work to reduce poverty and support independent living

Details of the progress made against these actions during the period 2020-2024 can be found in the various [annual reports](#).

While working to meet the objectives has been key, we have been mindful of our wider responsibilities with the Public Sector Equality Duty.

Youth Mayor: the positions of Youth Mayor and Deputy Youth Mayor are elected annually by Neath Port Talbot's Youth Council to ensure young people are given a voice and have a say on local issues that matter to them.

NPT Council LGBTQ+ Employee Network: this network for council employees who are part of the LGBTQ+ community was launched in 2024. It has been established with agreed terms of reference and a chair and vice chair appointed by its membership. The network provides an opportunity for LGBTQ+ employees to unite, share experiences, seek guidance, and contribute to the enhancement of our workplace environment.

Our Equality Objectives (cont...)

NPT Ethnic Network Group: this council employee group was established with agreed terms of reference and a chair and vice chair appointed by its membership. The Network has been key in helping progress the anti-racism agenda in the council, including helping with the development of actions, and continues to provide valuable insight for our work.

Our Digital Inclusion and Enablement Project focuses on reducing digital inequality for disadvantaged groups. By increasing access to digital technologies, the project aims to enhance daily living, support ageing well, and enable digitally excluded residents to access essential services. The project offers support in two ways; regular digital drop-in sessions at various community venues across Neath Port Talbot as well as digital home visits, for those unable to attend community venues due to health or mobility reasons.

Our continuing work to address poverty experienced by many in our area has included signposting to what help and advice is available; administering the help and support which has been made available and working with partners to see what more we can do, recognising there is already a lot going on at the community level and identifying where we could add value.

A Memorandum of Understanding was signed between Swansea University and NPT Council to help work more closely on vital areas of common interest including education, the labour market and in particular helping to boost employment and skills, as well as an emphasis on continuing to find ways to help improve an ageing population's quality of life.

Our Early Years & Flying Start Team registered more than 300 two year olds on the Flying Start Programme. The programme helps families with young children in the most disadvantaged areas, offering high quality, funded, part-time childcare as well as parenting support, enhanced health visitor support and support for speech, language and communication where needed.

Evidence & Data

The following are some of the key documents referred to in the review of the equality objectives and associated actions:

'Is Wales Fairer?' - while the report, published in November 2023, is structured around the nine protected characteristics the data and information contained under each is still relevant to and supports our equality objectives developed in 2020. The report has also supported findings from locally gathered data and it is against this background that our actions have been developed.

Public Participation Strategy 2023-2027 - we are strongly committed to fostering a culture of partnership with local people and communities, encouraging and supporting them to participate in local democracy, and keeping them informed about how their participation has influenced decisions. Our four year Strategy outlines the council's objectives, approach and mechanisms for encouraging and enabling public participation, together with information on how local people can influence decision-making.

Healthy Relationships for Stronger Communities Strategy 2023-2026 - the revised strategy outlines the priority areas and strategic direction around healthy relationships and the implementation of the Violence Against Women, Domestic Abuse and Sexual Violence (Wales) Act 2015 within Neath Port Talbot. Developed with the involvement of partner agencies and survivors, it aims to tackle all forms of violence in relationships, responding to the growing number of referrals being received by specialist providers; reducing harm and improving the lives of those affected.

Having a co-ordinated approach to addressing **"Violence Against Women"** does not mean this neglects abuse directed towards men and boys or other groups and individuals who experience these forms of violence, or that this neglects to deal with violence perpetrated by women, where this occurs.

The strategy identifies the strengths and challenges for our area and sets out a series of achievable actions to help us to realise our long-term vision:

"To prevent and eradicate gender-based violence by promoting: equality; safety; respect; and, independence to enable everyone to live free from abuse and the attitudes that perpetuate it."

