CONSULTATION DOCUMENT

**Proposal to establish an English-medium
3-11 school to replace:**

Alltwen Primary School

Alltwen Hill, Pontardawe SA8 3AB

Godre'rgraig Primary School

Graig Road, Godre'rgraig, SA9 2NY

Llangiwg Primary School

New Road, Ynysmeudwy SA8 4PJ

**all of which will be discontinued on 31st
August 2025**

Large print and alternative format or language
versions of this document are available on request

Introduction

On 20th October 2021, following a thorough consultation process in line with the Welsh Governments School organisation Code 2018, the Council's Cabinet at that time approved the proposal to establish an English-medium 3-11 school with a specialist Learning Support Centre (LSC) for 16 pupils with a statement of special educational needs relating to Autistic Spectrum Disorder (ASD), in new build premises to accommodate pupils from the current catchment areas of Alltwen Primary, Godre'rgraig Primary and Llangiwg Primary, all of which would be discontinued on 31st August 2024.

In January 2022 the Council received notification that the decision was to be challenged by a Welsh- medium education parents group. The challenge was brought on three grounds all relating to the notion that a Welsh Language Impact Assessment should have been included as part of the original consultation process. The judgement received in October 2022 upheld one of the three grounds of appeal.

Furthermore in June 2022 the new Rainbow Coalition administration at Neath Port Talbot Council indicated that it wished to review the decision of the previous administration taken in respect of the Swansea Valley school reorganisation proposal.

In light of the judgement and the desire of the new administration for a review, a new consultation is being undertaken. Participation of stakeholders is encouraged, all submissions and responses will be given due consideration and responded to within a consultation report as specified by the Code.

What is this report about?

This document is for pupils, parents/carers, school staff, school governors and others who have an interest in education in the Swansea Valley and Neath Port Talbot.

The Council has produced this consultation document as it is proposing to establish a new build, 21st century English-medium 3-11 school to replace Alltwen Primary, Godre'rgraig Primary and Llangiwg Primary, all of which will close on 31st August 2025.

It is proposed to also include a new Learning Support Centre (LSC) for up to 16 primary aged pupils with Autistic Spectrum Disorder (ASD) with a statement of Special Educational Needs (SEN).

It is proposed that the school will be built on Council owned land at Parc Ynysderw, in close proximity to Cwmtawe Community School and Pontardawe Leisure Centre. It is expected to open on 1st September 2025.

Additionally as part of the new build scheme it is proposed to build a new 25m pool and teaching pool on the site to replace the existing Pontardawe Swimming Pool. The pool will provide an additional facility alongside Pontardawe Leisure centre, revitalising and increasing the health and well-being facilities in the area.

The combined new build school, specialist ASD provision and leisure facilities will form part of a learning, health and wellbeing community campus at the Parc Ynysderw site.

The background to the proposal

The Council is responsible for promoting high educational standards and for delivering efficient primary and secondary education. Having the right schools in the right place and ensuring that they are fit for the 21st century learner is the challenge facing the Council. Achieving this will involve reviewing the number and type of schools the Council has in its area and assessing whether or not best use is being made of resources and facilities. This will include ensuring suitable provision for those pupils with special educational needs/additional learning needs.

Implementing the Strategic School Improvement Programme (SSIP) involves reviewing existing provision and determining the number and type of schools needed to deliver education effectively and efficiently across the County Borough. It will most likely lead to substantial change involving opening new schools, closing existing schools, merging or amalgamating schools, federating schools and promoting new initiatives that support collaborative working between schools. It will also involve re-organising education provision to ensure pupils gain access to and benefit from the specialist support, skills and expertise available within the County Borough.

The Council has decided to review its provision on the basis of:

- educational standards
- the need for places and the accessibility of schools
- the quality and suitability of school accommodation
- effective financial management

On November 30th 2022 the Council's Cabinet gave permission to consult on the proposal to establish an English-medium 3-11 school to replace Alltwen, Godre'rgraig and Llangiwg primary schools. The Council wishes to receive the views of pupils, parents, staff, Governing Bodies and other key stakeholders.

The proposal and why change is being proposed

The Council is proposing to build a new, 21st century primary school for the Swansea Valley to replace Alltwen, Godre'rgraig and Llangiwg Primary schools, all of which will close on 31st August 2025.

It is proposed that the new school will be built on land in Parc Ynysderw, Pontardawe and that it will form part of a learning, health and wellbeing community campus made up of Cwmtawe Community School and Pontardawe Leisure Centre. The campus will be further enhanced by the addition of a new build 25 metre, 6 lane swimming pool with additional learner pool on the site to complement current provision and enhance the health and wellbeing offer for pupils and the wider community.

The new English-medium primary school for boys and girls aged 3-11 years will accommodate 630 full-time pupils and 140 part-time (70 a.m./70 p.m.) nursery age pupils in a new build 21st century facility which will provide a stimulating teaching and learning environment in state of the art facilities.

The new school will serve the combined catchment areas of Alltwen, Godre'rgraig and Llangiwg Primary schools and will have sufficient capacity for pupils from the area. Pupils from the three existing schools will automatically transfer to the new school subject to parental preference. It will be managed with one head teacher and one governing body and will have one budget allocation and one group of staff.

Additionally the new school will provide a learning support centre (LSC) for up to 16 pupils with statements for Autistic Spectrum Disorder (ASD). It will also provide the opportunity to become a community hub for the area, building on the work already being undertaken by other well established primary school LSCs.

The new build will be funded jointly from Welsh Government's Sustainable Communities for Learning Programme capital grant monies and from the Council's prudential borrowing capacity.

The combined new build school, specialist ASD provision and pool will form part of a learning, health and wellbeing community campus at the Parc Ynysderw site, complementing the existing Cwmtawe Community School and Pontardawe Leisure Centre provision. In locating the new build facilities close to Cwmtawe Community School the development will enable pupils and staff from both schools to benefit from increased partnership working, made easier due to their close proximity.

The school building stock is ageing and the Council is facing increasing backlog maintenance and repair costs. As money and opportunity becomes available the Council will seek to replace existing schools with new builds and state of the art teaching and learning facilities. This proposal will remove circa. £1.9m of backlog maintenance costs across two of the three schools, and will also remove a split site arrangement at Llangiwg Primary School.

Currently the three schools are separate establishments, on sites some distance apart. Creating a single larger primary school can lead to increased benefits for staff and children, as well as enabling a more efficient and effective use of resources.

Details of the schools involved in this proposal

Alltwen Primary School

Alltwen Primary School is an English-medium community school serving boys and girls aged 3-11 years. It is situated in the village of Alltwen approx. 0.7miles from the possible site of the proposed new school.

