Despite onsite restrictions and staff and supply shortages, work on Council construction projects has continued throughout quarter 1, 2 & 3 with projects offering various training and work experience opportunities to local people. Despite one of the main contractors going into administration last year, outputs are more than satisfactory.									
Q3 data for the previous year is unavailable due to COVID restrictions.									
PI/462 - Number of business enquires assisted resulting in advice, information or financial support being given to existing companies through Business Services	489.00	1057.00	430.00		NA				
Throughout quarters 1, 2 & 3, the team have processed an unprecedented amount of enquiries from local businesse for Council funding to support expansion and investment projects, property enquiries, etc. The demand for services	-		ovid emerger	ncy payments	s, requests				
PI/518 - Trading Standards - Percentage of businesses that were either compliant when visited or brought into compliance during the period			77.06	75.00	Green				
New Indicator for 2021/22. 215 of 279. Along with ongoing food and rogue trader investigations, there has a been a sharp rise in breaches detected by the Trading Standards and Animal Health service. Most notably a significant number of food samples have found to be in breach, these along with the ongoing cases mean that the department has to focus on corrective action, rather than proactive work.									
PI/519 -Trading Standards - Percentage of high risk businesses that were liable to a programmed inspection that were inspected for Trading Standards & Animal Health			48.94	80.00	Red				
New Indicator of 2021/22. 23 of 47.	-								
By now, the inspection programme should be 3/4 complete. TS and AH has been short staffed in the early part of the financial year and affected by the restrictions imposed by Covid and difficulty in recruiting permanent and temporary staff to fill vacancies The department has seen a significant rise in breaches of food legislation and fraud legislation, following the easing of lockdown which has meant an increased case load for officers within the service. Further sampling exercises this quarter are likely to result in further breaches but will include targeting high-risk businesses.									
PI/520 - Trading Standards- Redress obtained for consumers or victims of crime by service actions			181259.00		000 NA				
New Indicator for 2021/22.									
This large sum is the result of two rogue trader investigations. Approximately £30,000 was recovered from the SGD/Crystal Style Investigation that was heard in the last financial year, but compensation was awarded in 2021/22. £150,000 was recovered from a bank by a TS Officer following a rogue trader incident; the rogue trader is being investigated by Swansea TS. A further rogue trader investigation led to the recovery of £340 for a local resident.

606 of 664 for Quarter 3 2021/22; this compares to 409 of 462 for Quarter 2. The planning department is experiencing a significant rise in application numbers and other related workloads during 2021, at a time when experienced staff have also been lost and existing staff are under pressure, with a larger number of applications extending beyond anticipated timescales. This has led to a period where we have been unable to consistently gain agreement from agents for 'extensions of time', leading to a reduction in performance. However, it is anticipated that this is a short-term blip, which can be addressed through greater engagement with applicants and agents throughout the applications process.
