

Appendix TT.

Background or 'Project Specifics' – Application MF101/T2

To improve road safety at Cwmbach Road, Cadoxton.

This bid has been developed to 'Enhance existing Council Services' and to improve the situation for residents, businesses and local farmsteads.

The funding will be used to lay thermoplastic screed (or 'over band') to the road surface that has been heavily eroded by torrential rain and run – off.

The need for this initiative has come to the attention of the local Ward Member. The project proposal is to improve the access to Neath Golf Club, Cwmbach Holiday cottages, farms, local businesses and private dwellings. Several complaints have been received with regard to the worsening condition of the road and this investment, whilst not completely curative, will assist in making a truer surface free from deep potholes and damaging hazards.

The scheme has no further financial implications for NPTCBC and ongoing maintenance of Cwmbach Road will come within the Highways infrastructure budget.

Recommendations

The project is valued at £5,100.00 (net).The Applicant, Councillor Annette Wingrave would wish to fund this project from her remaining Members Fund allocation and with this investment the allocation will be completely expended.

The project proposal is recommended for approval and financial support under the Members Community Fund.
