Local Analysis (1:1250)

Strengths

- ? The site is available and deliverable.
- ? The site is in an existing Industrial Estate.
- ? The location is highly sustainable in transport terms and located close to the Town Centre and a range of local amenities.
- ? The site is generally flat across the developable area and is accessible directly from the Estate Road.
- ? There are sufficient statutory service connections readily available in close proximity to the site.

Weaknesses

- ? The adjacent Industrial uses may generate noise levels that need to be addressed in the design, although the acoustic report identifies that any issue can be easily overcome.

Opportunities

- ? The site provides an opportunity to:
 - ? provide high quality light industrial accommodation in a sustainable location with easy access to the wider region.
 - ? ensure that safe access for all is provided to the proposed building(s).
 - ? provide a development that is sustainable in its construction and ongoing use.
 - ? provide a development that is sensitive to its wider environment and does not adversely affect neighbouring occupiers.
- ? Improve pedestrian access to the site and the wider area by reinstating the connection to the footpath in Holly Street.

Threats

- ? The site has a potential risk of future flooding according to the Development Advice map. However, the completed FCA has indicated that the risk can be designed out and mitigated with no loss of amenity or risk to neighbours.

Land Use (Not to scale)

NOTES:
 15 Units @ 129m² (1,388ft²)
 Total 1,935m² (20,828ft²)

Parking:
 2 car spaces + 1 Van per unit
 45 total spaces (1 per 43m²)

External Surface finishes

- Car parking and roads:
Impermeable tarmac finish drained via silt drains and fit and mix kerbs to detention basins as Structural Engineer's drawings.
- Adopted Footpaths:
New tarmac sub base and wearing course as Engineer's details.
- Bin stores and cycle stores:
Brushed concrete slab with gully refer to Structural Engineer's drawings for details.
- Building margins:
Clean stone masonry (600mm) with path edging to rear, to include Aco drain as per Engineer's details.
- On site footpaths and steps:
Brushed concrete footpaths and steps. For kerbs and details of steps refer to Structural Engineer's drawings.
- Proposed site levels
- Existing site levels
- Ducting for future BT Gigaset connectors to all units

Landscaping

- Seed Mix for Detention Basins (SUDs):
For details of planting to detention basins refer to Engineers drawings and planting schedule PS-01
- Amenity Grass Seed Mix:
Fresh seed (Grass Seed): BS low maintenance grass seed or similar) to be purchased for the growing season.
Mix Contents:

Botanical Name	Common Name
Festuca rubra commutata	Chewings Fescue
Festuca rubra	Strong Chewings Reed Fescue
Poa pratensis	Smooth Stalked Meadow Grass
Festuca longifolia	Hard Fescue
Cynosurus cristatus	Crested Dogtail
- Wildflower Grass Seed Mix:
Wildflower Meadow grass mix to banks:
Eboracate Basic Meadow Mixture EM1
- Existing trees to be retained. Refer to Tree Survey for details
- New trees mixture of:
Betula Pendula (Silver Birch) and Crataegus Monogyna (Hawthorn)
Locations to be agreed with Sustainable Drainage Consultant

- Bat boxes: 3 No BEALMARS BAT BOX installed on southern and western elevations.
- Bird boxes: 3 No 3 No Woodstone Exalts House Sparrow nest boxes. Not to be located on a southern elevation.
- Location of provision for Electric vehicle charging points. 11 no (25% of spaces), with each side to serve at least 2 parking spaces (50% of spaces)

Rev B 19070203 BT Gigaset Ducts added
 Rev A 23052023 EV Charging points added
