

Well-being Objectives Consultation Report

Appendix 3

1 Introduction

Every year, the Council has to publish a Plan which sets out the Council's priorities for improvement and how we are changing the way we do things to ensure we continue to improve the services we deliver to you and our communities. This year, the Plan had to take into account, new Welsh Government legislation: The Well-being of Future Generations (Wales) Act, 2015.

Requirements of the Act place a duty on the Council to set and publish well-being objectives, which show how we intend to improve the well-being of people in Neath, Port Talbot and Pontardawe and to carry out sustainable development.

A public consultation on the Council's draft wellbeing objectives was undertaken for an 8 week period, from 6th July to 8th September 2017.

The purpose of the consultation was to give a wide range of interested bodies and the general public the opportunity to comment upon the draft wellbeing objectives and to offer their views and comments prior to the wellbeing objectives being finalised and adopted by Council.

The consultation received a total of 520, responses from a combination of channels (e.g. online survey, community engagement events and post boxes).

2 What we did

Consultation and Engagement Plan: to help ensure that the consultation was as widely available as possible, there were a number of mechanisms by which people could submit their views. These included:

- a self-completion questionnaire published on the Council's web site
- consultation packs in 35 public buildings (such as libraries, community centres and civic buildings)
- promotion via email to a range of stakeholders
- attendance at community/public events across the county borough and facilitated workshops with various organisations (more detail in Annex B)
- promotion via the Council's corporate social media accounts messages (more detail in Annex C)

During some briefing events there were instances where specific personal concerns were raised (e.g. provision for Autism), these individuals were encouraged to express their views via the various consultation mechanisms.

More detail of the range of engagement methods used during the consultation period and also the outcome from each event/activity, can be found in the Consultation and Engagement Plan attached at Annex B.

3 Questionnaire

There were two versions of the survey, (including one for the younger audience).

During the first few face to face engagement events, we received feedback from the public that the detailed version of the questionnaire was too lengthy to complete in person. As a result a shorter version was created to be used at the remaining scheduled engagement events.

4 Consultation summary analysis

A range of promotional methods were used to create awareness of the consultation and encourage members of the public to engage with the council from a good cross section of the county borough, as detailed in the Consultation and Engagement Plan (Annex B).

The consultation received a significant number of responses from the various consultation activities as follows:

- 520 responses received in total from both versions of the questionnaire (449 = version 1 and 71 = version 2)
- 281 of these came from the 36 engagement activities listed in the Consultation and Engagement Plan (see Annex B).
- 4 of the total responses came via email, 11 via the post
- 19 completed questionnaires via the post boxes distributed across the 35 public buildings
- 11 responses came back in Welsh
- The majority of responses came from Pontardawe and surrounding areas as displayed on the map - see Annex D

We also had a number of collective responses from various groups and organisations, these included:

- Skewen Women's Group
- UCAC union representative
- Dowlais Valley Bowls Club
- Seven Sisters OAP Association
- Older Persons' Council
- Llangiwig Community Association
- Cimla Art Group
- Friends of Neath Abbey Iron works
- Keep Wales Tidy
- Neath Rotary Club
- Dyffryn Clydach and Bryncoch Historic Society
- Heritage Group and Neath Antiquarians
- Your Voice Advocacy

- Youth Council
- Natural Resources Wales
- NPT CVS - Response on behalf of 3rd sector organisations - see Annex A for full response

All views and comments expressed via the consultation have been considered prior to the wellbeing objectives being finalised. Changes made as a result of the consultation include:

- Direct reference to the important role of the voluntary sector who support the Council in a wide range of ways to deliver the well-being objectives and associated actions;
- Reference to the importance of out of school activities; support for children and young people's emotional well-being; and the importance of addressing substance misuse amongst some young people as headline indicators in the body of the Plan as well as in the more detailed Annexe to reflect the priority people attach to these issues;
- Refining the range of measures identified in the Plan to monitor progress and adding in baseline measures (where these exist) together with targets for the term of the Plan where this is appropriate;
- Re-wording the well-being objective for adults to place emphasis on people being resilient and able to participate in community life, throughout their adult life. This responds to the points made about increasing loneliness and isolation;
- Inserting measures for the country parks and theatres in the headline measures within the body of the Plan as well as in the detailed Annexe to reflect strong views about the importance of cultural well-being across the county borough;
- Addressing points made about the difficult financial environment within which the Council will need to operate within the Plan, making specific reference to how the Plan will be integrated with the Council medium term financial planning arrangements and other governance arrangements;
- Explaining how the Council will monitor progress and report on that progress;
- Responding to the points made about the need for the Plan to be accessible to people from all backgrounds. A web-based version of the Plan will be produced in accessible language and illustrating key points with pictures and graphics to aid understanding. Additionally, public summary versions will be available using accessible graphics, in read easy version and child friendly version.
- Where comments relate specifically to the valleys, the detailed points will be made available to the Task and Finish Group set up by the Leader to inform their recommendations on future valley strategies; and
- Where comments relate specifically to the Welsh Language or Equality of Opportunity, these comments will be considered further by the Equalities' Group and revisions will be made to the action plan for delivering on the Council's equality and Welsh Language obligations.

5 Responses from Version 1 (longer questionnaire)

There were 449 respondents in total.

5.1 Comments on the 3 draft Well-being Objectives:

In relation to the question on what is your interest in the Council's draft well-being objectives - the majority of respondents (72%) came from residents of the county borough. Almost half (49%) use services provided by the Council and 14% work for the Council. Please note that more than one category may apply to each respondent.

The majority of respondents agreed that the 3 draft well-being objectives were the right ones for the Council to focus on for the coming years.