Pupil Numbers

As at January 2022 there were 207 full-time and 48 part-time (nursery) pupils on roll. With the physical capacity to accommodate 239 full-time and 30 (30a.m/ 30pm) part-time (nursery) pupils, the school has a surplus capacity of 13.4% (32 full-time pupil places).

Table 1

Alltwen Primary School				
		Jan 2022		Jan 2023
	School capacity	Actual Pupil Numbers	Surplus places	Projected Pupil Numbers
Full-time	239	207	13.4% (32)	193
Part-time (Nursery)	30	48	-60% (-18)	40

The table below shows pupil numbers over a 5 year period:

Table 2

- School Census Data '18-'22: Taken from PLASC – Actual.

Quality and standards in education

Alltwen Primary School was last inspected in October 2018 and Estyn reported that it was a school with many good features, awarding good judgements in the 5 inspection areas.

Standards

Alltwen Primary school has 255 pupils on roll (Pupil Level Annual School Census (PLASC) 2022). During PLASC 2022 the school had a **lower than average** number of children in receipt of free school meals (20.3% of pupils in years 1-6) when compared to other schools in Neath Port Talbot (30.2% of years 1-6) and lower than similar schools across Wales (24.2% in primary schools). There was also a **lower than average** number of children who have been identified as having additional learning needs (14.1%) when compared with Neath Port Talbot (20.2%) and all Wales (15.8%).

Since 2020, Welsh Government do not expect returns for all statutory data collections that would have been due to take place before the school summer holidays as a result of the Covid pandemic. This includes National Data Collection (NDC) 2020 data collection and Welsh National Tests (WNT) 2020 data collection.

Wellbeing and attitudes to learning of pupils was judged to be 'good' in the recent Estyn report (October 2018) in that: 'Pupils' wellbeing is a very strong aspect of the life of Alltwn School. Nearly all pupils feel safe, happy and secure in school.'

Attendance during 2021/22 was 90.3% for years 1-6 which was above the Neath Port Talbot average of 89.2%.

Teaching and Learning

Estyn, in 2018, reported that across Alltwn Primary School effective teaching promotes pupils' good progress and as a result, relationships are positive and respectful, many classrooms are productive and orderly, and most pupils want to learn.

The quality of teaching and learning experiences in Alltwn Primary was judged to be good overall and there are well-planned opportunities to develop pupil's oracy and reading skills in a wide range of contexts across the curriculum.

Care, Support and Guidance

Estyn reported that care, support and guidance were good, noting that the Headteacher has established an inclusive and caring ethos that permeates the daily life of the school.

Leadership and Management

In 2018, Estyn judged Alltwn Primary school's leadership and management to be good, reporting that: 'The Headteacher is a well-motivated leader who provides a clear, shared and strategic vision for the school.'

Quality of accommodation

Alltwn Primary school occupies a prominent elevated position on Alltwn Hill, Alltwn, Pontardawe and whilst contained within a single enclosed site,

operates between two separate buildings (a short distance apart within the site boundary).

The most recent building condition survey (June 2022) reports that the building is overall in a fair condition, with investment needed internally and externally, including the mechanical and electrical services.

A new boiler has recently been installed, however the heating distribution system is old and inefficient and has exceeded its practical and recommended life span, and will need to be renewed.

Overall the site is graded C+ for condition i.e. the building is operational but major repairs or replacement will be needed.

Backlog maintenance and accessibility costs required within 5 years amount to £811,500.

Godre'rgraig Primary School

Godre'rgraig Primary School is an English-medium community school serving boys and girls aged 3-11 years. It is situated in the village of Godre'rgraig approx. 3.2 miles from the possible site of the new school.

In July 2019 Godre'rgraig Primary was relocated temporarily from Godre'rgraig to Parc Ynysderw, adjacent to Cwmtawe Community School after geological experts found there was a potential landslide risk to the school's playground.

Earth Science Partnership (ESP), the experts commissioned by Neath Port Talbot Council, reported a medium level risk from a quarry spoil tip near the school after the Council asked them to extend their extensive landslide risk investigation work carried out in nearby Panteg, Ystalyfera.

A further report in September 2021 has revealed that the quarry tip is moving and is now noted to be 'actively unstable'. It is therefore clear that it would be unsafe for staff and pupils to return to the school. This new build school proposal provides the opportunity for Godre'rgraig Primary pupils to be permanently relocated and to benefit from the 21st century facilities provided.

The Graig Road site building is circa.100 years old and the most recent building condition survey (November 2018) reports that the buildings are in

poor to fair condition and are categorised as condition grade C-.The combined total backlog maintenance and accessibility costs (index adjusted to April 2022) amount to £869,419. As the site is unsafe and non-operational this figure has not been included in total backlog maintenance and accessibility information quoted elsewhere in this report.

Pupil Numbers

As at January 2022, there were 119 full-time and 15 part-time (nursery) pupils on roll. With the physical capacity to accommodate 162 full-time and 19 (19 am/ 19 pm) part-time (nursery) pupils, the school has a surplus capacity of 26.5% (43 full-time pupil places).

Table 3

<i>Godre'rgraig Primary School</i>				
		<i>Jan 2022</i>		<i>Jan 2023</i>
	School capacity	Actual Pupil Numbers	Surplus places	Projected Pupil Numbers
<i>Full-time</i>	162	119	26.5% (43)	105
<i>Part-time (Nursery)</i>	19	15	21.05% (4)	17

- School Census Data '18-'22: Taken from PLASC – Actual

Quality and Standards in Education

Godre'rgraig Primary School was last inspected in June 2017 and Estyn reported that it was a school with many good features, awarding good judgements in the three inspection areas and awarded a good for current standards and a good for prospects for improvement.

Standards

Godre'rgraig Primary school has 134 pupils on roll (Pupil Level Annual School Census (PLASC) 2022). During PLASC 2022 the school had a **lower than average** number of children in receipt of free school meals (25.9% of pupils in years 1-6) when compared to other schools in Neath

Port Talbot (30.2% of years 1-6). There was also a **lower than average** number of children who have been identified as having additional learning needs (17.9%) when compared with Neath Port Talbot (20.2%).

Standards Since 2020, Welsh Government do not expect returns for all statutory data collections that would have been due to take place before the school summer holidays as a result of the Covid pandemic. This includes National Data Collection (NDC) 2020 data collection and Welsh National Tests (WNT) 2020 data collection.

Wellbeing was judged to be 'good' in the latest Estyn report (June 2017) in that: 'Pupils are confident that all staff care for them and will sort any issues quickly and fairly;' and '.....a real strength of pupils, throughout the school, is the way that they work collaboratively and interdependently'.

Attendance during 2021/22 was 90.9% which was above the Neath Port Talbot average of 89.2%.