Time to Change Wales Campaign Employer Pledge - Time to Change Wales is a national campaign to end the stigma and discrimination faced by people with mental health problems. By committing to the Time to Change Wales Campaign's Employer Pledge the council has publicly declared that we as an organisation want to step up to tackle mental health stigma and discrimination. The associated action plan provides a framework for us to support employees with their mental health, as well as support for training and access to a range of resources.

Evidence & Data (cont...)

Access Denied: Older people's experiences of digital exclusion in Wales - 'The rapid shift towards digital and the digital divide this has created has left many older people in Wales feeling inadequate, that they are not valued by society and that they are being left behind, affecting the ways people feel about themselves and about growing older.' The commentary based on the experiences of older people alongside the work undertaken by public bodies to address digital exclusion amongst this community is the fundamental theme of the report produced by the Older People's Commissioner. Full consideration is being given to the recommendations in the report.

Cost of Living and Poverty Prevention Steering Group - this partnership Group was established in 2022 to support people through the cost of living crisis and to develop a longer term approach to poverty prevention in Neath Port Talbot. Work is ongoing to develop a longer-term action plan and an anti-poverty strategy, taking on board developments and work already being undertaken by partners.

Equalities in Employment - our latest Annual Equalities in Employment Report provides information collected and published as part of our legal requirements under equality legislation. This annual snapshot, disaggregated by protected characteristics and by specified categories, provides an overview of our workforce.

Gender Pay Gap - in our latest gender pay gap report (2023) the mean gender pay gap shows that on average, women earn 3.67% per hour less than men; a decrease from 4.26% since 2022. Over the last four years we have partnered with Chwarae Teg on initiatives to support women in the workplace and to reduce our Gender Pay Gap. We have a Gender Equality Action Plan containing actions to support women in the workplace. We have the opportunity for our managers to use anonymised application forms to improve gender balance in the recruitment process (and in relation to all protected characteristics). We have also won a Chwarae Teg Gender Equality Award for our work in relation to our Mentoring Scheme 'Ment2Be NPT' aimed at supporting low paid women in the workforce to access career development. Whilst Chwarae Teg has now sadly closed, the work to deliver the action plan that we developed in partnership with them will continue, as will our commitment to achieving gender equality in our workplaces.

Evidence & Data (cont...)

Welsh Language - working to meet the requirements of the Welsh Language Standards is key to our work and while we do not always get it right we are committed to the principle of the Welsh Language Measure 2011. Providing a Welsh language service with a limited number of Welsh speakers is challenging. However, we are continually looking at ways to overcome this in order to provide a more effective and responsive service. Our Welsh Language Standard Annual Reports detail how we are meeting the standards.

Welsh Language Promotion Strategy 2023-2028 - the Strategy embodies our vision - 'By 2028 the Welsh language will be more audible and visible in our communities and used by an increased number of people in their daily lives'. It complements and builds on the vision and actions of our Welsh in Education Strategic Plan 2023-2032; it helps raise the profile of the Welsh language; helps ensure people can participate in society in their language of choice and provides a strong base for developing an environment where people can respect, accept and take pride in the Welsh language.

NPT Armed Forces Covenant – as part of our commitment to the Armed Forces Covenant, our Armed Forces Covenant Liaison Officer (who works across Neath Port Talbot, Swansea and Bridgend) has been key to the various initiatives and projects undertaken in the county borough and regionally; these included the annual Mayor of Neath Port Talbot's Armed Forces Festival, Armed Forces awareness training, Armed Forces village and flag raising at the Wales Air Show.

The Covenant is a promise from the nation ensuring that those who serve or have served in the Armed Forces, and their families, are treated fairly.

Evidence & Data (cont...)

Neath Port Talbot Corporate Plan – with our Corporate Plan 2024-2027 we have taken the opportunity to take stock and to reset the council’s priorities in light of the new context we are working within. The refreshed corporate plan describes the next set of actions we believe we need to take to balance the needs of our communities in the present, with the opportunities we will need to grasp if we are to create a more prosperous, fairer and greener future for everyone over the long term.

As part of our review process we have concluded that our purpose, vision and values remain relevant and describe the kind of council we want to become.