Below is a breakdown of responses for each of the 3 draft well-being objectives:

Well-being Objective 1 - To improve the well-being of children and young people - "Giving all of our children and young people the best start in life and helping them to be the best they can be":

- There were 442 responses to this question. 96% of respondents agreed. Of these, 347 (79%) strongly agreed and 79 (18%) agreed. Only 7 respondents disagreed.

Additional comments:

- The majority of respondents' state there is a need to extend and enhance local facilities and the provision of extra-curricular opportunities for children and young people across the county borough. Children have lost many of their local play and activity facilities (e.g. youth clubs and deterioration in play parks)

- Improving the wellbeing of our children simply means the improvement of the wellbeing of a future generation. What follows on from that are the benefits of less crime in the area,
- well-adjusted young people who can fulfil their potential, be proud of themselves and learn to interact with their peers and adults too
- There is a particular focus on developing the Arts in the community and promoting what is available to encourage more children and young people to get involved.
- Young people need more help, especially with mental health problems and disabilities. Children with learning disabilities need more opportunities to access proper transition to adulthood
- Well-being Objective 2 - To improve the well-being of all adults who live in the county borough - "Living a good life and ageing well"
- There were 437 responses to this question. Of the responses received, 97% agreed. Of these, 347 (79%) strongly agree and 78 (18%) agree. Only 3 respondents disagree with this draft objective.

Additional comments:

- Transportation around the county borough are too infrequent and accessing services (such as GPs) is problematic when located too far.
- Several comments made on the positive link between wellbeing, cultural arts and mental health.
- Lack of provision for mental health services that can be accessed locally
- Develop good community support networks to create age friendly communities and prevent social isolation

- Help older people to get out more and feel better

Well-being Objective 3 – To develop the local economy and environment so that the well-being of people can be improved
“Neath, Port Talbot and Pontardawe will be a vibrant and healthy place to live, work and spend our recreational time”

- There were 428 responses to this question, 413 (96%) agree. Of these, 334 (78%) strongly agree and 79 (19%) agree. There were 5 respondents (1%) disagree with this draft objective, of these 4 strongly disagree and 1 disagree.

Additional comments:

- Public transport is very poor (e.g. no buses after 6.30 from Port Talbot) restricting mobility across the county borough for all of those relying it
- Promote local cultural and physical activity through existing but high quality facilities (e.g. Art Centres) that will also enhance local economies. Closing recreational facilities will not increase the wellbeing of anyone
- It is vital to remember that life exists outside of the three towns mentioned. Most of Neath Port Talbot county is classified as rural. Many of the facilities enjoyed by people living in urban areas are absent in the valley and rural parts of the county, consequently without adequate transport links we immediately penalise large sections of society.
- Lack of small businesses thriving in towns such as Port Talbot and Neath, not classed as ‘vibrant’
- Stronger communities = stronger economies
- Important to have local places to go to socialise and to avoid social isolation

- There needs to be better access to facilities for children with special needs, such as play grounds etc.
- More supported employment opportunities for young people with special needs, also for those to be in a range of employment.

5.2 Comments on additional Well-being Objectives:

In response to the question on should there be any additional well-being objectives, 194 (52%) said yes and just over half 183 (49%) said no. Suggestions on additional well-being objectives included:

- Mental health should be a stand-alone objective; Well-being of the mind should be recognised specifically as an objective, not just the body. The local suicide rate speaks volumes.
- There should be a specific objective around the environment; development of green commuter links, develop the road and energy infrastructure and improve air quality
- More emphasis on inclusion and social interaction to improve well-being for all, especially old people
- Ensuring local children have somewhere with something that keeps them off the street corners and teaches them mutual respect
- I think different ethnic minorities need more support in this area.
- There needs to be more opportunities for people with disabilities to earn money.

- During a transition time in my life I was left without support. I have a learning disability and when I turned 65 my LD support stopped and I moved into elderly services. I need a consistent person to guide me and fight for me. Independent 1:1 Advocacy would have been a lifesaver.
- I feel that the current objectives do not adequately identify and meet the needs of disabled/vulnerable children and adults and their families/carers - this needs to be addressed
- More plans for Autism
- Match facilities (e.g. GP services) to new homes being built, not enough

5.3 Comments on the steps (priority actions):

The majority of respondents agreed that the steps (priority actions) listed under each of the 3 draft well-being objectives were the right steps to take, to help us achieve our well-being objectives.

Below is a breakdown of responses for each of the 3 draft well-being objectives:

- **Well-being Objective 1:** 321 (90%) agreed and 35 (10%) disagreed with the steps (priority actions).

Many of those who disagreed stated that the steps (priority actions) in the draft document are too vague.

There also needs to be more emphasis on teaching children and young people practical life skills like cooking, childcare, how to handle money.

Encourage cycling and walking to school - and providing safe, appropriate routes including traffic management around school entrances.

Sport has been left out.

Teach basic life skills such as how to cook and manage personal finances.

Foster an aspirational attitude to show children from low income families and particularly workless families that there are other options available to them than a life on benefits

- **Well-being Objective 2:** 311 (89%) agreed and 39 (11%) disagreed.

Again the draft steps are deemed too vague by the majority of respondents.

Steps should also include the promotion of culture, community, pride in place, happiness and empowerment not just the services the council usually provide

Teach life skills at school or at youth clubs and then you may achieve your objective

What is being done about anti-social behaviour and drug taking in town centres?

It is great that Autism is mentioned in the Document, but there is no substance in how you will implement it. When you do decide on how you are going to implement the approach, it is important to take a 'whole family' support approach, so that siblings in the family that do not have Autism do not feel disadvantaged. We also need more clarity on what entitlements are available in respect of support and respite, grants available, Social Worker assignments, and entitlement to a 'family' carers assessment.