Teaching and Learning

Estyn in 2017 reported that Godre'rgraig Primary School provides learning experiences that are adequate across the school. The quality of teaching in Godre'rgraig Primary was judged to be good overall.

Care, support and guidance were also judged 'good' with Estyn (June 2017) stating that, 'the school promotes a caring environment that develops pupils' health and wellbeing effectively.'

Provision for pupils who have additional learning needs at Godre'rgraig Primary School was deemed by Estyn in 2017 to be strong.

Leadership and Management

In 2017, Estyn judged Godre'rgraig Primary school's leadership and management to be good, reporting that: 'The headteacher has a clear vision for the school and she shares this effectively with all stakeholders.'

Quality of Accommodation

Since July 2019 Godre'rgraig Primary has been relocated from Godre'rgraig to temporary buildings at Parc Ynysderw. These buildings are of a good standard and suitable for the purpose of accommodating primary aged pupils, however they are on hire and not intended for permanent use in the longer term.

Llangiwg Primary School

Llangiwg Primary School is an English-medium community school serving boys and girls aged 3-11 years. It is situated in the village of Ynysmeudwy approx. 1.3 miles from the possible site of the new school.

Pupil Numbers

As at January 2022, there were 110 full-time and 15 part-time (nursery) pupils on roll. With the physical capacity to accommodate 147 full-time and 53 (53 am/ 53 pm) part-time (nursery) pupils, the school has a surplus capacity of 25.1% (37 full-time pupil places).

Table 4

<i>Llangiwg Primary School</i>				
		<i>Jan 2022</i>		<i>Jan 2023</i>
	School capacity	Actual Pupil Numbers	Surplus places	Projected Pupil Numbers
<i>Full-time</i>	147	110	25.1% (37)	97
<i>Part-time (Nursery)</i>	53	15	71.7% (38)	16

The table below shows pupil numbers over a 5 year period:

Table 5

<i>Llangiwg Primary School</i>						
<i>School Census Jan 2018 – 2022 + Sept. '22 roll</i>

<i>Full Time</i>	120	124	119	108	110	95
<i>Part Time</i>	16	14	17	16	15	7

Notes:

Capacity: Taken from 22-23 Capacities

Actual Pupil numbers: Taken from PLASC Report Jan 2022

School Census Data '18-'22: Taken from PLASC – Actual.

Quality and standards in education

Llangiwg Primary School was last inspected in January 2019 and Estyn reported that it was a school with many good features, awarding good judgements in 4 inspection areas and 1 inspection area as adequate and needing improvement.

Standards

Llangiwg Primary school has 125 pupils on roll (Pupil Level Annual School Census (PLASC) 2022). During PLASC 2022 the school had a **higher than average** number of children in receipt of free school meals (34% of pupils in years 1-6) when compared to other schools in Neath Port Talbot (30.2%

of years 1-6). There was also a slightly **higher than average** number of children who have been identified as having additional learning needs (21.6%) when compared with Neath Port Talbot (20.2%).

Since 2020, Welsh Government do not expect returns for all statutory data collections that would have been due to take place before the school summer holidays as a result of the Covid pandemic. This includes National Data Collection (NDC) 2020 data collection and Welsh National Tests (WNT) 2020 data collection.

Wellbeing and attitudes to learning

Wellbeing and attitudes to learning of pupils was judged to be 'adequate and needs improvement' in the recent Estyn report (January 2019) but stated that, 'Most (pupils) show high levels of engagement and approach tasks with enthusiasm..... and engage constructively with other pupils.'

Attendance during 2021/22 was 89.1% which was slightly below the Neath Port Talbot average of 89.2%.

Teaching and Learning Experiences

Estyn in 2019 report that Llangiwg Primary School provides a broad, balanced curriculum enhanced by a range of experiences, activities and visits that consolidate and enrich the learning.

The quality of teaching and learning experiences in Llangiwg Primary was judged to be good overall (Estyn January 2019). Estyn state that, 'most teachers set appropriate expectations for pupils' achievement and motivate them to work hard.'

Care Support and Guidance

Estyn also reported that care, support and guidance were good, noting that, 'The school is a happy, inclusive and caring community, where pupils and staff show high levels of respect for each other.' Estyn also report that all staff responded sensitively to the social and emotional needs of pupils.

Leadership and Management

In 2019, Estyn judged Llangiwg Primary school's leadership and management to be good, reporting that: 'Leaders at all levels plan appropriately for the strategic development of the school and bring about worthwhile improvements.'

Quality of accommodation

Llangiwig Primary School holds a prominent kerbside position on New Road, Ynsymeudwy and operates across two distinct sites approximately 100m apart along the same road.

The main teaching block is constructed of stonework with concrete detailing and concrete cladding to the front whilst the separate nursery is housed in a demountable type building.

The most recent building condition survey (June 2022) reports that the demountable nursery building is structurally sound and has received moderate investment over recent years to renew aging elements and is categorised as condition grade B, i.e. the building is sound, operationally safe and exhibits only minor deterioration.

The main block overall is in poor to fair condition and is categorised as condition grade C. The boiler system and distribution has reached the end of its practical and economic lifespan and needs to be replaced. Internally, timber floor coverings and kitchen areas require upgrading.

Overall, the combined total condition and accessibility costs required within 5 years for Llangiwig Primary school across both sites amount to £1,041,000.

Other schools that might be affected by this proposal

The School organisation Code (2018) gives instructions on what information must be included in a consultation document, and uses the term 'affected' many times in relation to schools other than those directly involved in the proposal. There is no clear guidance in the Code on what is meant by 'affected' and so it has been necessary to anticipate which school or schools have the possibility of being affected in some way due to the proposal, using the following principles

- Other English –medium schools where pupils from the catchment area could attend or are already attending
- Welsh medium schools where pupils from the catchment area could attend or are already attending
- Faith schools where pupils from the catchment area could attend or are already attending

- Secondary schools where pupils from the new school would be expected to transfer to for secondary education and where pupils from the catchment area could attend or are already attending
- Welsh-medium secondary schools where pupils from the catchment area could attend or already be attending
- Faith secondary schools where pupils from the catchment area could attend or are attending

A table detailing the Neath Port Talbot schools which may be affected and the relevant information about them, is included at Appendix A.

Information on schools outside Neath Port Talbot is not held by this authority, however a list has been included with the information that is available.

What alternatives have been considered?

Numerous options have been explored and the benefits and disadvantages of each option has been considered carefully by officers. A table detailing 15 of the most reasonable options explored is provided at Appendix B. Only one option is identified as a preferred option, all others have been discounted as the disadvantages outweigh the expected benefits, as shown in the table.