Our four well-being objectives set in 2022 are drawn directly from our vision and remain our focus:

- All children get the best start in life
- All communities are thriving & sustainable
- Our local environment, culture & heritage can be enjoyed by future generations
- Local people are skilled and access, high quality, green jobs

Let’s Keep Talking - In 2021, we launched a public engagement exercise ‘Let’s Talk’ to inform our corporate priorities as we emerged from the pandemic period. We heard from almost two thousand people as part of that work, including people from different parts of the county borough and people from all sorts of backgrounds.

We repeated the exercise with ‘Let’s Keep Talking’ during the summer of 2023, to ensure we had a good understanding of what matters to people now and to have clear insight about what has changed in people’s lives since the original exercise back in 2021 - 2022.

Audit Wales commented ‘The council has positively engaged with its communities through its Let’s Talk and Let’s Keep Talking initiatives’.

Evidence & Data (cont...)

Anti Racism Action Plan for Wales - The Plan builds on previous Welsh Government initiatives on race equality. The urgency of the Plan was laid bare and intensified by the COVID-19 pandemic and by the unparalleled visibility and reaction of the world to the killing of George Floyd in the USA.

To achieve the Welsh Government's vision for a 'Wales which is anti-racist' by 2030 involves concentrating actions in priority areas:

- Leadership within the Welsh Government and across the Welsh public sector
- Education and Welsh Language
- Culture, Heritage and Sport
- Health
- Social Care
- Homes and Places
- Local Government
- Employability and Skills, including Social Partnership and Fair Work and Entrepreneurship
- Nation of Sanctuary – Support for refugees and asylum seekers
- Crime and Justice
- Childcare and Play

LGBTQ+ Action Plan for Wales - the Plan is the framework for LGBTQIA+ policy development across government and with our partners. It sets out the concrete steps Welsh Government will take to strengthen equality for LGBTQIA+ people, to challenge discrimination, and to create a society where LGBTQIA+ people are safe to live and love authentically, openly and freely as themselves.

We have also considered various national and local research findings; latest data available to the council and issues raised by our NPT Ethnic Minority Network and other local equality groups as well as feedback from recent consultations.

Monitoring & Review

Equality Act 2010 (Statutory Duties) (Wales) Regulations 2011 requires the council to publish an annual report of progress made in meeting its equality objectives. The first annual report on this new Strategic Equality Plan, will be for the period 2024-2025 with an anticipated publication date of Autumn 2025.

As our Corporate Plan contains aims and strategic priorities that complement those identified to meet the equality objectives, we will report on progress against these Plans simultaneously in order to provide a more holistic assessment of progress.

The annual report will be presented to Cabinet and once approved will be published on our website and communicated using a range of different media in line with our [Public Participation Strategy](#). The annual report will be made available in alternative formats on request.

Equalities & Procurement

When procuring works, goods or services from other organisations under a relevant agreement, the council must give due regard to whether it would be appropriate:

- for the selection and award criteria for that contract to include considerations to help meet the general duty.
- to stipulate conditions relating to the performance of the contract to help meet the three aims of the general duty the council is required to pay ‘due regard’ at all stages of the procurement process to the need to advance equality, from the design and planning of specifications, advertising, evaluation of submissions and to monitoring and enforcing contracts.

The design and planning of specifications plays a crucial part in determining how promotion of equality may be built into an individual procurement project.

This will shape the equality content of the specification and/or contract conditions and will influence the weight given to equality considerations in selecting tenderers and in tender evaluation. During the monitoring of a contract, the council will act promptly if it becomes aware of poor or non-performance regarding the equality requirements of a contract and will also make appropriate arrangements to promote knowledge and understanding of the general and specific duties for suppliers amongst their employees.

Procurement Strategy - at the time of writing, the council is in the process of finalising a Procurement Strategy in readiness for new legislation coming out of the forthcoming procurement law reform at UK and Welsh Government level.

