Additional Representations

Following the completion of the re-consultation exercise on the amended proposal, 39 (No.) further representations were received. It is noted that neighbours were advised that their original objections would be considered and that the purpose of re-consultation was so that interested parties were aware of the amendments. There were 34 (No.) representations from individuals who previously made representations and 5 (No.) additional representations were submitted. The responses are summarised below:

- Amended plans make relatively minor changes and do not address previously expressed objections, objections were re-stated and confirmation given that these objections stood.
- Specific consideration was given to the additional sectional plan submitted and neighbours advised that they did not consider it showed an acceptable relationship to neighbouring property due to overlooking.

- Additional information was provided showing on street parking in the local area.

Additional Consultation Responses

Additional responses were received, but amendments did not result in any change to the consultation response summary provided.