In summary the following disadvantages are present in a number of the options -

- Benefits of a new 21st century learning environment for all three schools not realised
- Not feasible – due to availability of land or difficulties with identified sites
- Significant extra cost and additional time delay
- Welsh Government funding not secured

Preferred Option – Option 6

Having considered all the information gathered to date, it is the view of officers that closing Alltwen, Godre'rgraig and Llangiwig Primary schools and establishing a new community school for 630 pupils and 140 nursery pupils in a 21st century new build will deliver the greatest benefits to pupils, staff and the wider community as a whole.

The inclusion of an LSC for primary aged pupils with ASD gives an opportunity to provide pupils with a purpose built facility with the aim of ensuring best possible outcomes for pupils,

Additionally establishing the school on the identified site of Parc Ynysderw and creating enhanced learning, health and wellbeing facilities to include the leisure centre, new swimming pool and Cwmtawe Community Comprehensive, will provide opportunities to develop and improve primary education in the area.

Information about the proposed new primary school

The proposed new, 21st century build, English-medium 3-11 primary school will provide for up to 630 full-time primary age pupils, 140 part-time (70 a.m./70 p.m.) nursery age pupils. This will deliver sufficient accommodation for the total combined forecasted pupil numbers, including potential growth in pupil population. For the purpose of consultation, the proposed admission number for the new primary is 90.

These forecasted numbers determine the size of the building and the number of classrooms and additional rooms that will need to be included in the proposed new school. This information has been included in the Business Case submitted to Welsh Government to secure the funding to build the proposed new school, and has been scrutinised and approved.

Five year pupil number forecasts for the 3 schools are shown in table 1 below. The projections are calculated based on the January 2022 PLASC Actual data – with all of the year groups dropped down for subsequent years. Nursery and Reception figures are based on the previous 3 year average.

Table 7

School	Jan 2022	Jan 2023	Jan 2024	Jan 2025	Jan 2026	Jan 2027
Alltwen Primary (exc. nursery)	207	193	189	176	170	163
Alltwen Primary nursery only	48	40	43	44	42	43
Godre'rgraig Primary (exc. nursery)	119	105	103	101	99	99
Godre'rgraig Primary nursery only	15	17	16	16	16	16
Llangiwig Primary (exc. nursery)	110	97	95	90	91	91
Llangiwig Primary nursery only	15	16	16	16	16	16
New Primary (exc. nursery)	436	395	387	367	360	353
New Primary nursery only	78	73	75	76	74	75

However the figures in the table above need to be considered with other information that exists. It is difficult to accurately determine the capacity of a new primary school and as the proposed new school is not expected to open until 2025 predicting the number of children who will require a place this far in advance is even more challenging. However it is vitally important to ensure that the size of the school is sufficient to be able to accommodate **all** pupils who are entitled to claim a place at the point of opening and in the future. Insufficient space could mean pupils having to travel to the nearest available school which can be distressing for pupils who are moved away from their peers and can also be costly as additional transport will be required.

It should be noted that it is not the intention of the Council to include any other school in the area in this proposal – no additional school population could be included in this proposal without a further full consultation process.

A number of factors have been taken into account to estimate the size needed for the new school. This involves a range of data sources combined with experience of previous school builds and outcomes.

Over the last 10 years the number of primary aged pupils in Neath Port Talbot Swansea Valley schools has increased by almost 130 extra pupils, and it is expected that these numbers will continue to rise as the population continues to grow. The pupil population is transient across the primary schools.

Table 8

Involved schools	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022
Alltwen	252	260	226	195	215	223	234	240	231	254	255
Godre'rgraig	95	102	118	126	138	147	156	159	153	155	134

YGG Pontardawe	340	332	336	349	351	352	356	347	336	322	335
YGG Trebannws	120	116	123	115	118	104	104	102	101	102	97
YG YBD (primary)							152	159	157	162	160
YGG Y Wern	165	156	150	155	149	148					

Data indicates that pupil numbers can alter significantly over a short period of time in these schools, with substantial numbers of pupils attending from outside their schools catchment area, but from within the wider Swansea Valley area, as shown in the table below.

Table 10: Schools and Catchment Pupil Percentages. Data source: PLASC 2022

English Medium Schools	Percentage of pupils in catchment				
	Alltwen	Llangiwg	Rhydyfro	Godre'rgraig	Rhos
Alltwen	59.3%	12.1%	1.2%	6.6%	12.9%
Llangiwg	19.4%	58.6%	20.7%	14.8%	4.3%
Rhydyfro	3.2%	1.0%	59.1%	1.6%	2.2%
Godre'rgraig	9.3%	23.2%	6.1%	69.6%	1.4%
Rhos	3.7%	0%	0.6%	0.8%	70.5%

Over 100 children from the catchment area of Alltwen, Godre'rgraig and Llangiwg attend English-medium schools elsewhere in Neath Port Talbot. Data for pupils who reside in Neath Port Talbot but attend schools elsewhere is not held by this authority, however information provided by other local authorities indicates that a significant number of children from the Swansea Valley also travel for English-medium education into Powys and Swansea.

Table 11 (November 2022)

	Pupil Numbers
Pupils living in the catchment area of Alltwen, Llangiwg or Godre'rgraig attending an EM school elsewhere in NPT	109
Pupils attending neighbouring EM schools outside NPT (Swansea and Powys)	204
Total number of pupils	313

In addition the Local Development Plan contains details of a number of new housing developments with 486 new units already created in the area, and a further 11 planned housing developments which could generate over 580 more units by 2026. This could see an additional increase in pupil numbers in the area adding to the numbers of pupils the proposed new school would need to accommodate.

Benefits of a new build school

A new build school provides the opportunity to deliver a stimulating teaching and learning environment in state of the art, 21st Century facilities

that will impact positively on the self-esteem and well-being of pupils and will aim to improve the learning outcomes for all children across the ability range.

With a new school comes more choices and improved opportunities because there is more space and better facilities. In the Estyn report of 2007, 'An evaluation of performance of schools before and after moving into new buildings or significantly refurbished premises', it is reported that the attainment and achievement of pupils improves significantly when they move into new or significantly refurbished buildings, particularly when schools are in areas with high levels of social and economic deprivation.

The new school will ensure that pupils have adaptable ICT facilities suitable for learning in the 21st century. Mobile technology will be integrated with a sound pedagogical base to provide pupils with enhanced learning experiences, equipping them with the key skills and motivation needed to raise standards.

The new build school will be an exciting place for pupils and staff both internally and externally. It will have spacious, light and airy classrooms, with access to a range of high quality and appropriate spaces for social interaction. The 2015 report, 'Clever Classrooms', found that well designed schools can significantly boost children's academic performance in reading, writing and maths. The school will allow for the delivery of a pupil centred, inclusive and skills based curriculum that extends to social and sporting activities. It will aim to promote equality and inclusion by providing facilities, sporting and cultural, which can be accessed by pupils and which the school can share with the community.