- **Well-being Objective 3:** 316 (90%) agreed and 37 (11%) disagreed.

Comments included: too much emphasis on job creation; need for indicators of environmental improvement (e.g. species recovery, improved air quality and landscape protection); need to improve access to public transport to develop the local economy and improve the job and recreational opportunities for those in rural areas was also raised.

- Several comments were received concerning the use of 'Neath', 'Port Talbot' and 'Pontardawe' as representation of the county borough. People felt that this excluded other areas that make up the county borough – 'The county is much larger than Neath, Port Talbot and Pontardawe'
- The Council should be looking at the wellbeing of the whole county not just those in Neath, Port Talbot and Pontardawe.
- Access to public transport is a vital component in improving people's wellbeing in relation to developing the local economy and environment - people living in rural areas need to be able to travel to and from work, to health care and other services not provided in their local area and to recreational facilities.
- Nothing on our beach to attract people. Franco has the monopoly on food. Allow more traders to build and open restaurants/coffee bars/ice cream bars/shops selling sweets and buckets and spades, rock etc. At the moment there is one toilet block, one small cafe (Remos) which you can't get near on sunny days, one take away, huge queues and one ice cream shop. We need to attract tourist, have trendy bars, cafes, healthy competition like Cardiff bay, mumbles etc., get it upmarket attract tourists.
- Get bigger names shops to our town centres. More big name women's clothes shops, not pound shops, phone shops, and charity stores, that's all port talbot is known for. No restaurants of any note, cheap pub grub and takeaways everywhere, station road has four pizza shops, three kebab places, nowhere nice to eat -forcing local people to travel outside of the area

- More work needs to be done with the business community as a whole, not just the big boys with access to everything because of their size. There is a serious shortfall in "REAL" help to businesses and access to funding and planning. The whole system seems designed to fail unless you have enough money to stoke the interest of the local authority.

5.4 Comments on the impact of draft well-being objectives on you, your family and friends:

Impact on You:

- 274 (81%) of respondents think the objectives will improve their quality of life
- 46 (14%) said they will make no difference
- 17 (5%) said they will make their well-being and quality of life worse

Impact on Family:

- 248 (80%) of respondents think the objectives will improve the lives of their family
- 48 (15%) think they will make no difference
- 16 (5%) said they will make the well-being and quality of life of their family worse

Impact on Friends:

- 265 (83%) of respondents said the objectives will improve their friend's well-being and quality of life
- 33 (10%) said they will make no difference
- 20 (6%) said they will make the well-being and quality of life of their friends worse
- Several comments made on the keeping Pontardawe Arts Centre open for wellbeing reasons.

- The current proposals set out in the Consultation document do not go far enough to achieve the wellbeing objectives for local residents. Unless improved policies are forthcoming the current proposals will not make a difference.
- The consultation is very poor at outlining any plans for autism or evaluation of impact of strategy at local level, this will have an enormous impact on families like mine who live with autism and friends who are part of the wider autism community in Neath Port Talbot
- If there were more facilities on after and the local town of Neath more inviting I would visit more but we all tend to go to Swansea.

5.5 Comments on if there is anything that would improve the overall impact of the draft well-being objectives:

180 (55%) said 'yes' and 149 (45%) 'no' there was nothing else that would improve the impact.

Additional comments:

- A clearer routine maintenance schedule for Council services to help people have more pride in where they live.
- Improve access to public transport for rural communities
- Improve communication, openness and joint working between different service sectors
- Ensure the objectives apply to all those living and working in the county borough and not just those living in the three main towns.
- Clearer indication of how the objectives were going to be met - which services and facilities were to be prioritised and promoted

- Ensuring people can access facilities. Local bus services do not enable easy travel
- Trouble shoot all plans from a very wide angle. This is not just a costing exercise! You are playing with people's lives
- More emphasis is needed on maintaining the existing structures in place in our communities
- A greater understanding and empathy of the lives of disabled/ vulnerable individuals and their families/carers. More consultation with these groups
- Plans to be put in place to specifically for families who have a child with autism. Early intervention is proven to improve the quality of life of the autistic person as an adult

5.6 Comments on do you think the draft well-being objectives will have an effect on opportunities to use the Welsh language:

Opportunities for You:

- 184 (56%) of respondents think the objectives will improve opportunities to use the Welsh language
- 132 (41%) said they will make no difference
- 10 (3%) said they will reduce their opportunities to use the Welsh language

Opportunities for Family:

- 167 (55%) of respondents think the objectives will improve opportunities to use the Welsh language
- 128 (42%) said they will make no difference
- 8 (3%) said they will reduce their opportunities to use the Welsh language

Opportunities for Friends:

- 153 (50%) of respondents think the objectives will improve opportunities to use the Welsh language
- 146 (47%) said they will make no difference
- 10 (3%) said they will reduce their opportunities to use the Welsh language

Additional comments:

- If we maintain and develop our facilities we can provide opportunities and encourage linguistic exploration
- Need to link the language to services provided such as childcare
- There are already plenty of opportunities to use the Welsh language in the local area

5.7 Comments on how do you think the draft well-being objectives will have an effect on treating the Welsh and English languages equally:

You:

- 167 (53%) of respondents think the objectives will improve the equal treatment of the languages
- 143 (45%) said they will make no difference
- 6 (2%) said they will reduce the equal treatment of the languages

Family:

- 157 (53%) of respondents think the objectives will improve the equal treatment of the languages
- 133 (45%) said they will make no difference
- 4 (1%) said they will reduce the equal treatment of the languages

Friends:

- 152 (52%) of respondents think the objectives will improve the equal treatment of the languages
- 135 (46%) said they will make no difference
- 5 (2%) said they will reduce the equal treatment of the languages

