			Number of people accessing care and support services from social services - quarter 2 2015-16 was 2,918. Quarter 2 2016-17 was 2,936.
4. We will implement 'Pathways to Independence' across community care to ensure adults of working age with care and support needs are assessed and supported in a way which maximises their independence.	A. Jarrett	Green	<p>A Pathways to Independence approach now feeds into the funding and resources panels (2) developed under the single work stream Adults Social Care Modernisation. This has been trialled within the complex needs teams and is due to be rolled out across community networks later in the year.</p> <p>The percentage of clients who are supported in the Community during the year: Aged 18-64. - Quarter 2 2015-16 was 93.4%. 6. We will increase efficiency and value for money of direct services provided by the Council	N.Jarman	Green	<p>Projected outturn as at September 2016 indicates a saving of c. £541k across direct services. This is attributable in large to modernising provisions through a series of efficiency-improving exercises (e.g. sickness management, remodelling of service delivery), supported by management of change and ER/VR opportunities.</p>
7. We will review the partnership arrangement with Grŵp Gwalia to ensure it remains fit for purpose	N.Jarman	Green	<p>The fourth anniversary of the Grŵp Gwalia contract occurred in April 2016 and both parties are able at that point, to agree variations to the contract. These negotiations have concentrated on the Guaranteed Bed Commitment (GBC) for Phase II of the agreement (1 April 2016 until 31 March 2022). Since the original contract was signed, demand for residential care has reduced from the original estimates. This is largely owing to the success of Early Intervention and Prevention in stemming demand for residential care. Work, to date, has included remodelling</p>