Additionally and in line with the Welsh Government and Council's commitment to tackle climate change the proposed new school will be designed to be a net zero carbon school.

A new build of this kind is a significant investment in the future of the young people of the area and clearly signals that the Council is serious about making schools fit for purpose places of learning.

Appendix E contains information about previous new build schools in Neath Port Talbot, including photographs and the views of pupils, staff, Governors

and parents who took part in reviews carried out during the first year of opening.

Information about the proposed Learning Support centre

The Council provides for the pupils of Neath Port Talbot who require specialist support for their educational needs at two community special schools and at learning support/ inclusion centres attached to community primary/secondary schools.

Recent work on reviewing the number and type of planned places and assessment provision across Neath Port Talbot has indicated that there is a need for extra places in the areas of Autistic Spectrum Disorder (ASD) and Social, Emotional and Behavioural Difficulties (SEBD), and for those early years pupils with identified additional learning needs which require further assessment.

It is proposed that the new school includes an LSC for up to 16 primary aged pupils with a statement of ASD. Including this provision in the new build will ensure that pupils are provided with purpose built, 21st century standard facilities, with the aim of ensuring best possible outcomes for pupils, and will also address identified need for further provision for pupils with ASD, specifically primary aged pupils.

Currently for primary age pupils with ASD who need specialist support or assessment, provision is made at Gnoll Primary (18 places), Maesmarchog Primary (18 places) and Waunceirch Primary (19 places). Secondary provision is available at Cwmtawe Community School (13 places), Ysgol Bae Baglan (29 places), Ysgol Hendrefelin (32 places) and at Dwr Y Felin Comprehensive school (16 places) . The high demand at both primary and secondary level is placing pressure on existing provisions which are consistently full.

Data analysis suggests that a number of pupils within the Swansea Valley travel to gain additional learning support in specialist units elsewhere within Neath Port Talbot. Creating a new provision in the proposed new school would provide additional places in an area where need has been identified.

It is therefore proposed that the new school will include an LSC which will provide learning support for pupils with ASD for up to 16 pupils who are in receipt of a Statement of SEN.

The provision will be managed by the school and be under the school's governance. However it will be a provision recognised by the Council as reserved for pupils with ALN and pupils admitted to the provision would be in addition to the admission number of the school. Admission to the provision would be via a special admission panel of the Council and specific entry and exit criteria would apply.

Pupils at the proposed provision will benefit from being taught by specialist staff, experienced in working with pupils with ASD needs. There is also the possibility that mainstream pupils with ASD could also benefit from the expertise available.

The provision will alleviate the current pressure to address demand for places for pupils with more complex needs, avoiding potential costly out of county placements and allowing opportunities for children to access learning within their local community and will complement the specialist provision and support already available within the County Borough.

Information about the proposed pool

In addition to the new build primary school and specialist ASD provision, it is also proposed to include as part of the scheme a new build 25metre, 6 lane swimming pool with additional learner pool to replace the existing Pontardawe Swimming Pool. The pool will provide an additional facility alongside the leisure centre, revitalising and increasing the health and well-being facilities in the area.

The combined new build school, specialist ASD provision and leisure facilities will form part of a learning, health and wellbeing community campus at the Parc Ynysderw site, complementing the existing Cwmtawe Community School and Pontardawe Leisure Centre provision. The pool is currently used by some schools in the area but this scheme aims to increase usage by schools and by the wider community due to its improved co-location.

Pontardawe Swimming Pool was built in 1974. The latest condition survey from August 2014 indicated that while the building was in reasonable condition, the core building services have exceeded their recommended anticipated lifecycle. A total of £1,221,783 of maintenance works was identified as being required between 2015 and 2022. Due to the complexity

of the works required the recommendation at that time was that the vast majority of the works be completed within one single phase in order to reduce the overall disruption to the facility. To date due to Capital expenditure pressures and logistics surrounding phasing, these works have not been completed.

In 2022 a further survey was undertaken which has identified that “the already serious structural defects noted in previous reports have continued to deteriorate. Comprehensive structural repair of these elements is now both necessary and urgent.”

In summary, the report notes that to extend the life of the existing building significantly would require extensive and costly repairs to be made which are likely to be cost prohibitive when compared to the cost of providing a new facility. It highlights the fact that “If the Council wishes to continue to operate the facility in the meantime, immediate action will be required” (2022 survey report)

Given the poor condition and age of the current facilities, aligned with the space available at the proposed Parc Ynysderw site, the Council are presented with an opportunity to integrate the pool and school facilities creating a new sustainable school and community asset. Inclusion of a pool at the site will further enhance the physical activity and wellbeing opportunities open to pupils who currently attend Alltwen, Godre’rgraig and Llangiwg Primary schools as well as those at Cwmtawe Community School which is also closely located to the new build site, and those of other nearby schools including YGG Trebannws and YGG Pontardawe.

The facility will also provide sustainable opportunities for swimming lessons and participation to residents of all ages within the nearby communities. This campus will provide modern leisure facilities where people can enjoy physical activity, and where physical, mental health and wellbeing is positively promoted throughout local communities.

The Welsh Index of Multiple Deprivation (WIMD) data states that six out of the eight LLSOA’s that serve the Swansea Valley are in the 50% most deprived areas of Wales, including the employment, health, education and access to services domains. The creation of the learning campus will provide all members of the Swansea Valley community with modern, fit for purpose educational, health and leisure facilities, providing a community

focal point for intergenerational health, wellbeing and cohesion in the wider Pontardawe area. It will help to deliver the Council's aim of improving the health and wellbeing of all people living in Neath Port Talbot and reducing the gap between the least and most healthy.

The expected benefits of the proposal

The proposal seeks to provide the Swansea Valley community with improved educational and health and wellbeing facilities, through creating a learning, health and wellbeing community campus for children and adults of all ages.

The proposal will lead to the more efficient and effective use of resources, resulting in revenue savings for reinvestment in the education budget - similarly, for any capital receipts accruing. In this regard, the proposal supports the Council's effective management of its education budget and promotes the more equitable distribution of funding across local schools.

Creating a primary school with a larger pupil population can:

- enable more effective delivery of the whole curriculum
- prevent the need for mixed age classes over more than 2 year groups
- provide greater opportunities for peer interaction and the development of social skills
- reduce teacher workload through the wider sharing of responsibilities
- provide more opportunities for extra-curricular activities
- provide more targeted support for children with additional learning needs through wider expertise and greater numbers of support staff
- allow for better staff development, greater opportunity for curriculum development and career opportunities through broader experience and enhanced continuing professional development options
- enable more efficient and effective use of resources, including saving money through economies of scale
- give the head teacher and governing body greater flexibility in the organisation of classes and deployment of staff

Potential Risks and Risk Management

A risk assessment has been carried out under the Council's Risk Management Policy 2018.