Additional comments:

- Welsh language provision is important but costly
- A lot of local retailers work hard to treat English and Welsh equally
- More schools need to teach through the medium of Welsh

5.8 Comments on is there anything that would improve the effect of the draft well-being objectives on the Welsh language:

72 (22%) said 'yes' and 257 (78%) said 'no'

Additional comments:

- More funding for Welsh language classes to improve opportunities to learn
- Bi-lingual provision of services
- More intergenerational work

5.9 Comments on what people thought of the consultation:

- 283 (82%) respondents said 'yes' the consultation was easy to understand, 61 (18%) said 'no' it was not
- 215 (70%) said the content of the consultation was informative, 92 (30%) said 'no' it was not

Additional comments:

- A lot of the this was written in Government speak, not sure people know what well-being means

- More use of simple and straight forward language
- Anyone with poor literacy skills will be prohibited from commenting
- The questionnaire was too complex and not enough maybe options
- Survey is not smart phone friendly
- Use of tables where information was spread over more than one page made it difficult to track the content
- Not user friendly – could not download the form
- Poor time to run the consultation, difficult to capture views from children and young people during holiday
- Needed more information to understand the objectives, too vague
- Ensure consultation views are listened to and taken proper note of and acted on

6 Responses from Version 2 (children/young people/short version)

There were 71 respondents in total.

6.1 Comments on the 3 draft Well-being Objectives:

The majority of respondents agreed that the 3 draft well-being objectives were the right ones for the Council to focus on for the coming years.

Below is a breakdown of responses for each of the 3 draft well-being objectives:

- **Well-being Objective 1** - We want to improve the health and happiness of children and young people and help you be the best you can be:
 - 95% said it was the right thing to
 - 5% said I don't know
 - 0% said I don't think this is the right thing to do
- **Well-being Objective 2** - We want to improve the health and happiness of adults (young and old):
 - 97% said it was the right thing to
 - 3% said I don't know
 - 0% said I don't think this is the right thing to do
- **Well-being Objective 3** - We want you to live, learn and play in a healthy and happy place:
 - 100% said it was the right thing to
 - 0% said I don't know
 - 0% said I don't think this is the right thing to do

6.2 Comments on the impact of draft well-being objectives on you, your family and friends:

There were 27 responses to this question.

Impact on You:

- Of those the majority (78%) said the plans the council have will improve health and happiness for them, the remaining 22% were unsure. None of the respondents said health and happiness will be worse.

Impact on Family:

- Of those the majority (81%) said the plans the council have will improve health and happiness for their family, the remaining 19% were unsure. None of the respondents said health and happiness will be worse.

Impact on Friends:

- Of those the majority (73%) said the plans the council have will improve health and happiness for their friends, the remaining 27% were unsure. None of the respondents said health and happiness will be worse

Additional comments:

- My mum and dad tried to fight to get me free transport to a school but got told no I was bullied and sad in the last school even though I tried hard how is this going to help me and my mum as she has to do less working hours which makes me and my mum sad and us very poor
- Happy people are generally healthier people (physically and mentally), being healthy and happy would make things better
- We would like to know how you will improve things

6.3 Comments on any ideas on how the Council can help children and young people where they live to be healthy and happy:

There were 60 responses to this question. Of those, 55 (92%) said they had ideas such as:

- Start swimming lessons in term time again
- Learn about children's rights in school
- Easier ways to apply to college
- Better, safer parks with more bins
- Parks for older children
- Set up more teams in all junior leagues in all sports. Joint ventures with private companies
- Football/rugby pitches and basketball/netball courts to improve health
- We need more things to do that don't cost money
- Better facilities, more youth clubs and clubs to socialise in
- Less litter
- Help to pay bills
- More police
- More football pitches and rugby fields
- More political education
- Safe walking routes and paths that are maintained
- Music festivals / concerts to raise money
- Skate parks in Cimla
- More use of open space such as parks but monitored and organised use, sports, learning and creativity
- Listen to families give more pay and build more play areas

- Put up posters, Hold a club for children to persuade them to keep the community safe and clean.
- Educate and provide facilities that promote a happy and health atmosphere for children

6.4 Comments on do you think the draft well-being objectives will have an effect on the chances for you, your family and friends to use the Welsh language:

Impact on You:

- The majority (62%) of the 16 responses to this question said they didn't know. 9 (38%) said they thought opportunities would improve and 1 (4%) said they thought opportunities would reduce.

Impact on Family:

- The majority (62%) of the 16 responses to this question said they didn't know. 9 (35%) said they thought opportunities would improve and 1 (4%) said they thought opportunities would reduce.

Impact on Friends:

- The majority (62%) of the 16 responses to this question said they didn't know. 9 (35%) said they thought opportunities would improve and 1 (4%) said they thought opportunities would reduce.

Additional comments:

- Welsh isn't currently promoted or encouraged in our area. It is accepted but not welcomed
- Need more opportunities for learning and using Welsh in the community

6.5 Comments on how you think the draft well-being objectives will have an effect on treating the Welsh and English languages equally:

Impact on You:

- The majority (50%) of the responses to this question said they didn't know, 46% said it will improve the equal treatment of the languages and 1 (4%) said it would reduce opportunities to use the Welsh language.

Impact on Family:

- 48% of the responses to this question said they didn't know, 48% said it will improve the equal treatment of the languages and 1 (4%) said it would reduce opportunities to use the Welsh language.

Impact on Friends:

- 50% said they didn't know, 48% said it will improve the equal treatment of the languages and 1 (4%) said it would reduce opportunities to use the Welsh language.

