Report Title: Performance Measures 2023/2024 – Quarter 2
(1st April 2023 – 30th September 2023)

Purpose of the Report:

To report Quarter 2 Performance Management Data (Appendix 1) – 1st April 2023 – 30th September 2023. This will enable the Education, Skills and Wellbeing Cabinet Board and Scrutiny Members to discharge their functions in relation to Performance Management.

Executive Summary:

Appendix 1 – Performance Measures

New quarterly performance reports were reported to members from the 1st quarter 2023/24. This new format moves away from the table format that we have previously reported for a number of years, to a graph format. The reports will also include more cumulative quarterly trend

data. The new reports are visually better and include a performance summary doughnut within the cover page.

These new formats also take into account feedback from Cabinet Scrutiny Committee members on the previous performance reports format. Members received performance scrutiny training on 23rd October 2023, this included a section on the new reports format.

Performance Measures that have improved on or achieved target are GREEN status, Performance Measures that have not achieved target but performance is within 5% are AMBER status, Performance Measures that are 5% or more below target are RED status. Performance Measures that appear as BLUE status are 'Not suitable for comparison' and are for information only.

Where available, Performance Measures report Quarter 2 target, and 3 years of Quarter 2 data for comparison.

7 measures are reported in the period, of these:
3 are improving or on target,
1 performance is 5% or more below target or previous year's performance,
1 performance is 5% or lower than previous year's figure,
2 measures are not suitable for comparison.

Measures that are improving or on target include:
Measures relating to food hygiene, business compliance and air quality.

The one measure 5% or more below the target is high risk inspections for trading standards and animal health, it is hoped this will increase before the end of the year, however the target may need to be reviewed due to a new risk assessment pilot.

There were 2 measures not suitable for comparison, including risk assessments on private water supplies and redress for consumers or victims of crime, explanation is provided with the data.