The potential risks associated with the proposal comprise the Council's reputation, educational standards, financial management, staff employment and service delivery.

Potential risk areas in implementing the proposal include:

- resistance to change leading to lack of pupil, parent and staff support
- educational standards not maintained
- less effective support for pupil well-being in a larger school and in a different location
- increased home to school travel time for some pupils
- staff anxiety about job security and new management arrangements
- loss of school identity from closure of existing establishments
- forecasted pupil numbers do not materialise
- budget allocation insufficient to meet needs
- 21st Century School capital funding opportunity not realised
- Welsh language not developed further
- discrimination against protected characteristics
- loss of community facilities
- increased governance and staff responsibilities

Failing to implement the proposal will result in the following teaching/learning and financial benefits not being fully realised, particularly in relation to:

- providing a stimulating and innovative teaching and learning environment that will impact positively on the self-esteem and well-being of all pupils and staff
- pupils accessing a wider range of staff expertise
- opportunities for wider peer group interaction
- staff having greater opportunity for curriculum development and career opportunities through broader experience and enhanced continuing professional development options
- a more efficient and effective use of resources, and savings from economies of scale

- reducing the number of surplus pupil places and improving the school building environment
- creating a learning and recreational campus promoting community cohesion

The benefits of implementing the proposal will mitigate the effects of identified risks. A new school provides greater prospects for improving educational attainment for pupils. Estyn (Jan 2007) reported on the performance of schools before and after moving into new buildings, stating that ageing school buildings which are in a poor state of repair cannot meet modern teaching and learning needs. The report also states that inadequate buildings make improvements in standards more challenging and that in nearly all schools with new or refurbished buildings, pupils attainment and achievement have improved and in some cases the improvement has been significant.

What is the impact on pupils and parents?

The new primary school will serve the combined catchment areas of Alltwen, Godre'rgraig and Llangiwg Primary schools. The proposed new school will provide a stimulating teaching and learning environment in state of the art, 21st Century facilities that will impact positively on the self-esteem and well-being of pupils and will aim to improve the learning outcomes for all children across the ability range. The new school will have sufficient playing fields and green space available on site which is not the case with the existing schools and which can be made available for community use.

The arrangements for admission to the new primary school will allow full-time pupils on roll at Alltwen, Godre'rgraig and Llangiwg Primary schools at the point of closure to transfer to the roll of the new school, subject to the wishes of parents or unless pupils are transferring to secondary education. Prospective pupils (including nursery pupils transferring to full-time education) will need to apply for a place at the primary school, in line with the Council's school admissions policy.

Class sizes at the new primary school will be set by the head teacher and governing body. When setting the class sizes the relevant Welsh Government legislation and guidelines will be followed, including the recommendation that classes are no larger than 30 pupils.

Admission to the proposed LSC would be via a special admission panel of the Council and specific entry and exit criteria would apply.

What is the impact on the workforce?

The proposal will mean changes that impact on the employment of school staff. All of the existing schools will close on 31st August 2024. Upon closure all staff will cease to be employed at their respective schools. The new school will set a new staffing structure appropriate to its needs and budget.

A temporary governing body will be established before the opening of the primary school. The temporary governing body will have the responsibility of appointing a head teacher. Specifically in relation to the posts of head teacher and deputy head teacher, the Council's policy is for these to be advertised nationally. Once the head teacher has been appointed that person will, together with the temporary governing body, be responsible for determining the staffing structure for the new primary school.

The primary school will open on 1st September 2024 and school staff will be employed by the new governing body for the primary school (albeit appointed by the temporary governing body).

As part of the process all school based staff will be supported by the relevant school policies and procedures which will include full consultation. Previous experience has shown that some staff wish to secure employment in the new school but others take the opportunity to take on new challenges elsewhere. Employees identified at risk of redundancy will be given access to the Council's prior consideration register. The Council is committed to supporting staff at risk of compulsory redundancy and has secured the support and goodwill of the teacher associations/trade unions and governing bodies across the Council, via an employers' pledge. The Council has a good track record for supporting staff in such situations.

What is the impact on governors?

If the proposal goes ahead a temporary governing body will be established prior to the opening of the primary school. The temporary governing body will take important decisions about the new school including the

appointment of a head teacher, agreeing a staffing structure and adopting operating procedures. The temporary governing body will also resolve other issues including school uniform which, in line with good practice, will be determined following consultation with pupils and parents.

The temporary governing body is likely to be made up of existing governors from Alltwen Primary, Godre'rgraig Primary and Llangiwig Primary schools as this ensures continuity that will place the new school on a sound footing.

Each school will continue to exist, managed by their respective governing bodies, until all three schools are closed. During this period the existing and temporary governing bodies will undertake their duties in parallel.

When the new school is opened, it will be managed by the temporary governing body until a permanent governing body is established. The governing bodies of Alltwen Primary, Godre'rgraig Primary and Llangiwig Primary schools will cease to exist once the new school is opened.

What is the impact on travel arrangements?

Support with home to school travel will be made available in line with the Council's Home to School Transport policy. This means that primary school aged pupils living 2 miles or more from their nearest suitable or designated school will be considered for transport assistance.

For many of the primary aged pupils the possible location of the proposed new school on the site at Ynysderw remains within 2 miles travel distance for homes in the catchment area. An estimate of the numbers of pupils who live further than 2 miles away from the proposed new school site at Parc Ynysderw, based on the numbers and addresses of the pupils in the three schools (2020) suggests that approx. 176 pupils could potentially be eligible for assistance with transport, which removes the need for parents to transport pupils to school by car. Home to school journey times from within the catchment area fall within reasonable limits for primary age pupils.

The remaining pupils live on routes that have been assessed as safe, although these routes will be reassessed should the proposal progress and when details of the pupils who will be attending the new school are known. At that time the Neath Port Talbot Road Safety Officers will be available to

assist and support schools, parents and pupils in planning safe routes in line with Welsh Government Learner Travel Guidance. Under the School Travel Plan requirements, all schools, together with the Council's Road Safety Team, are committed to:

- improving road safety within the local community
- raising awareness about travel issues
- encouraging walking, cycling and public transport for the school journey where applicable
- encouraging independent travel where applicable

Both the School Admissions Policy and Home to School Travel Policy are available on the Council's website: www.npt.gov.uk

What is the impact on special educational needs provision?

