

Let's Talk Budget

Consultation on Neath Port Talbot Council's Budget proposals for 2023/24

All councils in England and Wales have to deliver a balanced budget by law. In Wales the 2023/24 budgets must be set by 11 March 2023.

Like councils across the whole of the UK, the financial position for Neath Port Talbot Council is one of the most, if not the most, challenging we have ever faced.

The estimated budget gap for the council next year is almost £24m - more than any single year gap faced through the recent period of austerity.

The combined impact of the war in Ukraine, the Covid pandemic and Brexit has resulted in a number of pressures for the council, just as it has for businesses and households:

- Energy prices and energy security - we estimate energy costs for the council to rise by 162% in 2023/24 (approx. £8 million).
- Inflation has already reached levels not seen since the 1980s – affecting contract and other costs, as well as contributing to a cost of living crisis across all of our communities.
- The UK Government has increased the National Living Wage by 10% and is set to increase it by a similar figure in 2023/24.
- Ongoing supply chain disruptions are adding to cost pressures.
- Income levels have been affected by the pandemic, with many residents having made significant changes to their lifestyles – this is particularly affecting theatres, car parks and leisure services where the number of paying customers is yet to return to pre-pandemic levels.
- The labour market is far more competitive with post-pandemic unemployment rates at very low levels and more employers seeking to fill jobs than there are people looking for work. This is placing pressure on recruitment and retention with consequential implications for pay and our wider employment offer.
- On a positive note, the county borough is also seeing an unprecedented level of investor interest from existing and new investors. Whilst very welcome, this is placing considerable pressure on Planning, Economic Development and other regulatory services.

As a council, we are doing and will continue to do everything we can to save money and protect the services we all rely on. We have identified significant savings, but these alone are not enough to close the budget gap for 2023/24, so are proposing a number of options to balance the budget in 2023/24. We would welcome your views on these.

The closing date for responses to this consultation is midnight on **Friday 10 February 2023**.

Ensuring a sustainable council – <i>i.e. the council will need a robust strategy to transform the way services and functions are delivered, whilst also ensuring financial sustainability and good governance</i>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Q2a If you have answered **disagree** or **strongly disagree** to any of the above, please can you tell us why:

General Reserves:

As part of the budget strategy for 2023/24 it is proposed to use £3.5m of the council's general reserves to balance the budget.

We expect the growth in demand for services to reach a peak in 2023/24. We hope to also be able to make a clearer assessment as to whether the increased demand and need we are currently responding to will return to pre-pandemic levels and the timescale over which this might occur, or alternatively, whether we will experience a (semi) permanent increase in the activity and cost base.

Q3 How do you feel about the proposal to use £3.5 million from general reserves to balance the budget in 2023/24?

Q3a If you have answered **disagree** or **strongly disagree** to question 3, please can you tell us why:

Specific Reserves:

In February 2022, the previous administration agreed, with wide support from across the political parties, to return indoor leisure services (currently run by Celtic Leisure) to the council's direct management.

Since then costs have sharply escalated, increasing the funding gap beyond that reported at the point the decision was taken by Members. A number of options for addressing this are being developed as part of the budget setting process.

It is proposed to utilise £1.4m from specific reserves to help meet the cost of running indoor leisure services whilst further options are developed.

Q4a If you have answered **disagree** or **strongly disagree** to question 4, please can you tell us why:

Council Tax:

In his Autumn Statement, the Chancellor of the Exchequer made clear that he has based his spending plans on councils raising council tax by 5%.

Even with all of the measures identified, and after the use of £4.9m reserves there still remains a budget gap for 2023/24, so as part of this consultation it is proposed that we will need to increase council tax by 4.5% to run council services in Neath Port Talbot next year.

This includes:

- an increase of 1.8% to cover the increased contribution which needs to be made to maintain the current level of Fire and Rescue Services – this is a cost over which the council has no control;
- an increase of 2% to help keep indoor leisure facilities open in 2023/24;
- increasing council tax to provide placements for children with additional learning needs.

A 4.5% increase on council tax would be equivalent to the following per month:

Monthly Increase		
- Band A = £4.15	- Band D = £6.23	- Band G = £10.38
- Band B = £4.84	- Band E = £7.61	- Band H = £12.45
- Band C = £5.53	- Band F = £8.99	- Band I = £14.53

Fair Funding For Neath Port Talbot Petition

Please could we ask one more thing of you? The trade unions are calling for Fair Funding for Neath Port Talbot, to help protect the services we all rely on such as schools, social care, refuse and recycling etc. Please consider adding your name to this and encourage others to do so as well. Go to www.npt.gov.uk/unisonpetition. Similar campaigns have made a real difference in the past.

We are aiming for 10,000 signatures to try and get a debate in the Senedd.

Thank you for your time