Additional comments:

- Don't know what this has to do with my well-being
- Welsh and English not equal enough, we want more Welsh options
- Both languages should have equality in this area and promoted equally

6.6 Comments on is there anything that would improve the effect of the draft well-being objectives on the Welsh language:

There were 26 responses to this question. Of those, 15 (58%) said they didn't know if anything we have said we will do will have an effect on the Welsh language. Of the remaining respondents 8 (31%) said 'no' there isn't anything and 3 (12%) made the following suggestions:

- Welsh ambassadors in towns encouraging informal meetings of businesses and community to learn and practice Welsh.
- Don't force people to speak Welsh
- Free taster sessions. Set up a social media page to help new learners.

6.7 Comments on anything else (good or bad):

- A community survives when it is healthy and happy. A community grows when ALL members of society are included and everyone feels part of the community. There are issues where young adults feel they have nowhere to go, nowhere to work or communicate with general society and therefore become ostracised from their local environment. Smaller towns work well in looking after the vulnerable on a general basis (the basic development of the human race). My worry would be that by not encouraging the smaller towns to grow and survive the closeness of a community is lost and the ability to self-care for our own community will be lost. More effort for the smaller towns to compete with larger towns in terms of amenities and facilities.
- More community meet ups and a better system in getting people to know what's already going on in the area

- Services have been cut in general to the detriment of the people of the community. Councils no longer provide a value for money service and standards are poor
- There should be more things to do at night to stop people getting into trouble and drugs
- We need more events or clubs for our youngsters to gather at especially teenagers

7 Equalities Information

The council's standard set of equalities monitoring questions were also included with the survey. A breakdown of the equalities information relating to the consultation respondents from both versions of the questionnaire can be found in the table below.

Please note these questions are voluntary and as such not every respondent has completed this section. Therefore the overall demographic profile of respondents presented in this report may not be a true reflection of the county borough.

Consultation Equalities Information		
Age Range		Number

Annex A

Neath Port Talbot County Borough Council Draft corporate well-being objectives

A Response from the Third Sector
in Neath Port Talbot

September 2017

Neath Port Talbot CVS, Tŷ Margaret Thorne, 17-19 Alfred Street, Neath SA11 1EF

A response to the Neath Port Talbot County Borough Council Draft corporate well-being objectives

Introduction

Neath Port Talbot CVS is the County Voluntary Council and a Charitable Company set up to promote, support and develop the Third Sector in Neath Port Talbot. It has over 500 member organisations and is in touch with over 1,000 Third Sector organisations operating in Neath Port Talbot covering various communities of interest, public services and geographical communities (from small local groups covering smaller wards and deprived communities to large national organisations). Some are wholly volunteer-led and run, and others employ a workforce.

As an infrastructure organisation, our role in supporting the development of communities and building community resilience is clear. We provide capacity building, support and guidance to third sector organisations, helping them to develop, plan for growth and sustainability, to deliver services, opportunities and activities that positively impact on, and improve outcomes for, citizens and service users. We also have an important role in engagement and representation.

Our aim is to promote the development of a local third sector that is effective and efficient, informed and influential; a sector which is able to improve and achieve positive outcomes for local people. The organisation has strong partnership links locally and regionally and works in a number of strategic areas, such as Health, Education and Learning, Regeneration, and Children and Young People.

As part of this work and its key representative function, Neath Port Talbot CVS facilitates a range of third sector forums and networks, which engage the sector in Neath Port Talbot in order to gather the views of the sector and to feed these views into key decision-makers and delivery partners. The organisation also promotes a range of messages to its staff and to the wider community through its newsletters, website and social media.

Engagement with the Third Sector

This paper sets out the response to the consultation on behalf of the Third Sector in Neath Port Talbot. A consultation workshop was held which provided an opportunity for the Sector to meet and comment on the draft corporate well-being objectives and the associated action plan.

General comments

- There was agreement with the three well-being objectives. They are aspirational, broad and catch the majority of issues.
- It was felt that the Local Authority should be applauded for the approach it was taken given the constraints it has. Equally, concern was expressed that there is a need to consider the resource available, and whether the Local Authority was trying to spread itself too wide.
- It was felt that the well-being objectives and improvement objectives were ambitious, however the actions lacked ambition and were narrow.
- There is a tension between the expected long term vision of the Well-being of Future Generations Act and the five year political cycle.

- The Corporate Improvement Plan isn't as joined up as would potentially be expected.
- The importance of co-production was noted.
- It will be important to see small gains quickly, to see that it can work.
- It was felt that it may hint at, but there is little commitment to working in partnership with the third sector. The Sector can add value to almost every section of the plan and perhaps this could be strengthened.
- The constraints of short term funding for the Sector were noted.
- Concern was expressed around future regional working and the impact of changes to regional structures on the ability to achieve the actions identified. Networks may work very differently over different footprints.
- The action plan may benefit from a column to track monitoring, and deadlines.
- It was felt that some of the wording could be misinterpreted – it wasn't clear how the aim would be achieved. The wording may benefit from being more definitive.
- The Council's commitment to the Violence Against Women Act was positively recognised; the implementation of the Act will be important. It was noted that the commitment to the Act is not reflected in cuts to Supporting People funding.

Well-being Objective 1: Giving all of children and young people the best start in life and helping them to be the best they can be

- It may be helpful to clarify the age range this well-being objective covers.
- The importance of tackling adverse childhood experiences was noted; the role of families, and family learning in this cannot be ignored.
- It was felt that there is a beneficial to strengthen the transition from Child to Adult services; this needs to be a continuous, joint piece of work.
- Might it be helpful to include a reference to those children and young people experiencing Domestic Violence? There is no reference to the strategy in this priority (it is only referenced under adults).
- The limitations of Flying Start and other programmes were noted due to the postcode basis of them.
- It may be helpful to mention young carers specifically, possibly around school attendance and attainment.
- The promotion of healthy school meals was noted and that this should be across all schools and not be purely cost based (nutritionally)
- Concern was expressed that the reduction in child poverty in five years is unachievable. It may be helpful that this is a cross-cutting theme and that it links to the economic objectives and actions.
- It was recognised that commissioning may address some of the identified actions; it may be helpful to mention the review strategic
- support in relation to children and young people and domestic violence.