There are no specialist units for children with statements of special educational needs at either of the three schools, i.e. provision recognised by the Council as reserved for pupils with SEN. Pupils with additional learning needs, including children with statements of special educational needs, are supported in a mainstream setting with appropriate funding for this purpose. The new school will continue to offer this level of support.

Data analysis suggests that a number of pupils within the Swansea Valley travel to gain additional learning support in specialist units elsewhere within Neath Port Talbot. The data also shows increasing demand for specialist support at primary age for pupils in NPT with Autistic Spectrum Disorder.

Pupils attending the proposed LSC provision within the new school will benefit from being taught by specialist staff, experienced in working with pupils with ASD needs. There is also the possibility that mainstream pupils with ASD could also benefit from the expertise available as the specialist knowledge and skills-set of the staff employed to work at the proposed LSC will be available to share with mainstream staff and, as such, will indirectly benefit SEN provision at the new school.

It is also envisaged that the LSC provision will be able to provide support and training for other mainstream primary schools across Neath Port Talbot, building skills, competencies, expertise and capacity of all staff working with children with ASD.

What is the financial impact?

The cost of the new build is estimated at c.£22,705,000 apportioned as per table 12 below.

Table 12

Project	NPT Investment	WG Investment	Total Investment
Ysgol Newydd Swansea Valley	7,946,750	14,758,250	22,705,000

The funding from the Welsh Government is Welsh Government Sustainable Communities for Learning Programme which has been approved at the Outline Business Case stage of project development. Full business case approval has also been awarded subject to conditions. The funding has been specifically approved for this proposal and is not interchangeable– if there are any changes to this proposal or if a new proposal is brought forward then this would need to be submitted afresh to Welsh Government for a new business case approval process, and be assessed accordingly.

Combined backlog maintenance and accessibility costs for the existing schools amounts to circa. £1.9m which would be removed by this proposal along with the ongoing need to fund the associated costs of Godre’rgraig Primary School’s current off-site hired/leased accommodation. Additionally backlog maintenance costs for the current pool at Pontardawe amounting to £1,221,783 would also be removed by this proposal.

Revenue funding for schools is distributed on an annual basis by means of an approved formula. This ensures school budget shares are allocated on a simple, objective and measurable basis.

Most of the revenue budget allocation to Alltwen, Godre’rgraig and Llangiwg Primary schools is generated by pupil numbers. Similarly, the new primary school’s budget will be based mainly on the combined pupil roll. Efficiencies will be secured as the new school will have one head

teacher and one management structure. Revenue savings will be re-invested in the education budget. In this regard, the proposal supports the Council's management of its education budget and promotes the more equitable distribution of funding across local schools.

The proposed new school will receive additional funding to manage the LSC provision for up to 16 pupils. Meeting the special needs education of pupils in local settings, i.e. within the County Borough, avoids having to secure expensive out-of-county provision. The cost of providing education outside the County Borough for pupils with specialist needs is high, and can amount to circa. £80k per pupil per year. This annually presents a significant demand on the Council's education budget.

Additional recurring revenue costs associated may be incurred, similarly there will be revenue efficiency savings associated with this proposal.

Based on the funding delegated to schools in the 2022/2023 financial year, per pupil funding for Alltwen Primary school is £4,006 whilst for Llangiwg Primary school per pupil funding is £4,561 and for Godre'rgraig Primary school £ 4,206. This compares with the average for NPT primary schools at £4,272.

Based on a school of 770 pupils (700 F.T.E) the projected budget share for the proposed new school is estimated to be in 2022/23 = £2,556,487. Per pupil funding for the proposed new school would be approximately £3,652.

Additional transport costs are likely to be incurred should the proposal be implemented. Currently annual transport costs for Godre'rgraig Primary School amount to £101,245. It was agreed when Godre'rgraig Primary School moved from Graig Road to the temporary location at Parc Ynysderw that nursery pupils would be granted discretionary transport assistance, this cost is included in the above figure. In terms of additional pupils requiring transport as a change of school raises the number of pupils with entitlement for every minibus the average cost is £150 - £200 per day; alternatively for every coach the average cost is £220 - £260 per day. It is not yet known how many children will be entitled to transport.

Prior to the proposed new primary school opening on 1st September 2025 Alltwen, Godre'rgraig and Llangiwg primary schools will receive their annual school budget shares for the 5/12^{ths} of the financial year 2024/2025.

When the new school opens on 1st September 2025 it will receive a budget share based on the number of pupils on roll at that time.

Plans for the vacated school buildings and sites have not yet been developed. The school sites are owned by the Council and any future use will be considered within the context of the Council's corporate asset management process. If the vacated sites in whole or part are sold the monies raised will be reinvested into the general education budget.

Impact on community usage

The proposal for the new build school also includes the creation of a learning, health and wellbeing community campus through the addition of a new build pool on the Parc Ynysderw site, with the aim of providing opportunities for all members of the Swansea Valley community to benefit from modern, fit for purpose facilities. The new build school and pool's co-location alongside the existing Cwmtawe Community School and Pontardawe Leisure Centre will provide opportunities to further develop and integrate community provision with delivery partners for indoor and outdoor sporting activities. The pool is currently used by some schools in the area but this scheme aims to increase usage by schools and by the wider community due to its improved location

Cwmtawe Comprehensive School has a range of facilities that can be used by community groups including hard tennis courts, meeting spaces, specialist facilities and performance spaces. These facilities will continue to be available and can be fully utilised by the community, and the primary school facilities will complement and extend these, providing a wide range of activities, services and experiences for pupils, families and the wider community.

Early years and childcare facilities are already available within walking distance of the new school, and it is expected that wrap around care will be easier to facilitate due to the location.

Additionally Pontardawe has a rich cultural heritage, and is known for promoting and developing the arts both through the medium of Welsh as well as English. The close proximity of the new learning campus to the heart of Pontardawe town would ensure pupils and families are able to both benefit from and contribute to this heritage.

This proposal will help to deliver the Council's aim of improving the health and wellbeing of all people living in Neath Port Talbot and reducing the gap between the least and most healthy.

A Community Impact Assessment (CIA) has been undertaken for the purpose of providing information on the impact of the proposal on the local community's access to facilities and services currently available at the three schools. It has been prepared in line with the requirements of the Welsh Government's School Organisation Code. The CIA has been prepared using a range of sources and evidence, including discussion with various partner organisations in the Swansea Valley and the schools. The CIA is available as Appendix C.

Integrated Impact Assessment

An Integrated impact assessment has been undertaken. The proposal would create a new build, 21st Century School for pupils which would enhance well-being, and would provide the conditions to improve standards. The addition of an LSC for primary aged ASD pupils would address the need for additional provision in Neath Port Talbot and would seek to improve opportunities for these pupils as well as provide training and development for mainstream staff in the proposed school and the wider area. The proposed new pool would complement current provision and enhance the health and wellbeing offer for pupils and the wider community.

