To promote the resilience of ecosystems, i.e. supporting protection of the wider environment, such as air quality, flood alleviation, etc.			X		L	The scheme is designed to manage the number of cars travelling through the village of Pontneddfechan, there may therefore be a small positive environmental impact.

**6. Does the initiative embrace the sustainable development principle (5 ways of working):**

	Yes	No	Details
<b>Long term</b> - how the initiative supports the long term well-being of people	X		<p>For a number of years visitor parking pressures have created significant issues for residents within Pontneddfechan.</p> <p>The aim of the pilot park and ride service is to establish the impact that such a scheme can have, both on the quality of life of local residents (by easing these pressures), and the overall visitor experience within Waterfall Country.</p> <p>By extending the pilot for two more summer seasons NPTCBC will be able to mitigate the foreseeable parking pressures which the local community is likely to experience whilst a permanent solution is scoped out.</p>

<b>Integration</b> - how the initiative impacts upon our wellbeing objectives	x		<p>The proposal will enhance opportunities to take part in outdoor activities which in turn enhances health and wellbeing within the local community.</p> <p>The tourism economy within Neath Port Talbot creates jobs and investment opportunities for local people. However, the quality of the visitor experience at Waterfall Country is constrained by a lack of appropriate infrastructure which limits the potential of the area as a visitor destination and impacts negatively on local communities. The park and ride pilot is part of a range of proposals being brought forward by the Waterfall Country Partnership to manage visitors more effectively and limit the negative impact of visitors within local communities.</p>
<b>Involvement</b> - how people have been involved in developing the initiative	x		<p>The proposal has been developed through a feasibility study conducted by the Waterfall Country Partnership. The partnership consists of; Brecon Beacons National Park, Natural Resources Wales, Neath Port Talbot Council, Powys County Council, Rhondda Cynon Taf Council and the new community organisation 'Waterfall Country Cymru' which includes members from the range of Community Council's which are located within the Waterfall Country boundary.</p> <p>Local members for Glynneath have been in regular communication regarding the park and ride pilot and were supportive of the original pilot. Local members were keen to see a pilot service run during 2021 in order to alleviate some of the pressures that their communities are seeing in relation to visitor parking.</p>
<b>Collaboration</b> - how we have worked with other services/organisations to find shared sustainable solutions	x		<p>The proposal has been developed through a feasibility study conducted by the Waterfall Country Partnership. The partnership consists of; Brecon Beacons National Park, Natural Resources Wales, Neath Port Talbot Council, Powys County Council, Rhondda Cynon Taf Council and the new community organisation 'Waterfall Country Cymru' which includes members</p>

			from the range of Community Council's which are located within the Waterfall Country boundary.
<b>Prevention</b> - how the initiative will prevent problems occurring or getting worse	X		<p>An extension to the pilot project will help to establish if a park and ride service is feasible and practical at this location in the long term. At the centre of this pilot project is an attempt to alleviate some of the parking pressures at Pontneddfechan, in particular whilst a permanent solution is scoped out.</p> <p>In the longer term the intention would be to widen the geographical area which is covered by the service to benefit wider communities within Waterfall Country where similar visitor pressures are being felt.</p> <p>Research will be conducted with users of the service and their feedback will shape the future design of the service.</p>

**7. Declaration - based on above assessment (tick as appropriate):**

A full impact assessment (second stage) <b>is not</b> required	x
Reasons for this conclusion