The new strategy will set out how the council’s procurement policies and practices will adhere to a range of additional legislative requirements including the Public Sector Equality Duty (PSED). It will ensure that equality is considered throughout our procurement cycle and that the PSED is applied to all contracts regardless of value, aiding us in undertaking procurement in a socially responsible way. Reference will also be made to how we will work with contractors, where applicable, to ensure they meet the requirements of the PSED and ensure that all contractors take steps to ensure compliance with the Equality Act 2010.

Actions to meet the Equality Objectives

Education

To ensure children and young people are the best they can be

Priority 1.1 All Children and Young People will have improved levels of attainment by accessing an education that inspires them to learn and develop the skills they need for the future they want.

Action	What will be the outcome?	How will we measure it?
We will work with the childcare sector and partners to develop a more equitable Early Years offer to ensure our youngest learners transition into education successfully.	All early years children transition into education successfully.	Regular monitoring and evaluation of the number nursery/reception aged children accessing education successfully.
We will work with children, young people and families, including Armed Forces families, to access the help they need from services at the earliest opportunity.	All children, young people and families access the early help and support they need.	Regular monitoring and evaluation of early intervention programme outcomes, including Families First and Flying Start.
We will continue to work with year 11 pupils who require enhanced transition support into a successful post 16 destination.	<p>Young people will successfully transition from school into a post 16 destination.</p> <p>Our young people will be better prepared to transition from school into post 16 destinations.</p>	<p>The number of year 11 pupils who are Not in Education, Employment or Training or whose status is unknown as shown in the Careers Wales destination data snapshot.</p> <p>The number of young people who state on their Legacy evaluation forms that they are better prepared for the future.</p>

Action	What will be the outcome?	How will we measure it?
We will offer accredited opportunities in non-formal settings.	Young people will have the opportunities to achieve accredited outcomes in a non-formal setting.	The number of young people who are awarded accreditations from the Youth Service.
We will deliver the Duke of Edinburgh's Award Scheme to young people.	Young people will have the opportunities to achieve the Duke of Edinburgh's Award at all levels.	The number of young people who achieve the Duke of Edinburgh's Award.
We will provide opportunities for young people to develop their Welsh language skills in non-formal settings.	Young people will be given opportunities to learn about the Welsh language and culture outside of formal education and through recreational, social and non-formal educational sessions and activities.	The number young people who used the Welsh language in a social or recreational setting. (taken from youth service evaluations) The number of young people attending Welsh language provisions.
We will work with schools to reduce barriers to learning and provide an equitable and inclusive education offer to all pupils, particularly those most vulnerable and from low income families.	All pupils will receive an equitable and accessible education and achieve good outcomes related to their ability.	Improved outcomes for all children and young people.
We will work with early years services, parents and schools to identify those children with ALN who require specific support to engage in education successfully.	All early years children will transition successfully into school and receive early intervention and support when required.	Regular monitoring and evaluation of the children's progress.
We will fully Implement the Additional Learning Needs and Education Tribunal (Wales) Act 2018 and the Additional Learning Needs Code of Practice 2021 across the Local Authority and in schools within Neath Port Talbot raising standards across our education system.	All pupils will be successfully moved from the old SEN system to the new ALN within the WG timescales.	The number of pupils who have been successfully moved from the old SEN system to the new ALN system. Performance indicators relating to issuing of new and converted statutory plans.

Action	What will be the outcome?	How will we measure it?
We will ensure that Children Looked After (CLA) receive an equitable education offer and are not disadvantaged as a result of their care status. Learners will be supported to reach their full potential.	All CLA pupils will receive an equitable and accessible education and achieve good outcomes related to their ability.	Regular monitoring and evaluation of CLA progress.
We will work with partners to ensure the Local Authority (LA) fulfils its statutory duties in delivering an equitable offer of post 16 provision for young people with Additional Learning Needs (ALN).	We will reduce the number of young people with ALN who are not in education, employment or training (NEET).