The Council's well-being objectives and the supporting improvement priorities are set out in the Council's Corporate Plan. This proposal directly supports wellbeing objective – 'to ensure all children get the best start in life' through the provision of a 21st century school for current and future generations of primary aged pupils. With the inclusion of a 16 place LSC for primary aged pupils with ASD in the proposal further support for the plan is evidenced, through ensuring that pupils with ALN are also given opportunities to benefit from new purpose built facilities.

Through creating facilities that can be used by the community the proposal also contributes to wellbeing objective – 'all communities are thriving and sustainable'.

To obtain Welsh Government approval of the business plan it has been essential to ensure that community benefits are fully explored and implemented throughout the construction phase. Part of this work will ensure that local businesses are used to supply labour and materials whenever feasible, local people will benefit from employment schemes and the local economy will benefit due to an increased number of people working in the area. This contributes to well-being objective 4 - 'Working with our partners we create the conditions for more secure, well paid and green work in the area and support local people into those jobs'

What is the impact on the Welsh Language?

A Welsh Language Impact Assessment has been undertaken, and is included as Appendix D to this document.

Whilst these proposals directly affect English-medium school provision, there is also a potential effect (that may be positive, negative or neutral) on Welsh-medium schools in the county, which has also been considered.

The WLIA recognises that there may be impacts as a result of this proposal on the development of the Welsh language in the community and on Welsh-medium schools in the area.

Potential impacts are highlighted along with proposed actions to mitigate against possible negative impacts, as well as identifying additional steps to reinforce positive impacts.

Consultees are invited to specifically comment on the WLIA and on potential impacts on the Welsh language.

Information on the Welsh in Education Strategic Plan

Section 84 of The School Standards and Organisation Act 2013 requires Local Authorities to prepare a Welsh in Education Strategic Plan (WESP). Neath Port Talbot's draft WESP details the plan to support and further develop Welsh language education in schools, both Welsh and English medium, and in the wider communities and planning for future growth. The plan details how further development will be secured over the next 10 years, January 2022 - January 2032.

The WESP 2022-32, is the cornerstone for the Council's vision for increasing and improving the planning of the provision of Welsh medium education in Neath Port Talbot, to enable all learners to develop their Welsh language skills and to use the language confidently in everyday life. It both complements and assists in facilitating the National vision for the Welsh language, to have 1 million Welsh speakers by 2050.

The plan has been developed through close working with partners including Neath Port Talbot schools, Menter Iaith, RhAG, Muddiad Meithrin, Neath Port Talbot College, Academi Hywel Dda Swansea University, the Urdd and with Welsh Government.

The draft WESP was submitted to Welsh Government ministers following approval by full Council on 2nd February 2022. In May 2022, in line with Section 85(5)(a) of the School Standards and Organisation (Wales) Act 2013 ("the 2013 Act"), Welsh Government consulted with officers regarding modifications to the plan. Following further discussions the majority of modifications were agreed and the WESP was amended. Formal approval of the WESP was then granted by the Minister for Education and Welsh Language in July 2022, and Council approval was granted on September 28th 2022.

Legal process and Consultation Timetable

The School Standards & Organisation (Wales) Act 2013 (the Act) provides the legislative framework by which the Council may implement a proposal. The Welsh Government's School Organisation Code, November 2018, made under Sections 38 and 39 of the Act, imposes on the Council requirements and guidelines on matters relating to school organisation. The Council's procedures are in line with legislative requirements.

Pupil travel arrangements will be in line with the requirements of the Learner Travel (Wales) Measure 2008; the Learner Travel Statutory Provision and Operational Guidance 2014; and the Council's Home to School Travel Policy, 2017.

Revenue funding will be in line with the requirements of the School Standards and Framework Act 1998; the School Funding (Wales)

Regulations 2010; and the Council's approved formula for funding schools.

The management of staff affected by the proposal will follow the relevant school policy and procedure requirements.

Neath Port Talbot County Borough Council is the proposer and the Council wishes to hear the views of all interested parties before deciding whether to progress its proposal. All responses to this consultation will be considered when making its decision and a consultation report will be published following the end of the consultation period. The consultation report will summarise the issues raised by consultees and include a response. The consultation report will also set out Estyn's view on the proposal.

Having considered the views expressed by interested parties, if the Council decides to proceed with its plan it will publish a statutory proposal. Once the statutory proposal is published there will be a 28 day period to respond in writing, known as the 'objection period'. Only objections submitted during this period will be considered. If objections are received, an objection report will be published following the end of the objection period. The report will summarise objections raised and provide a response.

Please note that only written objections submitted during the statutory notice period will be considered. Comments submitted as part of the consultation period will need to be re-submitted in writing during the statutory notice period if they are to be considered as objections.

Following the conclusion of the objection period the Council is required to determine the proposal and the matter will go before the Council's Cabinet for decision. In its decision making the Council's Cabinet will give due consideration to any objections raised alongside the case for the proposal. The proposal will be determined in line with the requirements of the School Standards and Organisation (Wales) Act 2013 and associated School Organisation Code 2018.

Process Timetable

The main activities and actions, and the dates/periods that they are scheduled to take place is set out below

What	When
Publication of consultation document	5 th December 2022
Period for submitting responses	5 th December 2022-24 th January 2023
Consultation report published	February 2023
Proposed implementation date	1 st September 2025

Consultation with children and young people

It is important that when bringing forward proposals, suitable arrangements are made to consult with pupils. The Council will consult with pupils in Alltwen, Godre'rgraig and Llangiwig Primary schools and the information gathered in these sessions will be included in the final consultation report.

The consultation document will also be sent to pupils in schools which might be affected by the proposal.

Making comment on the proposal

The purpose of this consultation document is to provide information and to invite views on the Council's proposal to open a new 3-11 school to replace Alltwen, Godre'rgraig and Llangiwig primary schools.

Formal consultation will take place during the period: 5th December 2022 - 24th January 2023. Comments on the proposal must be submitted **in writing** by letter, e-mail or on the comment form attached to this document.

Consultation responses can also be submitted using the Consultation Portal on the Council's web site or by email to SSIP@npt.gov.uk. **The closing date for responses to this consultation is 24th January 2023 at 12.00pm.** Unfortunately we will not be able consider any consultation responses received after this date.

Responses should be sent to the following address: **Andrew Thomas, Director of Education Leisure and Lifelong Learning, (marked for the attention of the SSIP Team), Civic Centre, Port Talbot SA13 1PJ** or e-mail to: SSIP@npt.gov.uk

A full list of those being consulted can be seen below:
