### 3. Equalities

a) How does the initiative impact on people who share a **protected characteristic**?

Protected Characteristic	+	-	+/-	Why will it have this impact?
Age	x			<p>Those aged in their 20s represent the largest age group for people with learning disabilities. For people with mental health needs, those in their 50s represent the largest age group.</p> <p>Access to support services is unlikely to be solely due to a person's age. However, personal circumstances relating to a person's age may have an impact on how support is delivered or the level/type of support required. The aim of the QAF is to promote good practice and good quality service provision via routine monitoring against various criteria and measures.</p> <p>The purpose of the QAF is to:</p> <ul style="list-style-type: none"> <li>• Benchmark services so that commissioners, service providers and others may better understand how well support is delivered relative to the outcomes agreed for service users</li> <li>• Encourage continuous improvement and best practice in supported living services</li> <li>• Help identify changes that would make it easier for providers to enable service users to achieve their personal outcomes</li> <li>• Encourage more collaborative working with providers, service users, their family and others so a multi-faceted view of 'quality' may be obtained</li> <li>• To have a clear sense of what quality means in practical terms in operational services</li> </ul> <p>As such it should have a positive impact on people with a protected characteristic</p>
Disability	x			<p>Supported living is directly related to a person's assessed care and support needs due to a learning disability and/or mental health condition. The aim of the QAF is to</p>

Marriage & civil partnership	x		<p>It is possible that the cared for person may already be or get married, which would need to be taken into account when determining how to best meet any support needs. Action	Who will be responsible for seeing it is done?	When will it be done by?	How will we know we have achieved our objective?
As the QAF is implemented, complete further IIAs in respect of any emerging unintended/unforeseen impact and include them in annual monitoring reports to Members.	Andrew Budden	As required but at least annually	The overall impact of the strategy and action plan on all those unpaid carers receiving support remains positive