- It was highlighted that there is a need to consider what statutory provision is. An example was provided of Social Workers accessing children and young people services from Port Talbot and Afan Women's Aid as they don't have the skills or training to provide the service, however the service is not funded by the Local Authority.

Well-being Objective 2: Living a good life and ageing well

- The focus needs to be on what the Local Authority can deliver with the funding available. The current climate is challenging. It may be helpful that the action plan references the challenges the Local Authority is facing in terms of funding, and the expectations of Welsh Government that it will be able to overcome these. Will it be able to improve the lives of residents with the resources it has available?
- The "better use of Disabled facilities grant" was welcomed.
- The importance of third sector provision was noted.
- There is a need to ensure that funding is spent in the local community. Perhaps more could be done beyond supply chains and procurement practices to ensure funding remains in the local community?
- There was concern that employability programmes rely on EU funding. What is the commitment to these programmes once the funding ends which will be within the five year term? It is still a key objective; it would be helpful if that is an indication of what will happen next.
- The role of the Third Sector (including social enterprise) as an employer and in income generation for the County needs to be recognised.
- Whilst the Sector would not wish to see any jobs at risk, the potential negative impact of safeguarding Local Authority jobs on jobs in other sectors cannot be ignored. Furthermore, an important consideration
- will be whether staff possess the necessary skills and abilities for the roles they undertake.
- With regards to the expansion of starter units, this can sometimes be a problem (there is no room to expand and no other suitable sites locally).
- More detail would be welcomed around the housing actions; the Local Authority has to work with RSLs.
- It might be helpful to include hate crime; it was felt that this is very important and there are lots of concerns around this locally.
- Waiting lists for welfare rights was noted as a concern, along with the potential reductions in funding due to changes in Communities First. This is a much needed service.
- There is a need for more integration and collaboration in service delivery. Has there been discussion with the Health Board to ensure compatibility?
- "We will implement the Regional Joint Carers Strategy with our health partners" - it was felt that the numbers taking up the carers assessment may not be the right measurement for the objective.

- There is a very little available for those with sight loss in Neath Port Talbot. The services aren't funded which can leave individuals very isolated. The sensory team aren't able to deliver a sufficient service, and there is a waiting list of around 18 months.
- It was felt that there were also gaps in services to address the well-being of all adults, e.g. for sex workers. There is a need to reference/ provide pathways/ commitment to the whole population, whether it be through a statutory or commissioned service. Digital inclusion, adult literacy, mental health, basic skills were highlighted as potential gaps in improving adult well-being.
- Many services are based on volunteers. At what point do we say should be paid work?
- Concern was expressed that there is no real commitment to alternative service delivery with third sector/citizen involvement to make it more sustainable. The Sector frequently relies on other sources of funding to develop alternative models.

Well-being Objective 3: Neath, Port Talbot and Pontardawe will be a vibrant and healthy place to live, work and spend our recreational time

- There was much discussion around the specific mention of Neath, Port Talbot and Pontardawe. It was felt that it was a nice touch to draw in Pontardawe, but there are other communities in the same position. The move to include Pontardawe could potentially be divisive. There was concern that the specific mention of the three towns will be to the detriment of others, and will result in other areas being forgotten about. There is a need for a greater focus on rural/valley areas.
- It was felt that the valleys feed into these three towns; it would be helpful if these links could be recognised in the main well-being objective. The importance of transport was noted.
- The City Deal needs to strengthen connections with the Bay Campus and Amazon.
- It was felt that the cuts to the tourism department had not been helpful. The tourism offer is very important and the impact of tourism cannot be underestimated.
- Where do town and community councils fit?
- The important of internet access was noted, and that this is lacking in valley communities.
- There are a number of uninhabited buildings that could be community hubs etc., there are other ways of delivering services which don't require substantial outlay.

Where should the Council and the Third Sector work together to deliver the objectives?

- It was recognised that the Council and the Third Sector have the ambition to make things better, this is a positive starting point and ongoing engagement and involvement with officers and Elected Members would be appreciated.
- It was felt that the new structure in the Local Authority and the very different makeup of the Council will provide opportunities for positive change going forward.

- The Sector wants to work together, to deliver practical and alternative solutions but would welcome reassurance that the Local Authority is open to exploring alternative solutions.
- It would be helpful that the Local Authority establish an Asset Transfer Policy to enable the Sector and Community to have sufficient time to plan and develop options for the running of community facilities. The difficulties of asset transfer need to be recognised.

Neath Port Talbot CVS Additional Remarks

- Neath Port Talbot CVS welcomes the opportunity to comment on the draft Well-being Objectives consultation.
- We would wish to work with the Local Authority to deliver shared strategic priorities.
- We recognise the very real challenges facing the Local Authority and will continue to work with them to mitigate against reductions in funding and seek imaginative and effective ways of delivering services for and in local communities.
- As the umbrella body for the Third Sector in Neath Port Talbot, we share many of the views expressed at the Third Sector Workshop, including the positive remarks and some of the challenges that have been raised.
- It will be important that the Local Authority makes the best use of the resources available, and it will be crucial that conversations take place with the Sector to consider who is best place to deliver services for our local communities.
- We wish to add to some of the concern expressed by the Sector regarding the third well-being objective and the focus on Neath, Port Talbot and Pontardawe. While we welcome the focus on place, the focus needs to be on all of Neath Port Talbot, and on connecting communities. There is a need for a particular focus on our valleys communities and on transport. There also needs to be recognition that some of our communities align themselves with towns in other counties.
- A number of the actions rely on the ongoing development of the Neath Port Talbot Community Directory. It will be important the links with the Infoengine Third Sector Directory are developed and enhanced to benefit the communities of Neath Port Talbot.
- We would wish to work with the Local Authority on the community development agenda.
- We welcome the action around the development of social and public enterprise in its diverse forms, and would encourage the Local Authority to consider working with the Sector to deliver more and different ways to deliver services.

Detailed Consultation & Engagement Plan

(Period: 6th July to 8th September 2017)

The plan below lists a range of engagement activities we undertook during the consultation period. The plan demonstrates we targeted a cross section of the community, including: the general public, those with protected characteristics, families, children and young people.

Total responses received via the engagement activities was 281 (as at 07.09.17).

We also used a range of engagement methods/channels as per table below:

What	Where
<p>Consultation packs, containing the following:</p> <ul style="list-style-type: none"> ■ Bilingual posters promoting the consultation and encouraging people to give their feedback ■ A supply of self-completion questionnaires (English and Welsh), replicating the online questionnaire ■ A post box for completed questionnaires ■ Reference copy of the report to Cabinet on 5th July 2017 ■ Reference copy of the draft well-being objectives ■ A supply of summary versions of the draft well-being objectives for people to take away 	<ul style="list-style-type: none"> ■ Consultation packs were available in up to 35 public buildings across the county borough, these included: the One Stop Shops in Neath and Port Talbot, the Pontardawe Hub, all Council run libraries and all Council run community centres, amongst others. <p>19 participants completed the questionnaire and posted their feedback via the 35 post boxes distributed in the public buildings</p>
Corporate social media accounts (e.g. Facebook/Twitter)	Ad hoc briefings and social media postings were communicated throughout the consultation period via Facebook and Twitter (more detail in Annex C)
Council Website	Online questionnaire and supporting material's published on a dedicated section on the Council's website: www.npt.gov.uk/well-being
Press Release	Via Council website and media contacts and NPTCVS eBulletin (more detail in Annex C)
Council's corporate staff newsletter	The consultation was promoted via the Council's corporate staff newsletter 'In the Loop' to encourage staff to give their views
Email with Web link	Email promoting the consultation was sent to a comprehensive list of internal and external stakeholders (such as Staff, Unions, Public Service Board and Third Sector etc.), more detail below.
Workshops	More detail below
Public events	

Full list of engagement activities		
Date	Event	Outcome
Thurs 6 July 2017	Black Minority Ethnic Forum	Raised awareness of the consultation and arranged a follow up workshop to get feedback from the groups
Fri 7 July 2017	Morrisons Supermarket Neath	29 hard copies of the questionnaire received, several people were shown the link via smart devices or given the summary booklet with the link to the website
Tues 11 July 2017	Children & Young People Forum	Raised awareness of the consultation, distributed summary booklets. Not many attendees but circulated the link to the online survey
Weds 12 July 2017	Crucial Crew	Attended over lunch period, asked children to partake in a shortened version the children / young people survey. Total number of children participated was 98
Fri 14 July 2017	Crucial Crew	Repeated as above. Total number of children participated was 84, also had a good response on the 'ideas board'
Mon 17 July 2017	Tesco, Pontardawe	11 hard copies of the questionnaire received from the event and several summary booklets distributed with the link to website
Mon 17 July 2017	Mental Health Forum	Raised awareness of the consultation and distributed summary booklets. Positive response from the attendees of the meeting in supporting the consultation. A separate Third sector workshop arranged by NPT CVS in August to get feedback from the groups
Fri 21 July 2017	Youth Providers Network	Good turnout at the meeting. Briefed the group on the consultation and handed out summary booklets. Some maybe attending the CVS, third sector workshop in August
Thurs 27 July 2017	Aberavon Shopping Centre	12 hard copies of the questionnaire received. Several people took away questionnaires to complete, or were referred to the website.
Thurs 27 July 2017	Older Persons' Council	Raised awareness of the consultation and distributed summary booklets. Older Persons' Council submitted a response and offered to raise awareness of the consultation in their communities.

Full list of engagement activities		
Date	Event	Outcome
Monday 31 July	Paws on Patrol, Pontardawe	6 hard copies of the questionnaire received and good engagement with Councillors that were present
Wed 2 Aug 2017	Aberavon Beach - Playworks Play Day	Cancelled due to bad weather
Tues 8 Aug	Ladies Lunch Club - Skewen	Raised awareness of the consultation and distributed summary booklets and a group response was submitted
Mon 14 Aug	Aberavon Beach Playworks Play Day	Cancelled due to bad weather
Mon 14 Aug	Croeserw Community Enterprise Centre	5 hard copies of the questionnaire received. It was generally quiet in terms of footfall as there were no events taking place at the Centre as previously been informed
Mon 14 Aug	Seven Sisters Community Centre	Group responses submitted by various groups present at the centre on the day: Dulais Valley Bowls Club, Seven Sisters OAP Association, Art for Therapy
Tues 15 Aug	Youth Council	10 hard copies of the questionnaire received and good responses on the ideas board
Wed 16 Aug	Gnoll Park	5 hard copies of the questionnaire received, most participants that were approached were out of County Borough (80%)
Tues 22 Aug	Pontardawe Arts Centre	Well attended by almost 80 individuals, representing centre clients and service providers from the Centre. Ages ranged from 10 to 70+. The participants formed a 'Friends of Pontardawe Arts Centre' at the end of the event and are submitting a response on behalf of the Centre. Those present were very concerned about budget cuts to the Arts Centre and would be expressing their views via the consultation. Several hard copies of the summary booklet and questionnaire were also supplied to the group on request.

