6. Does the initiative embrace the sustainable development principle (5 ways of working):

	Yes	No	Details
Long term - how the initiative supports the long term well-being of people	Y		The planned works included in the Works Programme will improve well-being, increase efficiency and improve the highway in line with the council's ongoing asset management strategy. The road network provides opportunities for people to access their place of work, as well as their leisure & social activities, and is a vital component to the health of a community. Essentially, it is vital in facilitating the safe and effective movement of goods and people.
Integration - how the initiative impacts upon our wellbeing objectives	Y		The Well-being of Future Generations (Wales) Act 2015 and the Equality Act 2010 encourages a more joined up approach to road maintenance and travel. The provision of a well maintained road network plays an important role in supporting the local economy and the overall health and wellbeing of communities.
Involvement - how people have been involved in developing the initiative	Y		People have not been involved in developing the Works Programme. The production of the Works Programme has brought together practitioners responsible for the different asset groups within the Council and follows the principles established nationally in Wales through the County Surveyors Society.
Collaboration - how we have worked with other services/organisations to find shared sustainable solutions	Y		The Works Programme is the result of collaboration between internal sections of the Council. Without such collaborative working, it would not be possible to reach a solution where the well-being of the community is improved to the extent that the initiative will realise.
Prevention - how the initiative will prevent problems occurring or getting worse	Y		The planned works included in the Works Programme follows the Council's objectives, policies and strategy for managing its highway infrastructure assets. It recognises the importance of its highway infrastructure in supporting corporate, national, regional and local objectives and

			recognises new legislation, such as the Well-being of Future Generations (Wales) Act 2015 and the Equality Act 2010 (Statutory Duties) (Wales) Regulations 2011.
