Section 1: Quarterly Performance Management Data and Performance key

2015-2016 – Quarter 3 Performance (1st April 2015 – 1st December 2015)

Note: The following references are included in the table. Explanations for these are as follows:

(NSI) National Strategic Indicators (NSIs) - are used to measure the performance of local authorities at a national level and focus on key strategic priorities. Local authorities are under a legal duty to collect & report on these measures.

(PAM) Public Accountability Measures - consist of a small set of “outcome focused” indicators, selected initially from within the existing Performance Measurement Framework. They will reflect those aspects of local authority work which local authorities agree are considered to be important in terms of public accountability. For example, recycling, educational attainment, sustainable development, etc. This information is required and reported nationally, validated, and published annually.

(SID) Service Improvement Data - can be used by local authority services and their regulators as they plan, deliver and improve services.

All Wales The data shown in this column is the figure calculated using the base data supplied by all authorities for 2014/2015 i.e. an overall performance indicator value for Wales.

Narrative Stage 1 – there has been a significant decrease in the number of complaints received up to the 3 rd quarter 2015/16 (when compared to 2014/15) from 65 to 17 (74%) ; this can be attributed to the continual service developments and improvements within Children’s Services. Members should also note, a new WG complaints policy was introduced in August				

2014, which resulted in new procedures being introduced by the Directorate; this was accompanied by extensive training for front-line staff and managers.

Members should note that a further 17 complaints were received from young people placed at Hillside Secure Unit; these have been shown separately, in brackets.

Stage 2 – *there remains a reduction from 3 to 1 up to the 3rd quarter; this can be attributed to a stronger emphasis on a speedier resolution at ‘local’ and ‘Stage 1’ levels.*

Compliments – *the number of compliments has increased; there continues to be a lack of reporting from services receiving praise and thanks. The complaints team will raise the profile for the need to report such incidences.*