Full list of engagement activities		
Date	Event	Outcome
Tues 22 Aug	Your Voice Advocacy (YVA)	Event rearranged to 5 September but was cancelled by organiser due to venue availability. A response on behalf of the YVA Group will be submitted. Received 5 hard copies from individual clients 1 organisation response for YVA
Wed 23 Aug	Glynneath Training Centre	21 hard copies of the questionnaire received and numerous people were shown the website or handed leaflets to access consultation online
Wed 23 Aug	Voluntary Sector Liaison Committee	NPT CVS arranged and facilitated a workshop for Third Sector organisations which was well attended. NPT CVS will collate all comments on behalf of the organisations present and forward these to us for consideration (full response at Annex A).
Wed 23 Aug Thu 24 Aug Fri 25 Aug	Community First support	Community First assisted the consultation by distributing leaflets/questionnaires at events organised by them in the following areas: Tonmawr, Pontrhydyfen Cwmafan, Cymmer, Glyncorwg, Gwynfi and Croeserw
Thurs 24 Aug	Black Minority Ethnic Forum	NPT CVS arranged and facilitated a workshop for the Black Minority Ethnic Forum members. Only had 3 people attended (British Red Cross, Ethnic Youth Support Team and the BME Community Development Officer).
Fri 25 Aug	Cwmavon Library, Coffee Morning	Approximately 30 ladies attended the event, resulting in 2 group responses and one personal response being submitted
Wed 30 Aug	Briton Ferry Town Councillors at Briton Ferry Community Centre	A member of the team attended the community centre to speak to Councillors about the consultation and will be submitting a response on behalf of the Town Council.

Full list of engagement activities		
Date	Event	Outcome
Thurs 7 Sept	Cwm-Ni Iach Project Glynneath Training Centre, with Dove workshop	We were informed by the centre that there would be no attendance due to other commitments. Therefore information and advice was offered on the consultation and we encouraged responses from the organisation & individuals.
Thurs 7 Sept	SNAC (Special Needs Activity Centre) Port Talbot	Meeting arranged to engage with families using the Centre. One family present due to start of new term who completed a questionnaire. The manager of the centre will be submitting a response on behalf of the organisation via the website.
Thurs 7 Sept	Community First Western Valleys Ystradgynlais Town Hall	Unable to attend due to limited resources
Other	Disability Action Group	Contact made to the group but we were unable to attend their meetings due to no meetings schedules during the consultation period (ill health). Therefore information and advice was offered (via email) on the consultation and we encouraged responses from the organisation & individuals.
	Swansea Bay Lesbian Gay Bisexual and Transgender Forum	Contact made but unable to attend their meeting due to time scales, email sent with link to website and consultation
	Trade Union Briefing	Email sent with link to website and consultation
	Press & Media	More detail in Annex C
	Public Service Board	Email sent with link to website and consultation
	Regional Development Team	Advised no meetings in August but worked with Community First to reach out to communities through their contacts
	Housing Providers Group	Email sent with link to website and consultation
	NPT Carers Centre	Email sent with link to website and consultation

Full list of engagement activities		
Date	Event	Outcome
	NPT Community Safety Partnership	Email sent with link to website and consultation and also attended a Paws on Patrol event
	Business Community i.e. Neath Town Centre Consortium and Neath Inspired	Email sent with link to website and consultation
	NPT Staff	Chief Executive raised awareness of the consultation amongst those employees living in NPT via NPTCBC Staff Roadshow (17th, 18th, 20th, 21st July) 'Chat with Chief'. Also raised awareness via the Intranet and In the Loop staff e-newsletter.
	MPs / AMs / MEP	Email sent with link to website and consultation
	Councillors / Elected Members	Email sent with link to website and consultation Received responses from Community/ Town Councillors in: Seven Sisters / Briton Ferry / Pontardawe / Neath / Glynneath / Crynant and also corresponded with each to arrange something in their areas. Bryn & Cwmavon, 50 questionnaires sent to Cllr Gallsworthy
	Commissioners: Children's / Older People / Welsh Language / Police / Future Generations	Email sent with link to website and consultation The consultation was promoted to representatives from the Older Peoples Commissioner's office, during their visit to the Council on the 10th August to review Independent Advocacy support.
	Wales Audit Office	Email sent with link to website and consultation
	Local Area Co-ordinators	Local Area Co-ordinators promoted the consultation in their areas
	Switch Campaign Events	Used these scheduled events to promote the consultation via the website - 'do it online'

Full list of engagement activities		
Date	Event	Outcome
	Community Council Liaison Forum	Email has been sent to all community Councils. Responses received from Glynneath and Neath
	Think Families Partnership	No meetings scheduled during the consultation period, however all attendees were included in groups contacted via email
	Dove Workshop	Dove referred us to their Cwm-Ni Iach Project, see entry above for 17.8.17
	Ystalyfera Development Trust	Email sent and offer to support a workshop, no response received
	Canolfan Maerdy	Email sent and offer to support a workshop, no response received
	Melin Crythan Advice Centre	Centre confirmed there were no events on during the period we could attend.
	Citizen Advice Bureau	Posters sent to Field Studies Centre on request
	Shopmobility DANSA	Posters and leaflets sent to Shopmobility on request
	Faiths Groups	Email sent with link to website and consultation
	Autism Groups	Email sent to groups representing Autism with the link to the website and consultation and also offered to support a workshop if required.
	Schools	Unable to attend LLAN/NASH meetings but email sent to LLAN/NASH with link to website and consultation
